much in a specific time and place 1999 in an old fashioned New York City neighborhood that is becoming rapidly gentrified and the enormously engaging result resembles a twentieth century version of *The Way We Live Now* Anne and Charles Braithwaite have spent their entire married life in a sedate old apartment building in Morningside Heights a northern Manhattan neighborhood filled with intellectual artistic souls like themselves who thrive on the area's abundant parks cultural offerings and reasonably priced real estate The Braithwaites musicians with several young children are at the core of a circle of friends who make their living as writers psychiatrists and professors But as the novel opens their comfortable life is being threatened as a buoyant economy sends newly rich Wall Street types scurrying northward in search of good investments and more space At the same time the Braithwaites weather the difficult love lives of their friends and all of the characters confront their fears that the institutions and social values that have until now provided them with meaning and stability science religion the arts are in increasing decline Though the group clings to the rituals and promises of such institutions the Braithwaites imminent departure sends shock waves through their community As the family contemplates the impossible a move to the suburbs their predicament represents the end of a cultured kind of city life that middle class families can no longer afford This intelligent and captivating social chronicle is the first of a trilogy of novels about Morningside Heights readers sure to be drawn in by Mendelson's habit forming prose have much more to look forward to
