THE NATURE OF FASCISM

The Nature Of Fascism Paperback

B Lingard

The Nature Of Fascism Paperback:

The Nature of Fascism Roger Griffin, 2013-10-11 The Nature of Fascism draws on the history of ideas as well as on political social and psychological theory to produce a synthesis of ideas and approaches that will be invaluable for students Roger Griffin locates the driving force of fascism in a distinctive form of utopian myth that of the regenerated national community destined to rise up from the ashes of a decadent society He lays bare the structural affinity that relates fascism not only to Nazism but to the many failed fascist movements that surfaced in inter war Europe and elsewhere and traces the unabated proliferation of virulent but thus far successfully marginalized fascist activism since 1945 The Nature of Fascism Roger Griffin, 2013-10-11 The Nature of Fascism draws on the history of ideas as well as on political social and psychological theory to produce a synthesis of ideas and approaches that will be invaluable for students Roger Griffin locates the driving force of fascism in a distinctive form of utopian myth that of the regenerated national community destined to rise up from the ashes of a decadent society He lays bare the structural affinity that relates fascism not only to Nazism but to the many failed fascist movements that surfaced in inter war Europe and elsewhere and traces the unabated proliferation of virulent but thus far successfully marginalized fascist activism since 1945 **Rethinking the Nature of Fascism** António Costa Pinto, 2010-11-17 Many of the foremost experts in the study of European fascism unite to provide a contemporary analysis of the theories and historiography of fascism Essays discuss the most recent debates on the subject and how changes in the social sciences over the past forty years have impacted on the study of fascism from various perspectives

Fascism Roger Griffin, 2018-06-11 The word fascism sometimes appears to have become a catch all term of abuse applicable to anyone on the political right from Hitler to Donald Trump and from Putin to Thatcher While some argue that it lacks any distinctive conceptual meaning at all others have supplied highly elaborate definitions of its essential features It is therefore a concept that presents unique challenges for any student of political theory or history In this accessible book Roger Griffin one of the world s leading authorities on fascism brings welcome clarity to this controversial ideology He examines its origins and development as a political concept from its historical beginnings in 1920s Italy up to the present day and guides students through the confusing maze of debates surrounding the nature definition and meaning of fascism Elucidating with skill and precision its dynamic as a utopian ideology of national racial rebirth Griffin goes on to examine its post Second World War mutations and its relevance to understanding contemporary right wing political phenomena ranging from Marine Le Pen to Golden Dawn This concise and engaging volume will be of great interest to all students of political theory the history of political thought and modern history **As We Go Marching** John T. Flynn, 1973 **Understanding and Countering Fascist Movements** Joan Braune, 2023-12-22 This book is based on the premise that understanding fascism is crucial for defeating it Understanding and Countering Fascist Movements suggests fascism must be understood according to two dimensions First fascism is a social movement seeking power always already connected to sources of power

Hence fascism cannot be defeated by policing it as a crime problem nor therapeutically treating it as a pathology of mental health. Second, fascists have cognitive and emotional needs they are seeking to fulfill through their participation in the movement, but the presence of these motivations must be held in tension with the fact that fascists are responsible for their choices and that these individual motivations also exist in a wider social context of capitalism and systems of supremacy. The book opens by examining some psychological elements of recruitment and disengagement from fascist movements before addressing broader social narratives concluding with the limitations of an approach that is grounded in the national security state that relies on individualized perpetrator-centered interventions. Rejecting centrist paradigms that see fascism as extremism or accelerationism, Braune argues that fascism must be addressed in its specificity and uniqueness as an ideology and movement. Ultimately, she argues, fascism can only be defeated by countervailing social movements that not only demand radical social change but offer alternative spaces of belonging, community care, and the search for meaning. *Understanding and Countering Fascist Movements* is a philosophical contribution to antifascist theory and practice that will be appreciated by academics, students, and activists concerned about fascism today. Salazar Filipe Ribeiro De Meneses, 2013-10-18. The only complete political biography by a major Portuguese historian. *The Book in Britain* Daniel Allington, David A. Brewer, Stephen Colclough, Sian Echard, Zachary Lesser, 2019-03-11. Introduces readers to the history of books in Britain, their significance, influence, and current and future status. Presented as a comprehensive up-to-date narrative. *The Book in Britain: A Historical Introduction* explores the impact of books, manuscripts, and other kinds of material texts on the cultures and societies of the British Isles. The text clearly explains the technicalities of printing and publishing and discusses the formal elements of books and manuscripts which are necessary to facilitate an understanding of that impact. This collaboratively authored narrative history combines the knowledge and expertise of five scholars who seek to answer questions such as: How does the material form of a text affect its meaning? How do books shape political and religious movements? How have the economics of the book trade and copyright shaped the literary canon? Who has been included in and excluded from the world of books and why? *The Book in Britain: A Historical Introduction* will appeal to all scholars, students, and historians interested in the written word and its continued production and presentation. **The Birth of Fascist Ideology** Zeev Sternhell, Mario Sznajder, Maia Ashéri, 1994. When *The Birth of Fascist Ideology* was first published in 1989 in France and at the beginning of 1993 in Italy, it aroused a storm of response, positive and negative, to Zeev Sternhell's controversial interpretations. In Sternhell's view, fascism was much more than an episode in the history of Italy. He argues here that it possessed a coherent ideology with deep roots in European civilization. Long before fascism became a political force, he maintains, it was a major cultural phenomenon. This important book further asserts that although fascist ideology was grounded in a revolt against the Enlightenment, it was not a reactionary movement. It represented instead an ideological alternative to Marxism and liberalism and competed effectively with them by positing a revolt against modernity. Sternhell argues that the conceptual framework of

