War, Peace, and Human Nature Douglas P. Fry, 2015-02 The chapters in this book posit that humans clearly have the capacity to make war but since war is absent in some cultures it cannot be viewed as a human universal And counter to frequent presumption the actual archaeological record reveals the recent emergence of war It does not typify the ancestral type of human society the nomadic forager band and contrary to widespread assumptions there is little support for the idea that war is ancient or an evolved adaptation Views of human nature as inherently warlike stem not from the facts but from cultural views embedded in Western thinking Amazon.com
