The Pangs Of Love Jane Gardam,2012-03-01 With her customary accuracy Jane Gardam reveals the extraordinariness of ordinary people as she deals with the pangs of love fulfilled or hopeless sexual or spiritual tortured or hilarious in these eleven stories Paraded here are ladies with a thing about vicars strange events happening in ornate downstairs lavatories and in ornate upstairs ones and the English abroad desperate and dotty The glum and impossible Edna haunts the supermarket and dispenses an unlikely kiss of life The younger sister of Hans Christian Andersen s Little Mermaid declares her sibling very silly and turns her story on its tail an old maid forms a curious liason with a tramp and small moments of temptation fill hotel rooms as histories glance briefly off each other **Edinburgh Companion to the Short Story in**

English Paul Delaney,2018-02-01 Provides a clear introduction to the key terms and frameworks in cognitive poetics and stylistics Narrative Comprehension Catherine Emmott,1997 Despite the current explosion of interest in cognitive linguistics there has so far been relatively little research by cognitive linguists on narrative comprehension Emmott draws on insights from discourse analysis and artificial intelligence to present a detailed model of how readers build maintain and use mental representations of fictional contexts and how they keep track of characters and contexts within a complex changing fictional world The work has implications for linguistic theory since it questions several long held assumptions about anaphora arguing for a levels of consciousness model for the processing of referring expressions The book begins with a summary of current issues in text processing theory and a discussion of the methodological importance of recognizing the hierarchical structure of discourse The core of the book explores the significance of contextual monitoring in narrative comprehension and looks particularly at the cognitive demands placed on readers by flashbacks Later chapters examine the implications of contextual monitoring for reference theory and for a literary linguistic model of narrative text types The study focuses on anaphoric pronouns in narratives assessing the accumulated knowledge required for readers to interpret these key grammatical items **The Pleasures of Metamorphosis** Lucy Fraser,2017-06-05 Analysis of the mermaid in Japanese

discussed as examples that simulate pleasurable physical experiences through animation's tools of music and voice and visual effects of movement and metamorphosis Fraser then explores the literary effects of the fairy tale by male authors such as Oscar Wilde Tanizaki Jun ichiro and Abe Kobo who invoke familiar fairy tale conventions and delineate some of the pleasures of what can be painful enchantment with a mermaid or with the fairy tale itself The author examines the portrayals of the mermaid in three short stories by Matsumoto Yuko Kurahashi Yumiko and Ogawa Yoko engaging with familiar fairy tales reference to fairy tale research and reflections on the immersive experience of reading Women characters and authors are also hyperaware of the possible meanings of Andersen's The Little Mermaid and of the fairy tale itself furthering the discussion with Nonaka Hiiragi's novel Ningyo hime no kutsu and Didi's novel Sento no ningyo hime to majo no mori as well as an episode of the science fiction television series Dark Angel Fraser concludes that the pleasure framework is useful for a cross cultural study of creative engagements with and transformations of a particular fairy tale Few studies have examined Japanese fairy tale transformations to the extent that Fraser has presenting fascinating information that will intrigue fairy tale scholars and those wanting to learn more about the representation of pleasure behind the imaginative and fantastical
