Douglass,2018-10-02 Narratives are the

concrete manifestation of an author s subjectivity They function as that person s voice and should be treated with the same respect that is granted to all voices In Interpreting New Testament Narratives Eric Douglass develops this ethical perspective so that narratives are treated as communication and the author s voice is regarded as a valued perspective Employing a cross disciplinary approach Douglass shows how readers engage narratives as mental simulations creating a temporary possible world that readers enter and experience To recover communication readers locate the events of this world in the culture of the intended audience and translate this meaning into the modern reader s worldview Using a staged reading design this initial reading is followed by readings of critique **Crossing Class Boundaries** Lenette
