The Military Skills Development System 2016:

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil military relations of countries around the world. *Annual Report South Africa*. Department of Defence, 2016

The Models of Skill Acquisition and Expertise Development Raman K. Attri, 2019-03-30 The book offers condensed summaries of twenty-three major skill acquisition and expertise development models presented by leading researchers during the last half a century of classic and new research. This book presents new researchers in learning, training, cognitive sciences or education disciplines with a big picture starting point for their literature review journey. The book presents an easy-to-understand taxonomy of twenty-three models giving new researchers a good bird's-eye view of existing models and theories. They can decide which direction to dig further. The reviews in this book are complemented with over 200 authentic sources which a researcher can read for a detailed and deeper dive and set the direction for further exploration. This book would also act as an essential reference for training learning professionals and instructional designers to design research-based training curriculum to develop the skills of their staff. Chapter 1 of the book elaborates on how the processes of learning, skill acquisition and expertise development are interwoven. Chapter 2 presents a classification system to categorize various models reviewed in the literature under five groups. Chapter 3 describes twelve models of skill and expertise acquisition which are represented in the form of stages used frequently in learning, training and performance literature. The chapter also briefly discusses each model's implications toward developing the skills and expertise of a less proficient individual to a higher level of proficiency. Chapter 4 reviews practice time or task-based models which are theories or models suggesting that acquisition of knowledge, skills development of expertise and performance improvement is a function of nature of the practice, amount of time spent on the task and task type. Chapter 5 presents the factor-based models suggesting the interplay of several factors that influence the acquisition of

knowledge skills development of expertise and performance improvement Chapter 6 embarks on describing expert modeling based models suggesting modeling an expert through elicitation or guidance for the acquisition of knowledge skills development of expertise and performance improvement Chapter 7 covers some newer movements toward cognition based models which are theories or models focusing on mechanisms of cognitive learning for the acquisition of knowledge skills development of expertise and performance improvement Chapter 8 concludes the book by integrating views from various thought leaders to explain a famous staged skill acquisition model

United States Code 2012 Edition Supplement IV, *African Peace Militaries* David

Francis, 2017-08-16 This book provides a critical understanding of the emerging role of African militaries in peacetime democratic Africa. This book departs from the dominant perspective which simply presents the military as an enemy of democracy because of the history and legacy of unending military coup d'états and interventions in civilian politics. In the context of Africa, the military has been blamed or largely held responsible for instigating wars, armed conflicts, political violence, poverty, and underdevelopment due to bad governance and mismanagement of the state. Drawing from diverse case studies across Africa including Nigeria, Rwanda, Uganda, Ethiopia, and Egypt, this volume presents the argument that though the military has played a negative and sometimes destructive role in undermining constitutional rule and the overthrow of democratic civilian governments, the same military now operating in a changed global environment is making effort to support the development of democracy and democratic consolidation as well as remain subjected to civilian democratic oversight and control. Notwithstanding the real challenge for this emerging trend of African peace militaries is the extent to which they are able to fulfil on a predictable and consistent basis their constitutional mandate to defend the people against elected autocrats in Africa who try to use the military to perpetuate themselves in power. This work fills a critical gap in the literature and will be of much interest to students of African security and politics, peace and conflict studies, security studies, and IR in general. *Strategic Collaborative Innovations in Organizational Systems* Mupepi, Mambo, Costello,

Robert, 2018-12-21 Organizations today need to continually implement new strategies that increase the sustainability and competitiveness of a business. By sharing experiences in a collaborative environment where the collective experience of its membership can lead to the design and implementation of new technology and product improvement, a company can differentiate itself to successfully compete in the business realm. *Strategic Collaborative Innovations in Organizational Systems* is a collection of research on the methods and applications of collaborative strategies in advancing the efficiency and effectiveness of a firm. Highlighting a range of topics including organizational design, productivity strategies, and workforce diversity, this book is ideally designed for academicians, business managers, entrepreneurs, human resources managers, researchers, graduate students, and scholars seeking current research on business and competitive strategies within a collaborative and organizational context.

India-Japan Partnership Srabani Roy Choudhury, 2024-11-15 This book discusses the influence and impact of Shinzo Abe, Japan's youngest and longest serving Prime Minister in the post Second World War, on international relations between India and Japan. The subject matter concentrates on Abe's 2006-2007 and 2012-2020 regimes. Building on civilisation linkages, shared values, and mutual interest, Abe pegged the relationship with India as a strategic requirement for his vision for the Indo-Pacific region. Drawing linkages between Abe's vision for Japan and India's ambition at the world theatre, the contributing authors explore the various dimensions of this partnership. Critically appraising this bilateral relation, drawing on the convergence of India-Japan interest in the multilateral form, Abe's impact on the media, and his display of soft power diplomacy, this book analyses the diverse spheres that have spun this

partnership to a new orbit Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan
