The Plot To Kill God:

The Plot to Kill God Paul Froese, 2008-08-06 Paul Froese explores the nature of religious faith in a provocative examination of the most massive atheism campaign in human history That campaign occurred after the 1917 Russian Revolution when Soviet plans for a new Marxist utopia included the total eradication of all religion Even though the Soviet Union s attempt to secularize its society was quite successful at crushing the institutional and ritual manifestations of religion its leaders were surprised at the persistence of religious belief Froese s account reveals how atheism when taken to its extreme can become as dogmatic and oppressive as any religious faith and illuminates the struggle for individual expression in the face of social repression

The Plot To Kill God Edward F. Mrkvicka, Jr., Kelly H. Mrkvicka, 2015-01-09 As we near the Second Coming the battle between good and evil intensifies Sadly the forces of evil are winning mainly because too many Christians and the churches they attend are going along to get along They ll stand for God as long as they can do so in silence If their faith costs them anything they want no part of it The Bible warns us that we must know the enemy but most of us are clueless It s so much easier to bury our heads in the sand and act like everything is okay even though we know it s not Our Lord and Savior died in this world so we can experience life everlasting Put another way God allowed His Son to be treated like we deserve to be treated so we could be treated like His Son Why Because He loves us In John 15 13 it is stated Greater love has no one than this than to lay down one s life for his friends And in return for Christ s sacrifice most of us remain mute We ve quietly let Him be kicked out of our places of business our schools our government at all levels our courts and in some cases our churches and homes And then when we need Him we in unmitigated hypocrisy call for a National Day of Prayer for example immediately after 9 11 The spiritual war we re facing is almost at an end What we do or don t do will determine the outcome Jesus said it best in Matthew 12 30 He who is not with Me is against Me That s about as simple and direct as it can get The spiritual war we all face is raging and acting as if we re a neutral nation in WWII is no longer an option The choice is ours We either stand with Christ or we become His enemy

Liberal Delusion John Marsh, 2012-11-05 Is western civilisation based on a mistaken understanding of humanity Fundamental to any society is its comprehension of human nature It shapes attitudes and policies on a whole range of issues interpersonal relations child rearing discipline and punishment economics and welfare For millennia western societies were based on the idea that human nature is flawed This was turned upside down 300 years ago during the Enlightenment by writers such as Rousseau who argued that we are born good and later warped by parents and society a liberal view of human nature which is now being challenged by scientific discoveries in the fields of the mind the brain and genetics including the Human Genome evolutionary psychology and anthropology This fundamental change has had profound effects If we are essentially good then we can safely maximize freedom and abandon morality religion and tradition Many aspects of life have been liberalised sexual behaviour alcohol consumption censorship gambling divorce laws and economic activity Economic liberals thought

free markets were rational and good and favoured minimal government interference and light touch regulations This led to the credit crunch and the greatest financial crisis since World War Two Many parents now hesitate to discipline their own children The belief that we are essentially good but corrupted by society has also influenced penal policy Liberals see criminals as victims not as wrongdoers because surely no one would choose to do something wrong This is a world far removed from the self sacrifice and fraternity shown during World War Two It has not brought happiness but rather more alienated individuals The outcome of egalitarian aims or methods has often missed its mark e g in education it has led to the dumbing down of academic standards grade inflation and a decline in social mobility Egalitarian regimes from the French Revolution to the Soviet era have been amongst the most bigoted brutal and bloody in history The drive for greater social justice and fairness must remain an essential objective There is therefore an urgent need to separate out the positive from the negative aspects of liberal thought and practice as otherwise there is the risk of descent into moral anarchy and social disintegration

Religion and the Social Sciences Jeff Levin, 2018-08-13 In recent years researchers across the social sciences have made important contributions to the study of religion Thanks to their inquiry we have greatly improved our understanding of how religion influences the vital dimensions of our lives communities and institutions To give this research the attention it deserves editor Jeff Levin assembled a panel of preeminent social scientists and gave them a single directive write the ultimate statement on religion from within their respective social science discipline or field The result is this single volume state of the science compendium a first of its kind for the study of religion Composed of ten essays this book details the study of religion within nine basic and applied areas of social science Along with a critical introduction to this subject these essays include the expert contributions of Kenneth I Pargament Julie J Exline on psychology Anthony Gill on political science Charles M North on economics Barry Hankins on history Annette Mahoney on family studies Byron R Johnson on criminology Linda K George on gerontology William H Jeynes on education Jeff Levin on epidemiology Each essay features An introduction to the history of the discipline s or field s religious research as well as its most important people and published works A comprehensive overview of key research findings and theories A detailed research agenda to guide future scholars An annotated bibliography of seminal works for the reader s further consideration Broad in scope and essential in focus Religion and the Social Sciences is a significant addition to the field It will prove indispensable to both new and established scholars looking for a comprehensive treatment of the subject and seeking promising avenues to pursue in their own research

