**Curious Lessons in the Museum** Claire Robins,2016-05-13 Amongst recent contemporary art and museological publications there have been relatively few which direct attention to the distinct contributions that twentieth and twenty first

century artists have made to gallery and museum interpretation practices There are fewer still that recognise the pedagogic potential of interventionist artworks in galleries and museums This book fills that gap and demonstrates how artists have been making curious but none the less useful contributions to museum education and curation for some time Claire Robins investigates in depth the phenomenon of artists interventions in museums and examines their pedagogic implications She also brings to light and seeks to resolve many of the contradictions surrounding artists interventions where on the one hand contemporary artists have been accused of alienating audiences and on the other appear to have played a significant role in orchestrating positive developments to the way that learning is defined and configured in museums She examines the disruptive and parodic strategies that artists have employed and argues for that they can be understood as part of a move to re establish the museum as a discursive forum This valuable book will be essential reading for students and scholars of museum studies as well as art and cultural studies

Images of the Art Museum Eva-Maria Troelenberg, Melania Savino, 2017-02-06 In recent years the emerging field of museum studies has seen rapid expansion in the critical study of museums and scholars started to question the institution and its functions To contribute differentiated viewpoints to the currently evolving meta discourse on the museum this volume aims to investigate how the institution of the museum has been visualized and translated into different kinds of images and how these images have affected our perception of these institutions In this interdisciplinary collection scholars from a variety of academic backgrounds including art history heritage museums studies and architectural history explore a broad range of case studies stretching across the globe The volume opens up debate about the epistemological and historiographical significance of a variety of different images and representations of the Art Museum including the transformation or adaptation of the image of the art museum across periods

and cultures In this context this volume aims to develop a new theoretical framework while proposing new methodological tools and resources for the analysis of museological representations on a global scale

**Dostoevskii's Overcoat: Influence, Comparison, and Transposition.** Joe Andrew, Robert Reid, 2013-12-23 One of the most famous quotations in the history of Russian literature is Fedor Dostoevskii's alleged assertion that We have all come out from underneath Gogol's Overcoat Even if Dostoevskii never said this there is a great deal of truth in the comment Gogol certainly was a profound influence on his work as were many others Part of this book's project is to locate Dostoevskii in relationship to his predecessors and contemporaries However the primary aim is to turn the oft quoted apocryphal comment on its head to see the profound influence Dostoevskii had on the lives work and thought of his contemporaries and successors This influence extends far beyond Russia and beyond literature Dostoevskii may be seen as the single greatest influence on the sensibilities of the twentieth and twenty first centuries To a greater or lesser extent those concerned with the creative arts in the twentieth and twenty first centuries have all come out from under Dostoevskii's Overcoat
