Flath, 2016-03-31 The Temple of Confucius Kong Temple in Qufu is the definitive monument to the world s greatest sage From its humble origins deep in China s past the home of Confucius grew in size and stature under the auspices of almost every major dynasty until it was the largest and most richly endowed temple in the Ming and Qing empires The decline of state sponsored ritualism in the twentieth century triggered a profound identity crisis for the temple and its worshipers yet the fragile relic survived decades of neglect war and revolution and is now recognized as a national treasure and a World Heritage Site Traces of the Sage is the first comprehensive account of the history and material culture of Kong Temple

Following the temple's development through time and across space it relates architecture to the practice of Confucianism explains the temple's phenomenal perseverance and explores the culture of building in China Other chapters consider the problem of Confucian heritage conservation and development over the last hundred years a period when the validity of Confucianism has been called into question and the challenge of remaking Confucian heritage as a commercial enterprise By reconstructing its social life the study interprets Kong Temple as an active site of transaction and negotiation and argues that meaning does not hide behind architecture but emerges from the circulation and regeneration of its spaces and materials The most complete work on a seminal monument in Chinese history through millennia *Traces of the Sage* will find a ready audience among cultural and political historians of imperial and modern China as well as students and scholars of architectural history and theory and Chinese ritual

*A Bitter Revolution* Rana Mitter, 2004 China is now poised to take a key role on the world stage but in the early twentieth century the situation could not have been more different Rana Mitter goes back to this pivotal moment in Chinese history to uncover the origins of the painful transition from a premodern past into a modern world By the 1920s the seemingly civilized world shaped over the last two thousand years by the legacy of the great philosopher Confucius was falling apart in the face of western imperialism and internal warfare Chinese cities still bore the imprints of its ancient past with narrow lanes and temples to long worshipped gods but these were starting to change with the influx of foreign traders teachers and missionaries all eager to shape China's ancient past into a modern present Mitter takes us through the resulting social turmoil and political promise the devastating war against Japan in the 1940s Communism and the Cultural Revolution of the 1960s and the new era of hope in the 1980s ended by the Tian anmen uprising He reveals the impetus behind the dramatic changes in Chinese culture and politics as being China's New Culture a strain of thought which celebrated youth individualism and the heady mixture of strange and seductive new cultures from places as far apart as America India and Japan

**Who Owns Antiquity?** James Cuno, 2010-10-18 Whether antiquities should be returned to the countries where they were found is one of the most urgent and controversial issues in the art world today and it has pitted museums private collectors and dealers against source countries archaeologists and academics Maintaining that the acquisition of undocumented antiquities by museums encourages the looting of archaeological sites countries such as Italy Greece Egypt Turkey and China have claimed ancient artifacts as state property called for their return from museums around the world and passed laws against their future export But in Who Owns Antiquity one of the world's leading museum directors vigorously challenges this nationalistic position arguing that it is damaging and often disingenuous Antiquities James Cuno argues are the cultural property of all humankind evidence of the world's ancient past and not that of a particular modern nation They comprise antiquity and antiquity knows no borders Cuno argues that nationalistic retention and reclamation policies impede common access to this common heritage and encourage a dubious and dangerous politicization of antiquities and of culture itself Antiquities need to be protected from looting but also from nationalistic identity politics To do this Cuno calls for measures to broaden rather than restrict

international access to antiquities He advocates restoration of the system under which source countries would share newly discovered artifacts in exchange for archaeological help and he argues that museums should again be allowed reasonable ways to acquire undocumented antiquities Cuno explains how partage broadened access to our ancient heritage and helped create national museums in Cairo Baghdad and Kabul The first extended defense of the side of museums in the struggle over antiquities Who Owns Antiquity is sure to be as important as it is controversial Some images inside the book are unavailable due to digital copyright restrictions *Childbirth Across Cultures* Helaine Selin, 2009-12-01 This book will explore the childbirth process through globally diverse perspectives in order to offer a broader context with which to think about birth We will address multiple rituals and management models surrounding the labor and birth process from communities across the globe Labor and birth are biocultural events that are managed in countless ways We are particularly interested in the notion of power Who controls the pregnancy and the birth Is it the hospital the doctor or the in laws and in which cultures does the mother have the control These decisions regarding place of birth position who receives the baby and even how the mother may or may not behave during the actual delivery are all part of the different ways that birth is conducted One chapter of the book will be devoted to midwives and other birth attendants There will also be chapters on the Evolution of Birth on Women's Birth Narratives and on Child Spacing and Breastfeeding This book will bring together global research conducted by professional anthropologists midwives and doctors who work closely with the individuals from the cultures they are writing about offering a unique perspective direct from the cultural group *Uygur Patronage In Dunhuang* Lilla Russell-Smith, 2005 This study of local art patronage in tenth and eleventh century on the Silk Road offers a new explanation for the development of the style and iconography of well known paintings today in the British Museum in London and the Musee Guimet in Paris exploring the important effect of regional artistic centres on Buddhist art in Dunhuang and China
