

What happened to flight MH370?

A bomb aboard – The aeroplane would have disintegrated in mid-air, resulting in small debris that would be difficult to find. However, authorities reckon that the two passengers with fake passports cannot necessarily be linked with terror.

A hijacking – If the plane was hijacked, it would have needed to land somewhere in secret, such as on an island controlled by militants. The fact that some passengers' cell phones are still ringing, caused some to speculate that the plane was hijacked. Yet it is hard to land a plane of 400 tonnes unobtrusively. The runway would need to be long enough too (at least 2.7 km).

Four days after flight MH370 from Malaysia to China vanished into thin air, there is still no clarity on what happened to the plane. Experts reckon there are a few possible scenarios.

Mechanical problems – If the plane had had mechanical failure, it would still have been able to glide for more than 100 km, even with both engines stalled. It would also have been able to land on its belly on the ocean surface. The Boeing 777 is regarded as one of the most reliable planes. Had it crashed, it might also have ended up in the dense rain forests of Malaysia, Thailand or Vietnam – especially since it apparently turned back. This will complicate the search.

Pilot error – So far there is no indication that the pilot had made an error. Some compare this incident with that of the Air France aircraft which disappeared between Rio de Janeiro and Paris in 2009. In that instance the plane experienced problems due to weather circumstances and the pilots interpreted it incorrectly.

The Plane Will Not Be Found M. Manor, 2014-12-28 The disappearance of flight MH370 intrigued people from around the world The CNN comment section was flooded with thousands of comments They were concerned for the passengers and tried to figure out what happened The media was bombarding us with contradicting information In this book are some of the articles and interesting comments In the last chapter I will discuss why the plane will not be found **Someone Is Hiding Something** Richard Belzer, George Noory, David Wayne, 2015-02-17 A year after the disappearance and commencement of the international search for Malaysia Airlines Flight 370 no sign of the plane has been found no debris no bodies no sign of the much talked about black box Richard Belzer George Noory and David Wayne want to know why Scrutinizing the theories the media and politicians claim are the most likely reasons the plane crashed Belzer Noory and Wayne argue that if a year after a huge Boeing 777 has gone missing and there s still no sign of it whatsoever it s time to think outside the box The public needs to stop being misled If a plane and its passengers went missing once what s to stop it from happening again Some of the theories the authors consider seem implausible on the surface but the thorough research they ve done and the continual failure of politicians aviation authorities and military members around the world to give any indication they re wrong makes their arguments as good if not better than the more widely shared ones The title of this thought provoking volume Someone is Hiding Something is a line spoken by former Malaysian Prime Minister Mahathir Mohamad perhaps the only government official to publicly acknowledge the true reason that neither Flight 370 nor the 239 people onboard have been found *The Vanishing of Flight MH370* Richard Quest, 2016 CNN Aviation Correspondent Richard Quest offers a gripping and definitive account of the disappearance of Malaysian Airline Flight MH370 in March 2014 On March 8 2014 Malaysian Airlines Flight MH370 disappeared with barely a trace carrying 239 people on board seemingly vanishing into the dark night The airplane s whereabouts and fate would quickly become one of the biggest aviation mysteries of our time Richard Quest CNN s Aviation Correspondent was one of the leading journalists covering the story In a coincidence Quest had interviewed one of the two pilots a few weeks before the disappearance It is here that he begins his gripping account of those tense weeks in March presenting a fascinating chronicle of an international search effort which despite years of searching and tens of millions of dollars spent has failed to find the plane Quest dissects what happened in the hours following the plane s disappearance and chronicles the days and weeks of searching which led to nothing but increasing despair He takes apart the varying responses from authorities and the discrepancies in reports the wide range of theories the startling fact that the plane actually turned around and flew in the opposite direction and what solutions the aviation industry must now implement to ensure it never happens again What emerges is a riveting chronicle of a tragedy that continues to baffle everyone from aviation experts to satellite engineers to politicians and which to this day worries the traveling public that it could happen again INCLUDES PHOTOS *The HOAX Known As MH370* Michael Chillit, 2023-02-15 Reported

