new look at the problem of youth offending and government and society's response to this. This book accompanies the Report of the Independent Commission on Youth Crime and Antisocial Behaviour published 2010. In it, leading authorities in the field from a variety of different disciplines review youth crime and different responses to it, focussing particularly on England and Wales but also analysing for comparative purposes the nature of responses in other parts of the world, especially Canada. It will be essential reading for practitioners, policy makers, students and others with an interest in addressing one of today's most intractable social problems.

Privatising Criminal Justice Christopher Hamerton, Sue Hobbs, 2022-09-30. *Privatising Criminal Justice* explores the social, cultural and political context of privatisation in the criminal justice sector. In recent years, the criminal justice sector has made various strategic partnerships with the private sector, exemplified by initiatives within the police, the prison system and offender services. This has seen unprecedented growth in the past 30 years and a veritable explosion under the tenure of the coalition government in the UK. This book highlights key areas of domestic and global concern and illustrates with detailed case studies of important developments. It connects the study of criminology and criminal justice to the wider study of public policy, government institutions and political decision making. In doing so, *Privatising Criminal Justice* provides a theoretical and practical framework for evaluating collaborative public and private sector response to social problems at the beginning of the twenty-first century. An accessible and compelling read, this book will appeal to students and scholars of criminology, criminal justice, sociology and politics and all those interested in how privatisation has shaped the contemporary criminal justice system.

Understanding and Preventing Recidivism of Young Offenders in Argentina Mirian Susana Orlando, David P. Farrington, 2024-03-29

This book aims to advance knowledge about the recidivism of young offenders. It reviews knowledge about risk factors for recidivism and about protective factors that encourage desistance. It then reviews quantitative research on predictors of recidivism versus desistance of young offenders in Buenos Aires, Argentina, based on following up over 100 young offenders during a two-year statutory monitoring period. Numerous factors are identified that predict recidivism: family, educational, social, community, demographic, offence history, substance use history. It then presents qualitative research based on offenders' narratives using extensive verbatim quotations that explain their recidivism versus desistance. Finally, it reviews research on the prevention of recidivism of young offenders and makes recommendations based on the quantitative and qualitative analyses. This book should be of great interest to all academics, researchers, practitioners, and policy makers who are interested in juvenile offending and recidivism, including criminologists, psychologists, psychiatrists, social scientists, and criminal justice practitioners.

Crime and Criminal Justice Ian Marsh, Gaynor Melville, Keith Morgan, Gareth Norris, John Cochrane, 2011-05-09. *Crime and Criminal Justice* provides students with a comprehensive and engaging introduction to the study of criminology by taking an interdisciplinary approach to explaining criminal behaviour and criminal justice. The book is divided into two parts which address the two essential bases that form the discipline of criminology. Part One describes, discusses, and evaluates a range of theoretical approaches that have offered explanations for crime, drawing upon contributions from the disciplines of sociology, psychology, and biology. It then goes on to apply these theories to specific forms of criminality. Part Two offers an accessible but detailed review of the major philosophical aims and sociological theories of punishment and examines the main areas of the contemporary criminal justice system, including the police, the courts, and judiciary, prisons, and more recent approaches to punishment. Presenting a clear and thorough review of theoretical thinking on crime and of the context and current workings of the criminal justice system, this book provides students with an excellent grounding in the study of criminology.

Globalisation and the Challenge to Criminology Francis J. Pakes, 2013. There is no doubt that globalisation has profound effects on crime, justice, and our feelings of security, identity, and belonging.
