Keiji Inafune Andrew Schartmann, 2025-01-09 This book explores Keiji Inafune s unique and controversial approach to video game design by breaking down his prolific output into seven key concepts

No matter one s stance however Inafune s work inspires passionate discussions about video game design and its history

In this book Andrew Schartmann explores seven core principles that permeate Inafune s output and constitute his creative voice

He also draws on Inafune s controversial persona to probe the very definition of video game designer a term problematized by the collaborative aspect of game design and the industry s Wonka esque obsession with secrecy

With high profile games like Mega Man Street Fighter and Resident Evil Inafune s repertoire provides an ideal lens through which to explore the nuts and bolts of game design and the many forces that shape it