fascism played an important role in its development Building on radical nationalism and an antimaterialist revision of Marxism fascism sought to destroy the existing political order and to uproot its theoretical and moral foundations At the same time its proponents wished to preserve all the achievements of modern technology and the advantages of the market economy Nevertheless fascism opposed every bourgeois value universalism humanism progress natural rights and equality Thus as Sternhell shows the fascists adopted the economic aspect of liberalism but completely denied its philosophical principles and the intellectual and moral heritage of modernity Rethinking Fascism and Dictatorship in Europe A. Kallis, 2014-09-25 Fascism exerted a crucial ideological and political influence across Europe and beyond Its appeal reached much further than the expanding transnational circle of fascists crossing into the territory of the mainstream authoritarian and traditional right Meanwhile fascism's seemingly inexorable rise unfolded against the backdrop of a dramatic shift towards dictatorship in large parts of Europe during the 1920s and especially 1930s These dictatorships shared a growing conviction that fascism was the driving force of a new post liberal fiercely nationalist and anti communist order The ten contributions to this volume seek to capture theoretically and empirically the complex transnational dynamic between interwar dictatorships This dynamic involving diffusion of ideas and practices cross fertilisation and reflexive adaptation muddled the boundaries between fascist and authoritarian constituencies of the interwar European right Anti-American Myths Arnold Beichman, 2023-05-09 In his probing new introduction to Anti American Myths which was initially published twenty years ago as Nine Lies About America Arnold Beichman notes a powerful fact what makes the United States unique is not only its military power nor its huge economy nor even its great technological innovations Rather what differentiates the nation from virtually all others is that there is no large scale territorial movement whose sponsors seek to secede from the country and to establish a new nation And yet anti Americanism has characterized a small portion of ideologists whom Beichman refers to as radical egalitarians These prophets of doom still abound Everywhere the glib accusations are leveled America is sick racist materialist aggressive decadent and only violent revolution can save it Even the collapse of the Soviet Union and of socialist regimes in Eastern Europe has not quelled the rhetoric of anti Americanism It is Beichman's aim to explain the roots of such persistent opposition to American society as presently constructed Tom Wolfe in his Foreword shrewdly observes This is not a book about America it is a book that uses the subject of the United States as a device with which to explore the modern intellectual's retrograde habits of mind Beichman finds nothing particularly amusing about what American intellectuals do to rationality and the English language let alone the common weal when they get on the subject of the United States But I for one find his demonstration of the hash these men have made of the mother tongue extremely entertaining When initially published Beichman's classic was termed powerful persuasive and credible a laser beam of fact and reason by the Los Angeles Times and a most valuable antidote to a lot of cliché thinking and cliché thinking and cliché writing by the New York Times Edwin McDowell in his review for the WaH Street Journal reminds the reader that Beichman

is not a rightwinger bent on defining the status quo but unabashedly a man of the left an important figure in the international trade union movement *Anti American Myths* will be of interest to intellectual historians political scientists sociologists and all readers interested in contemporary social and political affairs

People's History and Socialist Theory (Routledge Revivals) Raphael Samuel, 2016-05-12 First published in 1981 this book brings together different types of work by numerous fragmented groups in the field of Marxist history and puts them in dialogue with each other It takes stock of then recent work explores the main new lines and looks at the political and ideological circumstances shaping the direction of historical work past and present The scope of the book is international with contributions on African history fascism and anti fascism French labour history and the transition from feudalism to capitalism It also incorporates feminist history and gives attention to some of the leading questions raised for social history by the women's movement

Fascism Paul M. Hayes, 2020-07-26 This book first published in 1973 sets out to clear away many of the confused ideas and misconceptions concerning the origins and nature of fascism The first section deals with the intellectual origins of fascism and examines the constituent strands and development of fascist theory including discussion of such topics as the myth of race the idea of the elite and the leader nationalism and the influence of militarism The book then goes on to look at fascism in action particularly in relation to economic affairs The author here examines the process by which the fascists came to power in Germany and Italy investigating both the political and social causes A third section contains discussion of the nature of more recent regimes in Greece Latin America and Africa

