

RELIGION IN THE PALEOLITHIC AGE

The Origins Of Religion In The Paleolithic

Ian Pickup

The Origins Of Religion In The Paleolithic:

The Origins of Religion in the Paleolithic, 2015 The Origins of Religion in the Paleolithic G. J. Wightman, 2015

How did religion emerge and why? What are the links between behavior, environment and religiosity? Diving millions of years into the past to a time when human ancestors began grappling with issues of safety, worth, identity, loss, power and meaning in complex and difficult environments, Gregory J. Wightman explores the significance of goal-directed action and the rise of material culture for the advent of religiosity and ritual. The book opens by tackling questions of cognitive evolution and group psychology and how these ideas can integrate with archaeological evidence such as stone tools, shell beads and graves. In turn, it focuses on how human ancestors engaged with their environments, how those engagements became routine and how eventually certain routines took on a recognizably ritualistic flavor. Wightman also critically examines the very real constraints on drawing inferences about prehistoric belief systems solely from limited material residues. Nevertheless, Wightman argues that symbolic objects are not merely illustrative of religion but also constitutive of it in the continual dance between brain and behavior between internal and external environments lie the seeds of ritual and religion. Weaving together insights from archaeology, anthropology, cognitive and cultural neuroscience, history and philosophy of religions and evolutionary social and developmental psychology, Wightman provides an intricate, evidence-based understanding of religion's earliest origins. Between brain and behavior between internal and external environments lie the seeds of ritual and religion. Weaving together insights from archaeology, anthropology, cognitive and cultural neuroscience, history and philosophy of religions and evolutionary social and developmental psychology, Wightman provides an intricate, evidence-based understanding of religion's earliest origins. That symbolic objects are not merely illustrative of religion but also constitutive of it in the continual dance between brain and behavior between internal and external environments lie the seeds of ritual and religion. Weaving together insights from archaeology, anthropology, cognitive and cultural neuroscience, history and philosophy of religions and evolutionary social and developmental psychology, Wightman provides an intricate, evidence-based understanding of religion's earliest origins.

Wightman explores the significance of goal-directed action and the rise of material culture for the advent of religiosity and ritual. The book opens by tackling questions of cognitive evolution and group psychology and how these ideas can integrate with archaeological evidence such as stone tools

shell beads and graves In turn it focuses on how human ancestors engaged with their environments how those engagements became routine and how eventually certain routines took on a recognizably ritualistic flavor Wightman also critically examines the very real constraints on drawing inferences about prehistoric belief systems solely from limited material residues Nevertheless Wightman argues that symbolic objects are not merely illustrative of religion but also constitutive of it in the continual dance between brain and behavior between internal and external environments lie the seeds of ritual and religion Weaving together insights from archaeology anthropology cognitive and cultural neuroscience history and philosophy of religions and evolutionary social and developmental psychology Wightman provides an intricate evidence based understanding of religion s earliest origins

Anthropology and Religion Robert L. Winzeler, 2012-04-12 Drawing from ethnographic examples found throughout the world this revised and updated text offers an introduction to what anthropologists know or think about religion how they have studied it and how they have interpreted or explained it since the late nineteenth century Robert Winzeler s balanced consideration of classic topics basic concepts and new developments in the anthropological study of religion moves beyond cultural anthropology and ethnography to gather information from physical anthropology prehistory and archaeology Written as a sophisticated but accessible treatment of the issues Anthropology and Religion is a key text for upper division courses

Astronomy in the Origins of Religion Cometan, 2020-09-15 Official title Do the prehistoric interactions between astronomy and religion form a distinct religious tradition In the dissertation for his Master s of Arts degree from the University of Central Lancashire Cometan introduced and thoroughly explored his theory of the existence of the oldest religious tradition based on astronomical observation which he titles the Astronic tradition or Astronicism In this work which received a Distinction Grade of 87 following its examination Cometan discovers that astronomy and religion were indeed intertwined in prehistoric and ancient times Through archaeological evidence Cometan makes the case for the existence of an Astronic religious tradition stretching back to the Upper Palaeolithic period of the Stone Age some 40 000 years ago Key ideas of Cometan s dissertation work include astromorphism astrolatry astroglyphs astromancy astronomical religion and the theory of an astronomical Urreligion an original or primordial religion

Religion in Human Evolution Robert N. Bellah, 2011-09-15 This ambitious book probes our biological past to discover the kinds of lives that human beings have imagined were worth living Bellah s theory goes deep into cultural and genetic evolution to identify a range of capacities communal dancing storytelling theorizing whose emergence made religious development possible in the first millennium BCE

