Masculines in -er

Some second declension -er masculines, like *puer*, retain the -e- in the base, while most, like *ager*, drop the -e-, hence the importance of learning the genitive as part of the vocabulary entry (though a knowledge of such English derivatives as “puerile” and “agriculture” will also help you remember the base). Similar is the unique -ir masculine, *vir*, *virtī*, *man*. The underlined forms below are the ones that call for special attention; the adjective *magnus* is added for the sake of comparison; note, e.g., the combinations *puer magnus*, *a big boy*, and *O puer magne*, *O big boy*.

Comments on Vocatives and Other Case Endings

Note that some second declension endings are identical to those in the first (the dative/ablative plural in -is) and others are similar (e.g., -am/-um accusative singular, -ārum/-ōrum genitive plural, and -ās/-ōs accusative plural). As in the first declension, some second declension endings are used for different cases (e.g., what different cases may the forms *amīci*, *amicō*, and *amicis* represent?); again, for these ambiguous forms word order and context are essential aids to reading
