

HANS KUNDNANI

THE  
PARADOX  
OF  
GERMAN  
POWER

'A major contribution to our understanding  
of the evolution of contemporary Europe.'

Anthony Giddens

# The Paradox Of German Power

**Adam Tooze**

## **The Paradox Of German Power:**

*The Paradox of German Power* Hans Kundnani, 2015 Since the Euro crisis began Germany has emerged as Europe's dominant power. During the last three years German Chancellor Angela Merkel has been compared with Bismarck and even Hitler in the European media. And yet few can deny that Germany today is very different from the stereotype of nineteenth and twentieth century history. After nearly seventy years of struggling with the Nazi past Germans think that they more than anyone have learned its lessons. Above all what the new Germany thinks it stands for is peace. Germany is unique in this combination of economic assertiveness and military abstinence. So what does it mean to have a German Europe in the twenty-first century? In *The Paradox of German Power* Hans Kundnani explains how Germany got to where it is now and where it might go in the future. He explores German national identity and foreign policy through a series of tensions in German thinking and action between continuity and change between normality and abnormality between economics and politics and between Europe and the world.

**andererseits - Yearbook of Transatlantic German Studies** William Collins Donahue, Georg Mein, Rolf Parr, 2023-06-22 *andererseits* is a collaborative project undertaken by students and faculties of universities in the USA, Duke and the University of Notre Dame in Luxembourg, University of Luxembourg and in Germany, University of Duisburg-Essen. It provides a forum for research and reflection on topics related to the German speaking world and the field of German Studies. Works presented in the publication come from a wide variety of genres including book reviews, poetry, essays, editorials, forum discussions, academic notes, lectures as well as traditional peer-reviewed academic articles. By publishing such a diverse array of material we hope to demonstrate the extraordinary value of the humanities in general and German Studies in particular on a variety of intellectual and cultural levels. This edition features contributions by Carsten Dutt, Klaus Modick, Tanja Nusser, Thomas Pfau, Margarethe von Trotta and others.

*The Great Powers, Imperialism, and the German Problem, 1865-1925* John Lowe, 1994 John Lowe introduces the major issues in international affairs many of which are now highly topical from the period of German Unification up to the aftermath of the First World War, stressing the impact on imperialist expansion.

**Is the West in Decline?** Benjamin M. Rowland, 2015-10-30 *Is the West in Decline* is a collection of ten essays by prominent scholars of international relations and current history many of them associated with the European Studies program of the Johns Hopkins School of Advanced International Studies. The essays explore the question of decline from several perspectives: theoretical, historical, counterfactual and contemporary. Thomas Rowland's essay uses alternative history to show how an unfallen Habsburg Empire might have evolved into a state system resembling the European Union. Benjamin Rowland's essay on Oswald Spengler considers how the German historian's theory of decline could be applied to the West today. Several of the essays are country studies. Not all conclude that countries or state systems are in decline or that the condition if present is irreversible. Writing about Germany, Stephen Szabo notes that only fifteen years ago this currently robust country could have been seen as a clear exemplar of decline. Dana Allin's essay on the U.S. asks whether a

course change including retrenchment and overseas rebalancing might reverse decline or eliminate it altogether David Calleo's essay among other things looks at America's reserve currency status as a principal sustainer of American exceptionalism and asks what might happen should the U.S. lose its exorbitant privilege as reserve currency provider to the international system

**International Theory and German Foreign Policy** Jakub Eberle, Alister Miskimmon, 2022-06-23

The central aim of this book is to foster connections between scholarly discussions of German foreign policy and broader theoretical debates in International Relations and beyond While there has been a lively discussion about new German foreign policy this book argues that it has not engaged substantially with international and foreign policy theory especially with respect to its more recent developments Reviewing the recent literature on German foreign policy this book posits that the most discussed works are still largely provided by the Altmeister Maull Szabo Bulmer and Paterson who were already dominating the field a quarter of a century ago While there is a general decline in the academic study of German foreign policy the chapters in this edited volume show that a range of novel theoretically sophisticated but often disconnected scholarship has appeared on the margins This book contributes to this emerging work by providing conceptual interrogations which question the existing research and provide theoretically grounded alternatives initiating critical discussions and evaluations of the nature of Germany's actorness and the environment in which it operates and proposing applications of less familiar perspectives on German foreign policy The chapters in this book were originally published as a special issue of German Politics

**The Oxford Handbook of Geoeconomics and Economic Statecraft** Vinod K. Aggarwal, Tai Ming

Cheung, 2025 The Oxford Handbook of Geoeconomics and Economic Statecraft is a comprehensive critical and contemporary exploration of issues at the intersection of political economy and security studies Long considered separate branches of political science economics and security have become increasingly intertwined The volume examines the state of the field where it has been in the recent past and where it is likely to go in future Contributors examine conceptual edges of geoeconomics and economic statecraft as well as its core the globalizing context of the field and the challenges posed by social economic and technological changes The twenty eight chapters in the volume are divided into six parts After the introduction to the volume section 2 considers past and present thinking about the field Section 3 explores the methods used in geoeconomics and economic statecraft Section 4 looks at key issues Section 5 covers the intersection of national security and geoeconomics and the last section looks at regional perspectives in the field Geoeconomics and economic statecraft are issues of contemporary concern and on the front pages of newspapers on an almost daily basis This book provides the intellectual context and insights to understand the challenges and prospects that the world faces currently and over the long term making it a useful resource for academics practitioners business executives journalists and students

The European Union, China and Central Asia Fabienne Bossuyt, Bart Dessein, 2021-10-04 This book examines the involvement of the European Union EU and China in Central Asia and critically assesses the implications this has for the region as a whole The

volume adopts a comprehensive interdisciplinary approach combining insights from International Relations EU Studies International Economics International Law Sinology and History It concentrates on three thematic levels 1 historical and contextual 2 geopolitical and geo economic and 3 socio cultural and institutional Paying particular attention to the role of the EU and the factors driving the EU s and China s relations with Central Asia it looks at how the Central Asian countries position themselves vis vis China s growing influence and how the balance of power between China Russia and the EU plays out Contributors also explore the important historical context of the Silk Routes as well as of the erstwhile connection of the Central Asian states with the Soviet Union Critically analysing the potential areas for collaboration and synergy between the EU and China the book also discusses the extent to which they share a common ground in Central Asia that could serve as a basis for long term cooperation It will be of interest to all scholars and students of International Relations Economics Sinology and History European Approaches to United Nations Peacekeeping Joachim A. Koops, Giulia

Tercovich, 2018-12-07 This edited volume provides a comprehensive analysis of European approaches to United Nations peacekeeping by assessing past practice present obstacles and future potentials related to nine core European countries contributions to blue helmet operations By providing in depth case studies on Denmark France Germany Ireland Italy Norway Sweden The Netherlands and the United Kingdom this book offers an evaluation of European approaches as well as a wide range of facilitating and constraining factors related to the above mentioned countries future involvement in UN peacekeeping The book places particular emphasis on the recent involvement of European countries in the UN operation in Mali MINUSMA and explores to what extent this experience might lead to further marked increases of European supplies of troops and capabilities and thus a broader European return to UN peacekeeping Each chapter offers an up to date case study on key countries policies challenges and opportunities for a stronger re engagement in UN Peacekeeping It provides a comprehensive analysis of the main challenges and concrete ways ahead for overcoming institutional political financial and military obstacles both at European capitals and within the UN system on the path towards a stronger re engagement of European troop contributing countries in the field of UN Peacekeeping Furthermore each chapter includes a set of policy relevant recommendations for future ways ahead The chapters in this book were originally published in International Peacekeeping Crashed Adam Tooze, 2019-08-27 WINNER OF THE LIONEL GELBER PRIZE A NEW YORK TIMES NOTABLE BOOK OF 2018 ONE OF THE ECONOMIST S BOOKS OF THE YEAR A NEW YORK TIMES CRITICS TOP BOOK An intelligent explanation of the mechanisms that produced the crisis and the response to it One of the great strengths of Tooze s book is to demonstrate the deeply intertwined nature of the European and American financial systems The New York Times Book Review From the prizewinning economic historian and author of Shutdown and The Deluge an eye opening reinterpretation of the 2008 economic crisis and its ten year aftermath as a global event that directly led to the shockwaves being felt around the world today We live in a world where dramatic shifts in the domestic and global economy command the

