Kundera and the Ambiguity of Authorship Christine Angela Knoop, 2011 The scholarly debate about authorship has not only transcended all aspects of literary studies but has also prompted contemporary authors to counter subvert and challenge it One author to whom this applies in particular is Milan Kundera In this study Christine Knoop re-examines Kundera's essayistic and novelistic work against the background of the theoretical paradigms of literary authority intention and ownership In so doing she demonstrates how he overcomes traditional theoretical distinctions by postulating the existence of both a strong powerful author figure and of potentially boundless literary meaning Kundera's radically ambiguous conception of the author in the novel developed primarily to influence the reader is discussed and developed to cast new light on the critical debate about authorship at large while maintaining his primary conjecture that authorship as such is perpetually hybrid dynamic and unfinished Christine Angela Knoop is a Postdoctoral Research Associate for Comparative Literature at Freie Universität Berlin
