**Life-Study of Numbers and Deuteronomy** Witness Lee,1991-04-01

In the Lord's recovery during the past five hundred years the church's knowledge of the Lord and His truth has been continually progressing. This monumental and classical work by Brother Witness Lee builds upon and is a further development of all that the Lord has revealed to His church in the past centuries. It is filled with the revelation concerning the processed Triune God, the living Christ, the life-giving Spirit, the experience of life, and the definition and practice of the church. In this set, Brother Lee has kept three basic principles that should rule and govern every believer in their interpretation, development, and expounding of the truths contained in the Scriptures. The first principle is that of the Triune God dispensing Himself into His chosen and redeemed people; the second principle is that we should interpret, develop, and expound the truths contained in the Bible with Christ for the church; and the third governing principle is Christ, the Spirit, life, and the church. No other study or exposition of the New Testament conveys the life, nourishment, or ushers the reader into the divine revelation of God's holy Word according to His New Testament economy as this one does.

**The Purposes That Drive Our Lives Are God Given** Edwin P. Nhliziyo Sr., 2014-04-10. This book makes the argument that humankind was placed here on earth to multiply, fill the world, and take dominion over all of God's other creations. A purpose-driven life will necessarily align with these purposes. A purpose-driven life is one that is fulfilling God's purposes. How well we do this is the primary reason why some people have become very successful while others have failed. Our spiritual side reflects our God connections, and for the Christian, it begins when one is born again. While our purposes and the things that drive us may need adjustment after we are born again, they do not change significantly. They all have one common denominator, and that is fulfilling our responsibilities as parents and doing that in obedience to God. With this in mind, it should not be difficult to answer the question, "What am I doing here on earth?" What drives our lives? It is the need to provide for our children. For adulthood comes with the obligation to find a life partner and begin multiplying, and this is universal.

**The Ride of Our Lives** Mike Leonard, 2007-05-29. *The Ride of Our Lives* is the humorous yet deeply moving account of NBC journalist Mike Leonard's cross-country odyssey with his eccentric parents, three grown children, and a daughter-in-law. Full of ups and downs, laughs, and tears, the month-long journey becomes a much larger tale of hope, persistence, and valuable lessons learned along the way. A celebration of the ties between parents and

children as well as the unforgettable community of people one can meet across America The Ride of Our Lives is an inspiring narrative of self discovery and self fulfillment and how one unique family found blessings and simple pleasures on the road called life Touching hilarious should be required reading in every family Tom Brokaw Poignant moments of questions and discovery of truth telling and memories The Charlotte Observer Often laugh out loud funny and sometimes heartbreakingly sad St Louis Post Dispatch Delightful Chicago Tribune Heartfelt and whimsical a cross country trek through life s lessons Mike Leonard is a storyteller at heart and each anecdote punctuates the family s love struggles and triumphs In short this is one ride worth taking Rocky Mountain News      **The Time of Our Lives** Tom Brokaw,2011 Wherever I go I am asked What has happened to us Have we lost our way      **The Site of Our Lives** James S. Hans,1995-07-01 This book addresses the question of human uniqueness at a time when academic discourse has all but abandoned its long held commitment to the value of individuality Through an appraisal of the works of Emerson Nietzsche Heidegger Derrida and Foucault the author establishes the ways in which the current critique of the self has grossly distorted the nature of the debate by reducing it to a simple choice between essential or constructed selves Hans argues that the tradition that emerges from Emerson s work is based on a relational sense of the individual as much as it is devoted to the premise that we all have a specific form of integrity Likewise even though Nietzsche s critique of the fictional nature of the subject is the origin of contemporary visions of the fabricated self Nietzsche is equally insistent that each of us is a productive uniqueness we are all principles of selection whose links to the world embrace more than the social circumstances around us Nietzsche s vision of our productive uniqueness is carried on in larger and smaller ways by Heidegger Derrida and Foucault each of whom entertains a far more complex vision of the individual than those which currently dominate our ways of talking about what it means to be human