headlines from rollbacks in US banking regulations to tariffs that may ignite international trade wars But current events have deep roots and the key to navigating today's roiling policies lies in the events that started it all the 2008 economic crisis and its aftermath Despite initial attempts to downplay the crisis as a local incident what happened on Wall Street beginning in 2008 was in fact a dramatic caesura of global significance that spiraled around the world from the financial markets of the UK and Europe to the factories and dockyards of Asia the Middle East and Latin America forcing a rearrangement of global governance With a historian's eye for detail connection and consequence Adam Tooze brings the story right up to today's negotiations actions and threats a much needed perspective on a global catastrophe and its long term consequences

**Germany and the European Union** Simon Bulmer, William E. Paterson, 2018-11-08 Winner of the UACES Best Book Prize 2020 The jury commented It is impossible to study or understand European integration without understanding Germany's role and place in this This book is therefore a must read This new textbook offers a path breaking interpretation of the role of the European Union's most important member state Germany Analyzing Germany's domestic politics European policy relations with partners and the resultant expressions of power within the EU the text addresses such key questions as whether Germany is becoming Europe's hegemon and if Berlin's European policy is being constrained by its internal politics The authors both leading scholars in the field situate these questions in their historical context and bring the subject up to date by considering the centrality of Germany to the liberal order of the EU over the last turbulent decade in relation to events including the Eurozone crisis and the 2017 German federal election This is the first comprehensive and accessible guide to a fascinating relationship that considers both the German impact on the EU and the EU's impact on Germany This book is the ideal companion for undergraduate and postgraduate students who are studying the European Union or German Politics from the perspectives of disciplines as wide ranging as Politics European Union Studies Area Studies Economics Business and History It is also an essential resource for all those studying or practicing EU policy making and communication

The European Union in Crisis Desmond Dinan, Neill Nugent, William E. Paterson, 2017-09-09 The European Union EU is in crisis The crisis extends beyond Brexit the fluctuating fortunes of the eurozone and the challenge of mass migration It cuts to the core of the EU itself Trust is eroding power is shifting politics are toxic disillusionment is widespread and solidarity has frayed In this major new text leading academics come together to unpack all dimensions of the EU in crisis and to analyse its implications for the EU its member states and the ongoing study of European integration Europe's Crises Manuel Castells, Olivier Bouin, Joao Caraça, Gustavo Cardoso, John Thompson, Michel Wieviorka, 2018-03-16 Today the European Union is facing a crisis as serious as anything it has experienced since its origins more than half a century ago What makes this so serious is that it is not a single crisis but rather multiple crises the euro crisis the migration refugee crisis Brexit etc that overlap and reinforce one another creating a cumulative array of challenges that threatens the very survival of the EU For the first time in its history there is a real risk that the EU could break up This volume brings together sociologists economists

and political scientists from around Europe to shed light on how the EU got into this predicament. It argues that the multiple crises that have plagued the European Union in the last decade stem to a large extent from flaws in its construction and that these flaws are consequences of the political processes that led to the formation of the EU. In other words, the decisions that made possible the development of the EU created the conditions for the multiple crises it experiences today. This timely and wide-ranging book on one of the most important issues of our time will be of great interest to students and scholars in the social sciences, to politicians and policy makers, and to anyone concerned with Europe and its future.

