The Parthenon Frieze With Cdrom:

The Parthenon Frieze Jenifer Neils, 2006-02-27 While the sculpted Ionic frieze of the Parthenon with its galloping horsemen and classically portrayed gods is reproduced in every art history text and has been much studied by scholars no single book has yet been devoted to all its myriad aspects This study by classical archaeologist and art historian Jenifer Neils breaks new ground by considering all aspects of this complex and controversial monument Although the frieze has been studied for over two hundred years most scholarship has sought an overall interpretation of the iconography rather than focusing on the sculpture's visual language essential for a full understanding of the narrative Neils study not only decodes the language of the frieze but also analyzes its conception and design style and content as well as its impact on later art Unusual for its wide ranging approach to the frieze this book also brings ethical reasoning to bear on the issue of its possible repatriation as part of the on going Elgin Marble debate As one of the foremost examples of the high classical style and the finest expression of mid fifth century Athenian ideology the Parthenon frieze is without doubt one of the major monuments of western civilization and as such deserves to be understood in all its dimensions The accompanying CD ROM contains a virtual reality Macromedia Director movie of the complete frieze based on the plaster casts in the Skulpturhalle in Basel Switzerland Developed by Rachel Rosenzweig of the Department of Greek and Roman Art of the Cleveland Museum of Art the casts are arranged in conformity with Neils reconstruction and enable the user to view them in succession as if walking around the Parthenon The CD ROM requires a computer running either MAC OS 8.01 or later or Windows 95 or later *The Parthenon Enigma* Joan Breton Connelly, 2014 A revolutionary new understanding of the West's most iconic building and the people who made it Jacket **The Acropolis Restoration News**, 2007 **On-line Virtual Museums: an application of on-line VR Museum for the Parthenon Marbles. Internet: a means of cultural repatriation** Kleio Tzanaki, 2004-12-16 Among the most debated archaeological problems is the repatriation of cultural objects that have been removed from the country of origin and then dispersed in Museums around the world The need for the return of cultural objects to their homelands is not only derived from the people they belong to but also from those they appreciate their value and have archaeological interest in them However there are a number of problems revolved around most cases which prohibit the cultural repatriation to be achieved The case of the Parthenon Marbles is one of the best known claims for the repatriation of cultural property as its sculptures which constitute an integral part of it have been removed from the temple and are stored in different Museums Towards the problem of cultural repatriation Parthenon Marbles case study is used to research to what extent the Internet can be introduced as a means of providing a form of cultural repatriation through the idea of a Virtual Museum The argument is supported by the conception design and construction of a Virtual Museum for the Parthenon Marbles The web site is a pilot application implementing some sides of the temple while providing guidelines and techniques for completion of the rest The development of the web site also provided an opportunity for evaluating tools and techniques

used in virtual museums Finally the VR Museum concept as a means of repatriation is evaluated discussing the areas where such an application would be beneficial and also the level of information that can provide for the specified repatriated objects according to specific user groups and needs **Pinning Down the Past** Mike Corbishley, 2014-04-17 In a relatively short period of time the pursuit of archaeology has evolved from an antiquarian interest to a specialised scientific activity Part of this evolution has always included the interest of the public and archaeologists efforts to educate them As each new method and technique is developed and each new specialism is created the challenge of making archaeology available as a learning resource grows with it Today for example the issues which surround archaeology and heritage such as the pressures of tourism on sites now form part of many formal educational curricula This book the first to deal with the subject in such depth examines the place of education and outreach within the wider archaeological community Written by one of Britain's leading archaeological educationalists it charts the sometimes difficult and painful growth and development of education and archaeology Packed full of informative and enlightening case studies from the circus at Colchester to Sutton Hoo and Hadrian's Wall this work examines exactly how we have reached the point we are at where that place is and suggests areas for future development By drawing upon many decades of experience at the front line of archaeological education the author has produced a key text that will play a major role in the on going development of the heritage industry Publisher's website

Athens Barrie Kerper, 2004 Provides a collection of travel articles on the culture cuisine and everyday life of the Greek city along with bibliographies and practical tips on transportation culinary treasures accommodations and sights *Ancient Greek Civilization* David Sansone, 2016-09-12 The third edition of *Ancient Greek Civilization* is a concise engaging introduction to the history and culture of ancient Greece from the Minoan civilization to the age of the Roman Empire Explores the evolution and development of Greek art literature politics and thought across history as well as the ways in which these were affected by Greek interaction with other cultures Now includes additional illustrations and maps updated notes and references throughout and an expanded discussion of the Hellenistic period Weaves the latest scholarship and archeological excavations into the narrative at an appropriate level for undergraduates *Becoming Good Democrats and Wives* Burkhard Fehr, 2011 In this study the analysis of the Parthenon frieze is based on the assumption that the pictorial narrative scenes of the Classical period were conceived with the intention of exemplifying comprehensive patterns of action which were related to ethical values and social status In this way it can be shown that on the west north and south side of the frieze the pictorial narration in several chapters demonstrates how the young male Athenians become qualified members of the citizenry through a multi stage process of civic education carried out by the democratic polis The stages of female socialization are visualized on the east side the goal being the status and responsibilities of a married woman who raises and educates her offspring in an Athenian oikos as represented in the central scene of the east frieze The messages of the other Parthenon sculptures as well as of the colossal statue of Athena in the center of this sacred building are closely related to this

frame of reference One could claim that the pictorial narrative of the Parthenon frieze is the first comprehensive discourse on democracy Series Hephaistos Kritische Zeitschrift zu Theorie und Praxis der Archäologie und angrenzender Gebiete