The Origins of Shamanism, Spirit Beliefs, and Religiosity H. Sidky, 2017-06-21 In *The Origins of Shamanism Spirit Beliefs and Religiosity* H Sidky examines shamanism as an ancient magico religious divinatory medical and psychotherapeutic tradition found in various parts of the world Sidky uses first hand ethnographic fieldwork and scientific theoretical work in archaeology cognitive and evolutionary psychology and neurotheology to explore the origins of shamanism spirit beliefs the evolution of human consciousness and the origins of

ritual behavior and religiosity **Plants, Stars and the Origins of Religion** Mary Kilbourne Matossian ,2014 The source records for Plants Stars and the Origins of Religion cover the origins of religion in the Middle East and Europe from prehistoric times to the fall of the Roman Empire One of these records was the Phaistos Disk from Crete which may have been intended to serve as a solar calendar and a decipherment of the Phaistos Disk is included within this book Author Mary Kilbourne Matossian has given particular attention to evidence for the possible role of psychoactive plants by people in prehistoric and ancient times At the same time Plants Stars and the Origins of Religion explores some prehistoric and ancient beliefs about stars *Origins of Religion, Cognition and Culture* Armin W. Geertz,2014-09-11 Attempts to understand the origins of humanity have raised fundamental questions about the complex relationship between cognition and culture Central to the debates on origins is the role of religion religious ritual and religious experience What came first individual religious ecstatic experiences collective observances of transition situations fear of death ritual competence magical coercion mirror neurons or temporal lobe religiosity Cognitive scientists are now providing us with important insights on phylogenetic and ontogenetic processes Together with insights from the humanities and social sciences on the origins development and maintenance of complex semiotic social and cultural systems a general picture of what is particularly human about humans could emerge Reflections on the preconditions for symbolic and linguistic competence and practice are now within our grasp Origins of Religion Cognition and Culture puts culture centre stage in the cognitive science of religion Evolutionary Processes in the Natural History of Religion Hansjörg Hemminger,2021-09-22 The study of religion by the humanities and social sciences has become receptive for an evolutionary perspective Some proposals model the evolution of religion in Darwinian terms or construct a synergy between biological and non Darwinian processes The results however have not yet become truly interdisciplinary The biological theory of evolution in form of the Extended Evolutionary Synthesis EES is only sparsely represented in theories published so far by scholars of religion Therefore this book reverses the line of view and asks how their results assort with evolutionary biology How can the subject area religion integrated into behavioral biology How is theory building affected by the asymmetry between the scarce empirical knowledge of prehistoric religion and the body of knowledge about extant and historic religions How does hominin evolution in general relate to the evolution of religion Are there evolutionary pre adaptations Subsequent versions of evolutionary biology from the original Darwinism to EES are used in interdisciplinary constructs Can they be integrated into a comprehensive theory The biological concept most often used is co evolution in form of a gene culture co evolution However the term denotes a process different from biological co evolution Important EES concepts do not appear in present models of religious evolution e g neutral evolution evolutionary drift evolutionary constraints etc How to include them into an interdisciplinary approach Does the cognitive science of religion CSR harmonize with behavioral biology and the brain sciences Religion as part of human culture is supported by a complex multi level behavioral system How can it be modeled scientifically The book addresses graduate

students and researchers concerned about the scientific study of religion and biologist interested in interdisciplinary theory building in the field *The ^AOrigins of the World's Mythologies* E.J. Michael Witzel,2012-12-13 Michael Witzel persuasively demonstrates the prehistoric origins of most of the mythologies of Eurasia and the Americas Laurasia

Introducing Religion Robert S. Ellwood,Patrick Horn,2024-08-22 *Introducing Religion* examines the different ways of looking at religion in the twenty first century Providing a broad overview to the discipline of religious studies this new edition continues to introduce students to engaging and contemporary topics such as sociology of religion psychology of religion history of religion religion and art religious ethics popular religion religion and violence Thoroughly updated throughout this sixth edition includes new coverage of current debates and hot topics in the field such as concerns about essentialism in religion the importance of categorization and the role of psychology in religious experience This textbook is fundamental reading for students approaching this subject area for the first time *Encyclopedia of Religion and Nature* Bron

Taylor,Jeffrey Kaplan,2005-01-01 No Marketing Blurbs *The Religious History of Remote Antiquity Period and The Three Dynasties (Xia, Shang and Zhou Dynasty)* Li Shi, The book is the volume of *The Religious History of Remote Antiquity Period and The Three Dynasties Xia Shang and Zhou Dynasty* among a series of books of *Deep into China Histories* The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the *Bamboo Annals* 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world s oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or emperor of the Qin marking the beginning of imperial China However the oppressive government fell soon after his death and was supplanted by the longer lived Han dynasty 206 BC 220 AD Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly In the 21 centuries from 206 BC until AD 1912 routine administrative tasks were handled by a special elite of scholar officials Young men well versed in calligraphy history literature and philosophy were carefully selected through difficult government examinations China s last dynasty was the Qing 1644 1912 which was replaced by the Republic of China in 1912 and in the mainland by the People s Republic of China in 1949 Chinese