Fascism: The nature of fascism Roger Griffin, Matthew Feldman, 2004 The nature of fascism has been hotly contested by scholars since the term was first coined by Mussolini in 1919 However for the first time since Italian fascism appeared there is now a significant degree of consensus amongst scholars about how to approach the generic term namely as a revolutionary form of ultra nationalism Seen from this perspective all forms of fascism have three common features anticonservatism a myth of ethnic or national renewal and a conception of a nation in crisis This collection includes articles that show this new consensus which is inevitably contested as well as making available material which relates to aspects of fascism independently of any sort of consensus and also covering fascism of the inter and post war periods This is a comprehensive selection of texts reflecting both the extreme multi faceted nature of fascism as a phenomenon and the extraordinary divergence of interpretations of fascism

Responses to Nazism in Britain, 1933-1939 D. Stone, 2003-09-09 This book examines the large and previously neglected body of literature on Nazism that was produced in the years 1933-1939 Shifting attention away from high politics or appeasement it reveals that a remarkably wide range of responses was available to the reading public From sophisticated philosophical analyses of Nazism to pro Nazi apologies the book shows how Nazism informed debates over culture and politics in Britain and how before the war and the Holocaust made Nazism anathema it was often discussed in ways that seem surprising today

The Tyranny of Clichés Jonah Goldberg, 2013-04-30 An indispensable and enduring field guide to the arguments the left makes and the ones it tries

to avoid The Claremont Review of Books According to Jonah Goldberg if the greatest trick the devil ever pulled was convincing the world he didn't exist the greatest trick liberals ever pulled was convincing themselves they're not ideological Today objective journalists academics and moderate politicians peddle some of the most radical arguments by hiding them in homespun aphorisms Barack Obama casts himself as a disciple of reason He's a pragmatist opposed to the ideology and drama of the Right solely concerned with what works And today's liberals follow his lead spouting countless clichés such as One man's terrorist is another man's freedom fighter Sure if the other man is an idiot Was Martin Luther King Jr a terrorist Was Bin Laden a freedom fighter Violence never solves anything Really It solved our problems with King George III and ended slavery We need complete separation of church and state In other words all expressions of faith should be barred from politics except when they support liberal programs With humor and passion Goldberg dismantles these and many other Trojan horses that liberals use to cheat in the war of ideas He shows that the Progressive tradition of denying an ideological agenda while pursuing it vigorously under the false flag of reasonableness is alive and well And he reveals how this dangerous game may lead us further down the path of self destruction

From Fascism to Populism in History Federico Finchelstein, 2019-08-20 What is fascism and what is populism What are their connections in history and theory and how should we address their significant differences What does it mean when pundits call Donald Trump a fascist or label as populist politicians who span left and right such as Hugo Chavez Juan Peron Rodrigo Duterte and Marine Le Pen Federico Finchelstein one of the leading scholars of fascist and populist ideologies synthesizes their history in order to answer these questions and offer a thoughtful perspective on how we might apply the concepts today While they belong to the same history and are often conflated fascism and populism actually represent distinct political trajectories Drawing on an expansive record of transnational fascism and postwar populist movements Finchelstein gives us insightful new ways to think about the state of democracy and political culture on a global scale This new edition includes an updated preface that brings the book up to date midway through the Trump presidency and the election of Jair Bolsonaro in Brazil

Nazis and Fascists in Europe, 1918-1945 John Weiss, 1969 The historical record of fascism numbs the imagination Mr Weiss writes The Nazis shot gassed or buried alive some six million Jews Three or four million other passive or potential opponents of the regime were slaughtered Perhaps as many as two million prisoners of war were shot or starved to death Entire populations of hundreds of villages in Eastern Europe were destroyed by fire or bullet often down to the last woman and child Hundreds of thousands of ordinary civilians were enslaved tortured and otherwise abused to further the economic aims of the Third Reich In this moving survey of that fateful period Mr Weiss has relied on the writings of many of those who were on the scene His selection of articles from the New York Times explores the reasons behind the history The book begins by illuminating the political situation that allowed the Nazis and fascists to seize power It then analyzes the political and social policies of totalitarianism in practice the development of fascism in Europe outside Germany and Italy and finally the experience of war

Jacket flap Winners and Losers Irving Louis Horowitz, 1984 Leading sociologist Irving Louis Horowitz examines the response social science has made to contemporary subjects and issues the so called new class of the intelligentsia the ecology movement social planning alienation privatization anomie the threat of nuclear war Horowitz evaluates as a social scientist the question of values those disclosed through analysis and those threatened by it and discusses the overall political and moral impact of knowledge and methodology in social science **American Book Publishing Record Cumulative, 1950-1977** R.R. Bowker Company. Department of Bibliography, 1978

The Nature Of Fascism Paperback Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading The Nature Of Fascism Paperback free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading The Nature Of Fascism Paperback free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading The Nature Of Fascism Paperback free PDF files is

convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading The Nature Of Fascism Paperback. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading The Nature Of Fascism Paperback any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About The Nature Of Fascism Paperback Books

1. Where can I buy The Nature Of Fascism Paperback books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
