Women, Pilgrimage, and Rituals of Healing in Modern and Ancient Greece Evy Johanne Håland, 2023-07-21 This book investigates religious rituals and gender in modern and ancient Greece with a specific focus on women's role in connection with healing. How can we come to understand such mainstays of ancient culture as its healing rituals when the male recorders did not and could not know or say much about what occurred since the rituals were carried out by women? The book proposes that one way of tackling this dilemma is to attend similar healing rituals in modern Greece carried out by women and compare the information with ancient sources, thus providing new ways of interpreting the ancient material we possess. Carrying out fieldwork being present during often enduring rituals within cultures despite other changes teaches one whole new ways of looking at written and pictorial records of such events. By bringing ancient and modern worlds into mutual illumination, this text also has relevance beyond the Greek context both in time and space. **National Geographic**

Icons of Sound Bissera Pentcheva, 2020-11-23 Icons of Sound Voice Architecture and Imagination in Medieval Art brings together art history and sound studies to offer new perspectives on medieval churches and cathedrals as spaces where the perception of the visual is inherently shaped by sound. The chapters encompass a wide geographic and historical range from the fifth to the fifteenth century and from Armenia and Byzantium to Venice, Rome, and Santiago de Compostela. Contributors offer nuanced explorations of the intangible sonic aura produced in these places by the ritual music and harness the use of digital technology to reconstruct historical aural environments. Rooted in a decade-long interdisciplinary research project at Stanford University, Icons of Sound expands our understanding of the inherently intertwined relationship between medieval chant and liturgy, the acoustics of architectural spaces, and their visual aesthetics. Together, the contributors provide insights that are relevant across art history, sound studies, musicology, and medieval studies.
