Social Sadomasochism Martin Kantor MD, 2019-10-25 Explains the subtle but pervasive aspects of sadomasochism that affect everyday relationships across our lives detailing when the power and control dynamics become neurotic and describing actions that can be taken to better individuals and improve society For most people a whip wielding leather clad sexual subculture comes to mind when they hear the phrase sadomasochism But as psychiatrist Martin Kantor explains in this book sadomasochism is generally about power control dominance and submission dynamics that are subtle and pervasive in all of our lives from home life to work life to social interactions including political arenas The bottom line sadomasochism is about the giving or receiving pleasure from the infliction or reception of pain or humiliation and both pain and pleasure can be purely emotional no sexual or physical context necessary Kantor deconstructs sadomasochism to show us how it affects each of us consciously or not He explains the life phases of sadomasochism the role early trauma plays in this self defeating action when it reaches a neurotic level and the damage it does to individuals loved ones and society This ground breaking book will appeal to psychology students and researchers as well as general readers with an interest in psychology

Managing Conflict God's Way Richard W.

Tow,2025-08-11 Managing Conflict God's Way is more than just a helpful book it's a timely and Spirit-led resource that speaks directly to the heart of where so many of us live and lead in the often messy complicated world of human relationships. Rooted in Scripture and filled with practical wisdom this book guides and equips pastors and Christian leaders with everyday tools to move beyond avoidance or aggression and toward healing and reconciliation even in life's hardest moments. As a former pastor I know how easily unresolved conflict can tear at the fabric of a church break families apart and damage the witness of the gospel. That's why this book matters. It offers more than just strategies and skills it invites you into a Christ-centered way of living and leading grounded in the call to love your neighbor as yourself. In today's divided world this book is both a timely and transformative guide a much needed resource for the church. I wholeheartedly recommend Managing Conflict God's Way to every Christian leader who desires to walk in peace and guide those they lead on the path of a true peacemaker. Dr John Battaglia Director of the Doctor of Ministry program Professor of Practical Theology Assemblies of God Theological Seminary. The writing is clear thoughtful and grounded in both biblical truth and sound conflict theory. It begins with a thorough discussion of Scripture and its mandates for managing relationships and conflict then moves into an extensive exploration of conflict theory principles and strategies. While it covers standard topics in the field it also addresses areas not typically found in conflict texts. For example the discussion of interests and satisfaction goes beyond the basics to offer detailed strategies for collaboration. Topics such as building trust recognizing boundaries seizing the opportunities of conflict forgiveness and reconciliation confrontational communication and the dangers of demonizing others are all handled with depth and originality supported by Scripture contemporary conflict theory and a rich tapestry of examples drawn from Richard's extensive professional experience in both secular and faith-based contexts. Charlene A Berquist Ph.D Emeritus Professor and Former Director Center for Dispute Resolution Missouri State University Co-Founder Communication and Conflict Management Associates CCMA. Emotion Regulation Ivan Nyklíček, Ad Vingerhoets, Marcel Zeelenberg, 2007-10-23. An increasing number of studies have been conducted on the role of expression and regulation of emotion in health. Emotion Regulation addresses the question of these studies from diverse angles while encompassing conceptual developmental and clinical issues. Central concepts discussed in this volume that are related to health include coping styles and aggression alexithymia emotional intelligence emotional expression and depression emotional expression and anxiety disorders in addition to the emotional competence in children.
