Beyond Price R. A. Donkin, 1998 Man has been intrigued by the origin of pearls sensitive to their beauty and convinced of their medicinal value for at least 5 cent A mixture of folklore and observation preceded the earliest scientific inquiries Fishing and trade commenced in S Asia between India and Sri Lanka and around the Persian Gulf In W and Central Europe Inner Asia and China and N Amer Freshwater pearls were probably known and treasured before those of marine origin A refined nomenclature points to a long familiarity with etymologically related words for pearl Pearls were prominent among the luxury products of world trade and were high among the objectives of expeditions to the eastern and western Tropics

What Color Is the Sky? Michael Siems, 2010-08-08 As an experienced globetrotter on August 28 2009 Michael Siems set out to teach English in China He was open to new adventure but unknowingly ill prepared for the often shocking journey that lay ahead *What Color Is the Sky* is a humorous paen to the author's stumbling through the misunderstandings and events that occur when two strikingly dissimilar cultures meet Not just lost in translation but lost in the pantomime that life becomes when there is no shared language in the midst of strikingly different worldviews The book is a portrait of real life in China where the sky is white and the moon and stars are rarely seen Among the dizzying pace of development the angst created by the modern world impacting a centuries old traditional culture and the beauty of this ancient land the work relates the love affair that he develops with his students who graciously lovingly and humorously grant him a window to the Chinese heart and mind

Sages and Filial Sons Julia Ching, R. W. L. Guisso, 1991 **Re-enchanting Modernity** Mayfair Yang, 2020-05-15 In *Re-enchanting Modernity* Mayfair Yang examines the resurgence of religious and ritual life after decades of enforced secularization in the coastal area of Wenzhou China Drawing on twenty five years of ethnographic fieldwork Yang shows how the local practices of popular religion Daoism and Buddhism are based in community oriented grassroots organizations that create spaces for relative local autonomy and self governance Central to Wenzhou's religious civil society is what Yang calls a ritual economy in which an ethos of generosity is expressed through donations to temples clerics ritual events and charities in exchange for spiritual gain With these investments in transcendent realms Yang adopts Georges Bataille's notion of ritual

expenditures to challenge the idea that rural Wenzhou's economic development can be described in terms of Max Weber's notion of a Protestant Ethic. Instead Yang suggests that Wenzhou's ritual economy forges an alternate path to capitalist modernity.