Following the Human One Robert L. Montgomery, 2017-10-03 Jesus Christ is the most famous person in human history His favorite name for himself was the Son of Man or the the Human One Rarely did his followers call him that but it must have had great significance for him This book describes why this name was so important and what it means for us now Along with this favorite name this book shows how Jesus Christ fulfills human longing but at the same time is resisted by his own followers to this day Nevertheless his call to follow him has sounded down the centuries and been heeded by millions

The book leads to an exploration of the Way that is found in Jesus Christ who called himself the Human One

The New Atheist Denial of History B. Painter, 2014-11-19 This compact forcefully argued work calls Sam Harris Richard Dawkins Steven Pinker and the rest of the so called New Atheists to account for failing to take seriously the historical record to which they so freely appeal when attacking religion The popularity of such books as Harris s *The End of Faith* Dawkins s *The God Delusion* and Christopher Hitchens *God Is Not Great* set off a spate of reviews articles and books for and against yet in all the controversy little attention has focused on the historical evidence and arguments they present to buttress their case This book is the first to challenge in depth the distortions of this New Atheist history It presents the evidence that the three authors and their allies ignore It points out the lack of historical credibility in their work when judged by the conventional criteria used by mainstream historians It does not deal with the debate over theism and atheism nor does it aim to defend the historical record of Christianity or religion more generally It does aim to defend the integrity of history as a discipline in the face of its distortion by those who violate it

Shall the Religious Inherit the Earth? Eric Kaufmann, 2010-12-09 Dawkins and Hitchens have convinced many western intellectuals that secularism is the way forward But most people don t read their books before deciding whether to be religious Instead they inherit their faith from their parents who often inoculate them against the elegant arguments of secularists And what no one has noticed is that far from declining the religious are expanding their share of the population in fact the more religious people are the more children they have The cumulative effect of immigration from religious countries and religious fertility will be to reverse the secularisation process in the West Not only will the religious eventually triumph over the non religious but it is those who are the most extreme in their beliefs who have the largest families Within Judaism the Ultra Orthodox may achieve majority status over their liberal counterparts by mid century Islamist Muslims have won the culture war in much of the Muslim world and their success provides a glimpse of what awaits the Christian West and Israel Based on a wealth of demographic research considering questions of multiculturalism and terrorism Kaufmann examines the implications of the decline in liberal secularism as religious conservatism rises and what this means for the future of western modernity

Living the Secular Life Phil Zuckerman, 2014-12-04 A humane and sensible guide to and for the many kinds of Americans leading secular lives in what remains one of the most religious nations in the developed world The New York Times Book Review Over the last twenty five years no religion has become the fastest growing religious preference in the United States Around the world hundreds of millions of people have turned away from the traditional faiths of the past and embraced a moral yet nonreligious or secular life generating societies vastly less religious than at any other time in human history Revealing the inspiring beliefs that empower secular culture alongside real stories of nonreligious men and women based on extensive in depth interviews from across the country *Living the Secular Life* will be indispensable for millions of secular Americans Drawing on innovative sociological research *Living the Secular Life* illuminates this demographic shift with the moral convictions that govern

secular individuals offering crucial information for the religious and nonreligious alike *Living the Secular Life* reveals that despite opinions to the contrary nonreligious Americans possess a unique moral code that allows them to effectively navigate the complexities of modern life Spiritual self reliance clear eyed pragmatism and an abiding faith in the Golden Rule to adjudicate moral decisions these common principles are shared across secular society *Living the Secular Life* demonstrates these principles in action and points to their usage throughout daily life Phil Zuckerman is a sociology professor at Pitzer College where he studied the lives of the nonreligious for years before founding a Department of Secular Studies the first academic program in the nation dedicated to exclusively studying secular culture and the sociological consequences of America's fastest growing faith Zuckerman discovered that despite the entrenched negative beliefs about nonreligious people American secular culture is grounded in deep morality and proactive citizenship indeed some of the very best that the country has to offer *Living the Secular Life* journeys through some of the most essential components of human existence child rearing and morality death and ritual community and beauty and offers secular readers inspiration for leading their own lives Zuckerman shares eye opening research that reveals the enduring moral strength of children raised without religion as well as the hardships experienced by secular mothers in the rural South where church attendance defines the public space Despite the real sorrows of mortality Zuckerman conveys the deep psychological health of secular individuals in their attitudes toward illness death and dying Tracking the efforts of nonreligious groups to construct their own communities Zuckerman shows how Americans are building institutions and cultivating relationships without religious influence Most of all *Living the Secular Life* infuses the sociological data and groundbreaking research with the moral convictions that govern secular individuals and demonstrates how readers can integrate these beliefs into their own lives A manifesto for a booming social movement and a revelatory survey of this overlooked community *Living the Secular Life* offers essential and long awaited information for anyone building a life based on his or her own principles **Atheism?** Stephen E.

