formed in 1920 and many of its Founders early Worshipful Masters and Brethren served in the armed forces before and during the Great War This book serves as a record of the military careers of some of those Brethren and it is appropriate that it should be published in the centenary year of the end of that terrible war **The Causes of War** Alexander

Gillespie,2013-10-16 This is the first volume of a projected four volume series charting the causes of war from 3000 BCE to the present day written by a leading international lawyer and using as its principal materials the documentary history of international law largely in the form of treaties and the negotiations which led up to them These volumes seek to show why millions of people over thousands of years slayed each other In departing from the various theories put forward by historians anthropologists and psychologists Gillespie offers a different taxonomy of the causes of war focusing on the broader settings of politics religion migrations and empire building These four contexts were dominant and often overlapping justifications for the first four thousand years of human civilisation for which written records exist **Centre and Periphery** Tim

Napoleonic Wargame Bob Cordery,2018-12-07 Although the author is a late convert to the joys of Napoleonic wargaming he soon began to see why so many wargamers love the period As a result he set out to write several sets of rules that would use similar game mechanisms to those in his other PORTABLE WARGAME rules and that would enable him to fight a range of small medium and large battles on a relatively small tabletop This book is the result Please note that all the rules have been designed to be used with a gridded tabletop made up of squares or hexes **Hannibal** Patrick Hunt,2017-07-11 One of the

Economic Democracy: The Political Struggle of the 21st Century J. W. Smith, 2017-10-03 This title was first published in 1999 The author contends that economic democracy is the economic system the U S purports to have but has thus far failed to achieve because it like all the economic powers that have gone before seeks to control the economies of weaker nations It is the shocking lack of economic democracy and the efforts of so many to achieve it that fuels today's conflicts and will fuel those of the 21st century To show how and why this comprehensive work provides a detailed analysis of the history of numerous aspects of the development of the Neo Mercantilist world economy the geopolitical systems put in place by the developed world to manage and perpetuate that economy and the numerous proposals and modeling plans that have been offered over the years for the achievement of economic democracy *The Dublin Review* Nicholas Patrick Wiseman, 1892

Multiple Antiquities - Multiple Modernities Gábor Klaniczay, Michael Werner, Otto Gécser, 2011-09 Antiquity as the term has been understood and used over the centuries by scholars political and religious figures and ordinary citizens is far from a single monolithic concept Rather than reflecting a stable shared understanding about the past and its meaning the idea of antiquity is instead varying and multiple taking on different meanings and deployed to different effects depending on the context in which it is being considered In this volume historians from a wide range of specialties offer a comparative

assessment of the multiple perceptions of antiquity that have shaped modern European cultures and national identities
deploying a new methodological approach *histoire croisée* which considers these questions in light of the development of
cultural diversity across Europe