history has alternated between periods of political unity and peace and periods of war and failed statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China Ancient African Religions Robert M. Baum,2024 This book examines the history of religions in Africa from the burial practices of the earliest humans to the rise of centralized theocratic kingdoms like ancient Egypt up to the rise of Islam in the Seventh Century The Encyclopedia of Religion and Nature: K-Z Bron Raymond Taylor,Jeffrey Kaplan,2005 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com ern this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses **Feminism in the Study of Religion** Darlene Juschka,2001-08-02 Written by feminist scholars over a period of nearly thirty years the selected readings are wide ranging in content offer a multi ethnic and multi cultural perspective and reflect the work of scholars working within religious studies as well as other disciplines The introductory essays link the sections and are packed with useful information on resources issues and the current debates The book illustrates how debates about feminism within the study of religions have been impacted by broader theoretical discussions and provides evidence that feminist scholars working on religion have made their own contribution to feminist theory

History and the Study of Religion Stanley Stowers,2024 How does one understand religion Can one explain religion How does one understand the craft and discipline of the historian How can one best bring together the study of religion with the craft and discipline of the historian I am a historian who works in the study of religion and believe that the present intellectual moment offers enormous in some ways unprecedented opportunities both in the study of religion and historiography But at the same time difficulties and dangers loom together with the opportunities My specialty and prime set of examples lie in the study of ancient Mediterranean religion if indeed there is something that can rightly be called Mediterranean religion or even called religion Many specialists in the study of religion and also many of those who study ancient cultures doubt or even reject outright religion as a cross historical category on the one hand and on the other anything common about religion across the ancient Mediterranean And some cognitive scientists who against religion specialists have argued for the centrality of gods to religion then agree with the skeptics that religion is not a coherent social object a social kind I will argue that long discredited forms of anti realism and untenable anthropocentrism haunt both

groups Among other areas I work in Christianity and Judaism Do they belong to Mediterranean religion One can easily see how coming to an understanding of what religion is and what Mediterranean religion is form key questions I will argue that religion is a robust realistic entity a social kind and that ancient Mediterranean religion even with all of its great diversity operated with some key common principles It is no secret that Christianity and Judaism have presented themselves as unique and essentially untouched by an inferior and degenerate religiosity that characterized everyone else in the Mediterranean History looks different when one dispenses with such normatively heavy freight and situates the two within rather than outside of Mediterranean religion *The Origins of Religions* Julien Ries,1994 The Origins of Religions opens with a look at prehistoric man s first steps on the planet then moves on to examine the cultic rituals artistic expression and expanding mythology that developed throughout the Paleolithic and Neolithic epochs Teaching Big History Richard B. Simon,Mojgan Behmand,Thomas Burke,2015 Big History is a new field on a grand scale it tells the story of the universe over time through a diverse range of disciplines that spans cosmology physics chemistry astronomy geology evolutionary biology anthropology and archaeology thereby reconciling traditional human history with environmental geography and natural history Weaving the myriad threads of evidence based human knowledge into a master narrative that stretches from the beginning of the universe to the present the Big History framework helps students make sense of their studies in all disciplines by illuminating the structures that underlie the universe and the connections among them Teaching Big History is a powerful analytic and pedagogical resource and serves as a comprehensive guide for teaching Big History as well for sharing ideas about the subject and planning a curriculum around it Readers are also given helpful advice about the administrative and organizational challenges of instituting a general education program constructed around Big History The book includes teaching materials examples and detailed sample exercises This book is also an engaging first hand account of how a group of professors built an entire Big History general education curriculum for first year students demonstrating how this thoughtful integration of disciplines exemplifies liberal education at its best and illustrating how teaching and learning this incredible story can be transformative for professors and students alike

Unveiling the Energy of Verbal Artistry: An Emotional Sojourn through **The Origins Of Religion In The Paleolithic**

In a global inundated with screens and the cacophony of quick connection, the profound power and emotional resonance of verbal beauty often disappear in to obscurity, eclipsed by the regular assault of noise and distractions. Yet, set within the lyrical pages of **The Origins Of Religion In The Paleolithic**, a interesting function of literary beauty that pulses with natural feelings, lies an remarkable trip waiting to be embarked upon. Written by a virtuoso wordsmith, that enchanting opus manuals readers on a mental odyssey, gently revealing the latent potential and profound influence stuck within the intricate web of language. Within the heart-wrenching expanse of the evocative examination, we shall embark upon an introspective exploration of the book is main styles, dissect its charming writing model, and immerse ourselves in the indelible impact it leaves upon the depths of readers souls.