missing on March 8 2014 MH370 is not missing It is seven kilometers below the South Indian Ocean surface exactly where pilot Zaharie Ahmad Shah parked it eight hours after takeoff The plane s debris field was quickly located by satellite within days and a video of the announcement in Canberra is explicit Yet the two governments responsible for locating it Australia and Malaysia appear to have decided early on to simply go through the motions of searching for the plane The official search area for four years is 2 000 kilometers farther south than the aircraft could have flown given the radius of the final ping Families of Shah s victims have been manipulated for eight years Both search nations knew full well where the plane crashed years ago and opted to try to keep it under wraps MH370 was located and confirmed by Germany in June 2017 It is 1 200 kilometers west of the small northern town of Exmouth Western Australia There is a great deal of imagery of MH370 but the most compelling is locked away for reasons known only to Australia and Malaysia both of which have declined to respond to questions There is however sufficient imagery from two separate sonar scans one in June 2017 and another in May 2021 to leave no doubt that the large shiny object at 7 000 meters is largely intact as predicted by Canadian investigator Larry Vance That imagery is believed to be sufficient to compel Australia and Malaysia to explain why this years long deception was foisted on victim families without assistance from international criminal tribunals Families of the victims and travelers everywhere have been bamboozled for years ostensibly to prevent them from learning what really happened in March 2014 and to prevent those injured through loss of life from being equitably compensated The familiar name at the center of this ruse is that of former Malaysia Prime Minister Najib Razak a recently convicted felon

hoped for the other was a Volunteer Effort that lacked nearly all of those great resources unless paid for individually by volunteers themselves The Volunteer Effort was a bare bones man on the street search that gravitated to Twitter and Facebook to connect with like minded would be sleuths If it sounds like a Hare and Tortoise scenario sort of And yes Aesop would probably be proud Which effort succeeded Not the one that spent several hundred million dollars It really wasn't a contest to be honest It was simply a quest to do something to ameliorate a horrible human tragedy Twitter and Facebook proved to be naturals in that they have the ability to bring a wide variety of people with diverse backgrounds together to share ideas and expertise freely The result as this tiny little book illustrates is that the social network community environment is an enormously powerful resource The volunteer staffed Twitter search has just pinpointed the plane's location to the extent that it is possible to do that at 5 000 meters with sometimes incorrect ping signals from a plane before it crashed But the larger truth is that volunteer searchers discovered the plane's location way back in 2016 when three high quality drift studies conducted in France Daniel Germany Durgadoo and USA NOAA all concluded the plane is resting somewhere between Batavia Seamount and Zenith Plateau a stretch of seafloor some 500 km long Now researcher and author Mike Chillit has developed an innovative technique using a Virtual Satellite to cross correlate data originally broadcast by Inmarsat's 3 F1 the night the plane disappeared Chillit has also written the solution in a simple format to encourage do it yourselfers to take it for a test drive The plane's final resting place is pinpointed Not surprisingly it is more than 2 000 kilometers north of the original search area and precisely where all three major drift studies all conducted by professional Oceanographers placed it in 2016 **The Mysterious Final Flight of MH-370** Robert Dominguez, 2019-03-08

When we board a modern twenty first century aircraft we are all confident of hopefully a smooth flight and delivery to our destination of choice This was not the case of Malaysia Airlines Flight no MH 370 It never landed at its destination nor any other airport This chronology of the facts of its final flight is written to help soothe the nerves of the international flying public Because MH 370 vanished mysteriously its story was written beginning as an unsolved mystery disappearance Later when arriving at the conclusion of a tale of a mysteriously missing aircraft with 239 souls aboard I realized I had composed a history of the facts and human stories chronicled within the saga of The Mysterious Final Flight of MH 370 Therefore the inclusion of the safety of today's human flight is annotated but also the future of human air flight safety by describing new safety measures designed to replace outdated twentieth century black box invention with twenty first century digitized data recording innovative technologies Cost seems to be the inhibition of installing then implementing the now preexisting twenty first century technologies on all aircraft worldwide hopefully sooner rather than later The good news is the United States Air Force has it already implemented and utilized daily today One day MH 370 may be located certainly providing solace and closure for the 239 families missing their loved ones who comprised the flight manifest of the 239 missing souls aboard MH 370 Plus both black boxes may provide answers to what transpired during The Mysterious Final Flight of MH 370

