Lenin,2011-07 *State and Revolution* Vladimir Lenin,2025-05-14 State and Revolution penned by the seminal figure of 20th century politics Vladimir Lenin is a profound and influential deep state book that delves into the

intricate relationship between state and society and the dynamics of power within a revolutionary framework Written against the backdrop of the impending Bolshevik Revolution in 1917 this groundbreaking treatise serves as a manifesto for the radical transformation of societal structures At the heart of this political masterpiece is the assertion that the state as a tool of class oppression must be dismantled and reconstructed to serve the interests of the proletariat Drawing inspiration from the seminal works of Karl Marx and Friedrich Engels particularly The Communist Manifesto and The Origin of the Family Private Property and the State Lenin presents a comprehensive analysis of the capitalist state and its inherent contradictions The treatise is organized into six insightful chapters each meticulously deconstructing the prevailing political narratives of the time It begins with a critique of the Second International and its leaders such as Karl Kautsky who according to Lenin strayed from the true path of Marxism by advocating for reform within the confines of the capitalist system This critique underscores the urgency of the moment as the specter of revolution loomed large The central tenet of State and Revolution is the concept of the dictatorship of the proletariat a phase that is crucial in the transition from a class based society to a classless utopia This idea posits that the working class must seize the state apparatus to dismantle the capitalist order and suppress the bourgeoisie thereby laying the foundation for a socialist society It is a call to arms emphasizing the necessity of radical change over incremental reform Lenin's vision is not confined to the theoretical it extends into the practical realm of revolutionary tactics He presents a roadmap for the proletariat detailing the stages of revolution and the strategies required to navigate the complexities of state power The text is imbued with a sense of urgency as the fate of the Russian people hangs in the balance The concept of the withering away of the state is another pivotal aspect of the book As class distinctions dissolve the need for a coercive state apparatus diminishes leading to a society governed by the principles of collective ownership and collective decision making This visionary concept challenges the very essence of traditional political thought and presents a radical alternative to the status quo While the legacy of State and Revolution is fraught with controversy due to its advocacy for violent revolution and the suppression of dissent it is undeniable that the book has left an indelible mark on political discourse It is essential reading for anyone seeking to understand the ideological underpinnings of the Russian Revolution and the broader movement towards socialist transformation For students of state and politics activists and political theorists alike State and Revolution offers a provocative lens through which to view the struggle for social justice Its uncompromising stance and revolutionary fervor continue to resonate inspiring debate and reflection on the role of the state in a just society This deep state book stands as a testament to the enduring power of ideas and the capacity for humanity to reshape the world

V. I. Lenin on Youth Vladimir Ilich Lenin, 2001-05-01 Lenin always paid great attention to the young generation of workers peasants and intellectuals and laid emphasis on involving the largest possible number of them in the revolutionary movement the struggle to build a new socialist society Back in 1895 when he drew up the program of the Russian Social Democratic Labor Party while in prison he put forward the demand for universal suffrage for citizens at the age of 21 and over and for prohibition of employment of children under 15 While living in emigration on the eve of the first Russian revolution Lenin closely followed the development of the students movement in Tsarist Russia and in the pages of Iskra he stressed its importance for the general struggle of the Russian people against tsarism and called on the students to work out Marxist world outlook and actively assist the Social Democrats in their illegal work In August 1903 at the Second Congress of the Party Lenin moved a resolution on the Social Democrats attitude towards students and made a speech on this question Lenin did not confine himself to the youth movement in Russia only As leader of the international proletariat Lenin helped the young Social Democrats of Switzerland Sweden and other countries to arrive at a scientific world outlook and correct revolutionary tactics in the struggle against capitalism passing on to them the experience of the Russian working class and its Party The present collection includes Lenin

s articles speeches and letters on the youth as well as those of his works which deal with problems facing the young generation The various items in this collection are as a rule published in full excerpts being used only when Lenin s statements on youth form part of his larger works Lenin s works are distributed under the following heading The Condition of Children and Young People under Capitalism The Revolutionary Movement Among the Student Youth in Tsarist Russia Participation of Young Workers and Peasants in the Revolutionary Struggle and Revolutionary Training of Youth and Participation of Youth in Socialist Construction Education of the New Man Vladimir Ilich Lenin 1870 1924 was the founder of the Russian Communist Party Bolsheviks inspirer and leader of Bolshevik Revolution 1917 and the architect builder and first head 1917 24 of the Soviet State He was the founder of the organization known as Comintern Communist International and the posthumous source of Leninism the doctrine codified and conjoined with Marx s works by Lenin s successors to form Marxism Leninism which became the Communist world view If the Bolshevik Revolution is as some people have called it the most significant political event of the 20th century then Lenin must for good or ill be regarded as the century s most significant political leader Not only in the scholarly circles of the former Soviet Union but even among many non Communist scholars he has been regarded as the greatest revolutionary leader and revolutionary statesman in history as well as the greatest revolutionary thinker since Marx