Parrish,2019-05-06 Does atheism have a monopoly on reason and science Many think so or simply assume so Atheism challenges the many hidden assumptions that have led to the popular belief that atheism is the default position for explaining reality Delving into the most basic and fundamental questions of existence this thought provoking book explains that atheism does not and cannot provide a secure foundation for thought and life Specifically it demonstrates that atheistic theories cannot explain the existence of an ordered universe the conundrums of consciousness and knowledge or why there is morality or beauty Rather than being the result of reason atheism is shown to be in effect a revolt against reason If you enjoy pondering the most basic issues that confront us in our world today then Atheism is the book for you **Homo Religiosus?**

yourself up by your own bootstraps Don't expect us to help you Make your own way in life Succeed in a system that was never designed for YOU to succeed but for those that run the system US The In Crowd The Inner Circle Our success is guaranteed It's baked in Why would we care about you You're not one of us You're not part of our family You're not one of our friends or cronies There are only a few good jobs in the world and we've reserved them all That's the entire point of the system Sheez haven't you worked that out yet Dumb asses Wouldn't you rather live in a positive liberty system where the whole point of the State is to ensure you get everything you need to make the most of yourself to maximize your potential to be the best you What is the best world It's the world where every person is the best version of themselves **Religious**

Education in a Plural, Secularised Society. A Paradigm Shift Leni Franken, Patrick Loobuyck, 2011 Many European societies are characterised by increasing forms of secularisation and religious diversity This results in a paradigm shift with regard to religious education For a long time the main aim of religious education was clearly to educate children in their own religious tradition Today the aims of religious education are much broader contributing to pupils' general education Allgemeinbildung and preparing them for participation as a citizen in the future multicultural society As a result the following question arises in many countries how can teaching into religion be transformed into or complemented by learning about and learning from the study of religions This book brings several distinguished authors in the field of religious education together to reflect on this paradigm shift The book is divided into two parts The first part is rather descriptive and gives an informative and up to date overview of the different discussions about religious education in several European countries The second part is a normative reflection on the question of how religious education should be organised in plural secularised societies This book is very important for the discussion about religious education Its comparative approach combined with the interdisciplinary dialogue between the different schools in the field of religious education make this book highly recommendable for everyone who is interested in the state of the art and the future of religious education in Europe Didier Pollefeyt full professor in theology and religious education at the Catholic University of Leuven **State Religious**

Education and the State of Religious Life Liam Gearon, Joseph Prud'homme, 2018-04-04 This book explores recent calls to increase instruction of the Bible in American public schools The work develops a distinctive philosophical and trans Atlantic assessment of these proposals by critiquing European approaches to religious education and by reviewing the role of religion in contemporary democracies The work will spark debate among political scientists policy experts Religious Education instructors theologians and social and educational theorists **After Trump** Donald Heinz, 2020-03-18 A black social gospel movement arose after the Civil War to mitigate the broken promises of reparations and the reestablishment of white supremacy After the Gilded Age a new social gospel arose in the early twentieth century that brought together Christian proclamation and an ethic of social justice that became liberal Protestantism's distinctive contribution to world Christianity leaving residues in the New Deal and the Great Society In the face of poverty and bondage in the 1960s Martin Luther King

Jr led a second wave of the black social gospel movement and died for it as prophets do. It birthed new liberation movements on many fronts. Again things fell apart as the Reagan Revolution massively redistributed wealth and social benefits upward and late capitalism flourished. In this environment tax cuts for the wealthy and massive inequalities grew and President Trump inherited the resentments of the Christian Right and the opportunism of economic conservatives. Would a recurring social gospel have made a difference? After Trump American Christianity faces another crisis of decision. Will the strange God of the Bible be re-called will the churches re-live as social movements that bring good news to all the people will American Christianity re-contest the public square and proclaim a new social gospel for our times? This book is an invitation and a manifesto.