LembarLangit *The Disappearing Act* Florence de Changy, 2022-03-03. People often say that non-fiction books read like fast-moving thrillers, but this one genuinely does. This is a splendid book and highly recommended. Daily Mail. A remarkable piece of investigative journalism into one of the most pervasive and troubling mysteries of recent memory. 01 20am 8 March 2014. Malaysia Airlines Flight 370 carrying 239 passengers disappeared into the night, never to be seen or heard from again. The incident was inexplicable. In a world defined by advanced technology and interconnectedness, how could an entire aircraft become untraceable? Had the flight been subject to a perfect hijack? Perhaps the pilots lost control. And if the plane did crash, where was the wreckage? Writing for *Le Monde* in the days and months after the plane's disappearance, journalist Florence de Changy closely documented the chaotic international investigation that followed, uncovering more questions than answers. Riddled with inconsistencies, contradictions, and a lack of basic communication between authorities, the mystery surrounding flight MH370 only deepened. Now de Changy offers her own explanation. Drawing together countless eyewitness testimonies, press releases, independent investigative reports, and expert opinion, *The Disappearing Act* offers an eloquent and deeply unnerving narrative of what happened to the missing aircraft. An incredible feat of investigative journalism and a testament to de Changy's tenacity, this book is an exhaustive, gripping account into one of the most profound mysteries of the 21st century.

The Eye Witness Mary M. Alf, 2015-07-04. *THE EYE WITNESS* is the end product of a very interesting interview. Mrs Wolff, not her real name, has had a very mysterious experience that she has kept secret for some time. However,

she has seen it proper to come out now and tell the world about it She begun by telling her family and friends It surprised her that none of them doubted her sanity like she d expected them to She went on to tell even larger groups of people who thought she may have the answers The response she got has made her want to have a book written Sadly she did not have the likelihood to be interviewed by any great Media but she says modestly she doesn t need such honors and it really doesn t matter She has no doubt in her mind that what she has to say will shock many who hear or read it She believes this may encourage many more people to come out and reveal what really happened to Malaysian MH370 and what happened on the ground on the morning it disappeared and days following She claims radar and satellite images were vividly recorded There is no information blackout like we have been led to believe She urges those with influence to demand for the Tower Pilot communication Audiotapes She is convinced that there is more than meets the eye right there Like everyone else on the globe she has waited long and patiently for the recovery of the plane which everyone in the search seems sure ended in the Indian Ocean We have watched searches in the wrong stretches of water and with each new dawning day it becomes clear there s need not to find the plane This book reveals why She has taken the first step in revealing what happened inside the plane above the seas and hopes many more will follow in her path She wants everyone to know that the disappearance of Malaysian MH370 is no mystery at all and it has never been Is it time for the truth to be told She has stated that in these uncertain times there should be no place for fear and demanding to know the truth of a matter is the right of every man She knows that certain references she has given will help reveal the real truth about the incident what was happening in the locations and why there were no survivors While she understands that this is a shocking and very unexpected account of events she is confident it will help answer many questions still lingering on countless minds Not only does she think this will help to instigate a demand for an explanation about what the world has been led to believe concerning the tragedy but also it may very well be the cue to reopen this mystery and engage independent transparent non government officials investigators Judges and organisations to re investigate the matter the individuals involved and most importantly cast a critical eye at the rather baffling search and rescue operations and the subsequent compensations awarded to the families of the victims Whichever way this account will come across it is likely to change everyone who reads it By answering the tough questions asked she hopes to restart a discussion about this incident which seems dead and buried without justice being served to the victims She is telling everyone who gets on a plane for whatever reason to feel the pain of the families in Malaysia and China and those others we never got to know about This incident has happened to everybody and for this reason it is everyone s business to get involved in asking how they can get this matter off the hands of those covering up what smells like crime and give it to those who will do the right thing Mrs Wolff who still believes in the goodness of the human race says she knows this is possible She agrees it may take longer than anticipated but it will be eventually established The EYE WITNESS is not only an interview but also an incident report It may be used by organisations which have the ability and resources to voice

sentiments which can strengthen the pleas of families still waiting to be heard
