The Previous Papers Of The Public Law N6:

The Concept of Proportionality in Public Law CHUNG Wai Man, Franco, 2020-06-30 Proportionality is a German and thus continental European concept in public law that is applied by both the Court of Justice of the European Union CJEU and the European Court of Human Rights ECtHR The principle specifies that measures adopted by executive authorities should not exceed the limits of what is appropriate and necessary in order to achieve legitimate objectives in the interest of the public Using a functional comparative approach this book evaluates the extent to which proportionality has been integrated into the English and Hong Kong judicial systems by comparing case law in these courts with that of the CJEU and the ECtHR The text also reviews the development of proportionality and presents a topical understanding of why its adoption and application have encountered difficulties particularly regarding socio economic rights in some jurisdictions such as the United Kingdom and Hong Kong Written by a scholar with experience from both within the Hong Kong judicial system and from international research this book is the first all encompassing reference for legal practitioners worldwide

Unjust Enrichment and Public Law Rebecca Williams, 2010-06-30 This book examines claims involving unjust enrichment and public bodies in France England and the EU Part 1 explores the law as it now stands in England and Wales as a result of cases such as Woolwich EBS v IRC those resulting from the decision of the European Court of Justice ECJ in Metallgesellschaft and Hoechst v IRC and those involving Local Authority swaps transactions So far these cases have been viewed from either a public or a private law perspective whereas in fact both branches of the law are relevant and the author argues that the courts ought not to lose sight of the public law issues when a claim is brought under the private law of unjust enrichment or vice versa In order to achieve this a hybrid approach is outlined which would allow the law access to both the public and private law aspects of such cases Since there has been much discussion particularly in the context of public body cases of the relationship between the common law and civilian approaches to unjust enrichment or enrichment without cause Part 2 considers the French approach in order to ascertain what lessons it holds for England and Wales And finally as the Metallgesellschaft case itself makes clear no understanding of such cases can be complete without an examination of the relevant EU law Thus Part 3 investigates the principle of unjust enrichment in the European Union and the division of labour between the European and the domestic courts in the ECJ s so called remedies jurisprudence In particular it examines the extent to which the two relevant issues public law and unjust enrichment are defined in EU law and to what extent this remains a task for the domestic courts Cited with approval in the Court of Appeal by Beatson LJ in Hemming and others v The Lord Mayor and Citizens of Westminster 2013 EWCA Civ 5912 Cited with approval in the Supreme Court by Lord Walker in Test Claimants in the Franked Investment Income Group Litigation Appellants v Commissioners of Inland Revenue and