The Secular as Methodology Robert L. Montgomery, 2018-08-14. Secularization is a process that has been taking place throughout the world but especially in the West. It refers to limitations of various types to religious thoughts, activities, ownership, and power but does not necessarily mean limitation on religious freedom. Because of this contested double effect, secularization is perceived both negatively and positively. I propose that the secular be viewed primarily as a methodology in various areas of life, beginning most clearly with science but extending to many other areas of thought and activity. When this is done, I believe people then have the clear option to apply their faith to all of their thought and action and at the same time to allow for correction and improvement to their thought and action. These corrections and improvements will be debated but in the end, for Christians, they are dependent on interpretations of the Bible. Furthermore, I believe the broad result for all people is to clarify the choice to believe in God or rather that we are chosen by God revealed in the Bible who is seeking to have fellowship with us.

All the Rest Is Propaganda Mike Hockney, 2014-09-12. The world is always forcing its propaganda on you. Everyone is selling you something. At the least, they're selling you their story, their version of events, their view of the world, the way they want things to be. You're at it too. Facebook and Twitter are not social networking platforms. They're personal propaganda vehicles, which is why people lavish so much time on them. They're cyber self-portraits and people will endlessly keep airbrushing them. What's the secret of making money? Pander to people's narcissism. Make it all about them, their favourite subject. We're saturated with propaganda. The media and advertising industries have no other function than to mass produce propaganda. Where is the truth? What and whom can you trust? What propaganda techniques should you be looking out for? How can you protect yourself? This is the gospel of anti-propaganda, the exposé of all the propagandists out to get you.

Evangelicals and Liberation Revisited Joao B. Chaves, 2013-03-18. Despite the fact that the theological gains of Latin American Liberation Theology (LALT) have been incorporated into several theologies around the world, many North Atlantic evangelicals still consider LALT a heresy. The underlying reason for the lack of positive engagement between North Atlantic Evangelical Theology in general and American Evangelical Theology in particular and LALT is the mistaken perception that LALT and evangelical theology are necessarily contradictory. In *Evangelicals and Liberation Revisited*, Joo Chaves analyzes instances of the evangelical liberationist interaction and examines the generally

suspicious responses given to LALT by North Atlantic Evangelicals Evangelicals who think of LALT as a heresy have failed to look not only into the diversity that exists among liberationists but also into the different theological expressions within their own movement Joo Chaves argues convincingly that if evangelicals think about both liberation theology and their own theological commitments critically then they will be able to recognize that LALT can be an indispensable ally in their commitment to following God

Atheist Overreach Christian Smith, 2018-09-05 In recent years atheism has become ever more visible acceptable and influential Atheist apologists have become increasingly vociferous and confident in their claims that a morality requiring benevolence towards all and universal human rights need not be grounded in religion that modern science disproves the existence of God and that there is nothing innately religious about human beings In *Atheist Overreach* Christian Smith takes a look at the evidence and arguments and explains why we ought to be skeptical of these atheists claims about morality science and human nature He does not argue that atheism is necessarily wrong but rather that its advocates are advancing crucial claims that are neither rationally defensible nor realistic Their committed worldview feeds unhelpful arguments and contributes to the increasing polarization of today s political landscape Everyone involved in the theism atheism debates in shared moral reflection and in the public consumption of the findings of science should be committed to careful reasoning and rigorous criticism This book provides readers with the information they need to participate more knowledgeably in debates about atheism and what it means for our society

Unimaginable Jeremiah J. Johnston, 2017-12-05 A Stirring Account of Christianity s Power for Good In a day when Christians are often attacked for their beliefs professor and speaker Jeremiah Johnston offers an inspiring look at the positive influence of Christianity both historically and today In *Unimaginable* you ll discover the far reaching ways that Christianity is good for the world and has been since the first century AD including How the plights of women and children in society were forever changed by Jesus Why democracy and our education and legal systems owe much to Christianity How early believers demonstrated the inherent value of human life by caring for the sick handicapped and dying How Christians today are extending God s kingdom through charities social justice efforts and other profound ways Like *It s a Wonderful Life* the classic film that showed George Bailey how different Bedford Falls would be without his presence *Unimaginable* guides readers through the halls of history to see how Jesus teachings dramatically changed the world and continue to be the most powerful force for good today This provocative and enlightening book is sure to encourage believers and challenge doubters

The Oxford Handbook of the Economics of Religion Rachel M. McCleary, 2011-01-27 In this Handbook leading scholars demonstrate the application of the economics of religion approach to topics on human capital the state regulation of religion economic aspects of religion and how religious markets function The chapters also provide a discussion of new data sets and methods of measuring religious participation and beliefs
