The Fact of the Cage Karl A. Plank, 2021-02-18 David Foster Wallace's *Infinite Jest* raised expectations of what a novel might do. As he understood fiction to aim at what it means to be human, so he hoped his work might relieve the loneliness of human suffering. In that light, *The Fact of the Cage* shows how Wallace's masterpiece dramatizes the condition of encagement and how it comes to be met by Abiding and through inter-relational acts of speaking and hearing, touching and facing. Revealing Wallace's theology of a boneless Christ, *The Fact of the Cage* wagers that reading such a novel as *Infinite Jest* makes available to readers the redemption glimpsed in its pages: that reading fiction has ethical and religious significance in short that reading *Infinite Jest* makes one better. As such, Plank's work takes steps to defend the ethics of fiction, the vital relation between religion and literature, and why one just might read at all.

Modern Essays and Stories Various Authors, 1912-01-01 In all schools, pupils are expected to write essays, but curiously enough, essay reading and essay writing are taught but little. In spite of that, neglect the essay is so altogether natural and spontaneous in spirit, so intensely personal in expression and so demanding of excellence of prose style that it is the form par excellence for consideration in school. If teachers are to show pupils much concerning the art of writing well, the essay is to prose what the lyric is to poetry: complete, genuine, and beautiful self-expression or, better still, self-revelation. Most of the writing done in schools is straightforward narration of events without much, if any attempt to show personal reactions on those events: mere diary-like accounts at best, mechanical descriptions that aim to present exterior appearance without attempting to reveal inner meanings or to show awakened emotions and stereotyped explanations and arguments drawn for the most part from books of reference or from slight observation. Beyond all this mechanical work lies a field of throbbing personal life: of joyous reactions on all the myriads of interests that lie close at hand; of meditations on the wonders of plant and animal life; of humorous or philosophic comments on human nature and of all manner of vague dreams and aspirations aroused by such sights as youthful poets dream: *On summer eves by haunted stream*. Without the slightest question, it is the duty of the school and of the teacher in particular to lead pupils to appreciate honesty and originality in unapplied, unpragmatic self-expression and to show pupils how they themselves may gain the very real pleasure of putting down on paper permanent records of their own intimate thinking. Joseph Addison's *The Sir Roger de Coverley Papers* and Washington Irving's *Sketch Book* have for many years made valiant but unsuccessful efforts to fill the places that should be filled by more modern representatives of the essay. Macaulay's *Essay on Johnson* is a biographical article for an encyclopedia; his essays on Clive and on Hastings are polemics; and Carlyle's *Essay on Burns* is a critical disquisition. With the exception of *The Sir Roger de Coverley Papers*, all these so-called essays are of considerable length and are unfitted to serve as the best examples of the essay form for the essay, like the lyric, demands brevity; it is after all only a quick flash of self-revelation, not a sustained effort. Then again, who would wish to learn to write like Addison, like Washington Irving, like Macaulay, or like Carlyle? Those great writers couched

their thoughts in the language fashions of their days just as they clothed their bodies in the garments of their times To imitate either their style of expression or their costumes would be to make one self ridiculous or to take part in a species of masquerade The extremely Latinized vocabulary of 1711 or the resonant periods and marked antitheses of 1850 are as old fashioned to day as are the once highly respected periwigs great coats and silver shoe buckles of the past The thoughts of yesterday are not the thoughts of to day There is in serious reality such a thing as an old fashioned point of view With all due reverence for the past the best teachers of to day believe that it is just as necessary for students to use present day methods of expression and to cultivate present day interests as it is to take advantage of the railroad the telegraph the telephone the automobile and the thousand other mechanical contrivances that aid life to day but which were unknown in 1711 or in 1850