*The Practice of "One Country, Two Systems" Policy in Hong Kong* Lau Siu-Kai, 2017-05-23

**The Routledge Companion to the Frankfurt School** Peter E. Gordon, Espen Hammer, Axel Honneth, 2018-09-03

The portentous terms and phrases associated with the first decades of the Frankfurt School—exile, the dominance of capitalism, fascism—seem as salient today as they were in the early twentieth century. The *Routledge Companion to the Frankfurt School* addresses the many early concerns of critical theory and brings those concerns into direct engagement with our shared world today. In this volume, a distinguished group of international scholars from a variety of disciplines revisits the philosophical and political contributions of Theodor W. Adorno, Walter Benjamin, Max Horkheimer, Herbert Marcuse, Jürgen Habermas, Axel Honneth, and others. Throughout the Companion, the focus is on the major ideas that have made the Frankfurt School such a consequential and enduring movement. It offers a crucial resource for those who are trying to make sense of the global and cultural crisis that has now seized our contemporary world.

*The Handbook of European Defence Policies and Armed Forces* Hugo Meijer, Marco Wyss, 2018-06-20

The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union. The *Handbook of European Defence Policies and Armed Forces* provides the first comprehensive analysis of national security and defence policies, strategies, doctrines, capabilities, and military operations, as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war. A truly cross-European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature. The *Handbook of European Defence Policies and Armed Forces* aims to fill this gap with fifty-one contributions on European defence and international security from around the world. The six parts focus on country-based assessments of the evolution of the national defence policies of Europe's major medium and lesser powers since the end of the cold war; the alliances and security partnerships developed by European states to cooperate in the provision of national security; the security challenges faced by European states and their armed forces, ranging from interstate through intra-state and transnational; the national security strategies and doctrines developed in response to these challenges; the military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines; and finally, the national or multilateral military operations by European armed forces. The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the

comparative study of national defence policies and armed forces across Europe      *Personal Diplomacy in the EU* Roland Vogt, 2016-10-04 At a time when the economic troubles and bailouts of Greece and other European economies are casting significant doubt on the future viability of the Eurozone and the EU it is crucial to examine the origins of the political will and leadership that is necessary to move the integration process forward This book makes a significant conceptual and empirical contribution by elucidating the extent to which the integration process hinges not on institutions and norms but on the relations among leaders Vogt conducts a comparative diplomatic history of three critical junctures in the process of European integration the creation of the Common Market 1955 1957 British accession 1969 1973 and the introduction of the Euro 1989 1993 He illustrates how personal diplomacy leadership constellations and the dynamics among leaders enable breakthroughs or inhibit accords He also reveals how the EU's system of top level decision making that privileges institutionalised summitry has operated in the past and suggests in a separate chapter why it has come to atrophy and prove more dysfunctional of late      *1989 and the West* Eleni Braat, Pepijn Corduwener, 2019-07-15 Back in 1989 many anticipated that the end of the Cold War would usher in the end of history characterized by the victory of democracy and capitalism At the thirtieth anniversary of this momentous event this book challenges this assumption It studies the most recent era of contemporary European history in order to analyse the impact consequences and legacy of the end of the Cold War for Western Europe Bringing together leading scholars on the topic the volume answers the question of how the end of the Cold War has affected Western Europe and reveals how it accelerated and reinforced processes that shaped the fragile geopolitical and economic order of the continent today In four thematic sections the book analyses the changing position of Germany in Europe studies the transformation of neoliberal capitalism answers the question how Western Europe faced the geopolitical challenges after the Berlin Wall came down and investigates the crisis of representative democracy As such the book provides a comprehensive and novel historical perspective on Europe since the late 1980s      **Walking the Highwire** Olli Rehn, 2020-02-23 Walking the Highwire tells the story of the Eurozone Crisis from the perspective of the former Vice President of the European Commission who was responsible for Economic and Monetary Affairs in 2010 2014 It is a comprehensive European account that covers both events and decisions in Brussels and Frankfurt and in the member states both in distressed countries and creditor states It also provides an economic political analysis of the crisis and its management recognising that the Euro was created politically and saved politically Thoroughly researched and based on economic analysis of the time reports on various meetings and the author's own speaking notes and diary this book begins with a narrative of crisis management 2009 2012 before moving on to address the beginning of the recovery from 2013 2014 It concludes with the lessons learnt from the crisis and a programme for reform of the Eurozone in the 2020s with contemporary policy relevance This is an entertaining and engaging account which will be of interest to a wide audience scholars and students practitioners and commentators of the Eurozone      **Authoritarian Liberalism and the**

**Transformation of Modern Europe** Michael A. Wilkinson, 2021-06-10 This title recounts the transformation of Europe from the post war era until the Euro crisis using the tools of constitutional analysis and critical theory The central claim is twofold Europe has been gradually reconstituted in a manner that combines political authoritarianism with economic liberalism and that this order is now in a critical condition Authoritarian liberalism is constructed supranationally through a taming of inter state relations in the project of European integration at the domestic level through the depoliticization of state society relations and socially through the emergence of a new constitutional imaginary based on liberal individualism In the language of constitutional theory this transformation can be captured by the substitution of supranationalism for internationalism technocracy for democracy and economic for political freedom Sovereignty is restrained democracy curtailed and class struggle repressed This constitutional trajectory takes time to unfold and develop and it presents continuities and discontinuities On the one hand authoritarian liberalism is deepened by the neoliberalism of the Maastricht era and the creation of Economic and Monetary Union On the other hand counter movements then also begin to emerge geopolitically in the return of the German question domestically in the challenges to the EU presented by constitutional courts and informally in the rise of anti systemic political parties and movements Sovereignty democracy and political freedom resurface but are then more actively suppressed through the harsher authoritarian liberalism of the Euro crisis phase This leads now to an impasse Anti systemic politics return but remain uneasily within the EU suggesting authoritarian liberalism has reached its limits if just about managing to maintain constitutional order As yet there has been no definitive rupture with the possible exception of Brexit

**The Transformation of the Liberal International Order** Yuichi Hosoya, Hans Kundnani, 2023-10-24 This open access book aims to emphasize the potential for Japan Europe and Indo Pacific countries including the US to respond to shared domestic and international challenges on finding joint ways to uphold and develop the liberal international order LIO in the Asian Pacific region and the world It explores how these countries and the region the EU can work together to promote solidarity and cooperation to advance democratic standards and rules based norms globally The US understands the LIO in a political sense and centers its focus on democracy aiming to build a coalition of democracies opposed to China and Russia which represent a kind of authoritarian axis The US aims both to defend the LIO and respond to the China challenge and to build a coalition of countries that will do both In contrast European countries aim at defending the rules based order a term preferred because they fear that the concept of the LIO might alienate or antagonize non democratic countries They face a dilemma between working with China to reform the LIO or in seeking to defend it from China excluding China Germany and France differ regarding whether to play a passive or active role in the Indo Pacific the former choosing to preserve peace and stability for continued exports and until recently doing little to contribute to security Its views echo those of the ASEAN countries which are unable or unwilling to take an active role in protecting the LIO On the contrary France along with the UK actively carries out presence operations in the Indo Pacific

Rather than upholding US dominance France supports a multipolar order that will also reduce China's influence in the region with France acting as a balancing power and offering an alternative to the choice between China and the United States Japan and India show interest in European views with the former leaning more toward its allies the US and AUKUS and the latter seeing Europe less as an alternative to the status quo and more as a complement of QUAD This book concludes that the US needs to build coalitions rather than forcing allies and neighbors to choose sides while Japan Asian countries and Europeans should more actively reform the LIO

## Unveiling the Power of Verbal Art: An Mental Sojourn through **The Paradox Of German Power**

In a global inundated with screens and the cacophony of instantaneous connection, the profound energy and psychological resonance of verbal artistry often fade in to obscurity, eclipsed by the regular barrage of noise and distractions. ### **The Paradox Of German Power Introduction**

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free The Paradox Of German Power PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the

information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free The Paradox Of German Power PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of The Paradox Of German Power free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

### **FAQs About The Paradox Of German Power Books**

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. The Paradox Of German Power is one of the best book in our library for free trial. We provide copy of The Paradox Of German Power in digital format, so the resources that you find are reliable. There are also many Ebooks of related with The Paradox Of German Power. Where to download The Paradox Of German Power online for free? Are you looking for The Paradox Of German Power PDF? This is definitely going to save you time and cash in something you should think about.
