Freeing the Oppressed Ron Clark, 2009-09-01 When Jesus spoke at his local synagogue he boldly proclaimed that he was the one sent to free those who were oppressed He came to provide hope peace and safety to those suffering in the world When he left this earth his followers were left with the task of continuing this ministry Statistics suggest that in America one in four women has experienced physical violence in an intimate relationship Dating violence intimate partner violence and child abuse rank as some of our nation s largest problems Men are also being abused by intimate partners parents or care providers at increasing rates The statistic is even more alarming worldwide Unfortunately these statistics represent only reported incidents The rates of verbal emotional and spiritual abuse are even higher In addition countless women are encouraged by clergy to return to their abusive spouses The faith community while called by God to free the oppressed has been slow to respond to this sin against humanity Few seminaries offer quality domestic violence prevention training for clergy However clergy still continue to be sought for help from the community and as advocates for victims of domestic violence A partnership between the church and community locally and abroad is necessary if we wish to transform humans caught in this form of oppression In *Setting the Captives Free* Ron Clark proposed a theology of addressing domestic violence and its application for clergy *Freeing the Oppressed* is a book that seeks to condense Clark s previous work into a readable form for those seeking spiritual answers concerning abuse and batterer intervention and for helpers of those caught in the cycle of family violence It is also designed as an outreach for those seeking help from the faith community

Child Exploitation, and Criminal Justice Responses Daniel G. Murphy, April G. Rasmussen,2020-01-08 There are few things in our society that provoke such raw emotions as that of child abuse Most people justifiably so are outraged when they hear of allegations of abuse and their anger is intensified as they learn of what seems to be an inappropriate criminal justice response However the debate on child abuse usually happens through visceral emotions rather than facts Taking emotions out of a child abuse debate is much easier said than done but it is of utmost importance to identify the facts When the reader has a better understanding of the scope of child abuse they can become more objective but still maintain their passion about ways to protect this vulnerable and targeted population Child Abuse Child Exploitation and Criminal Justice Responses is unique in that it offers the reader contributing facts based not only through scholarly research but practical experience working in field from this wonderful collaboration of criminal investigator and forensic nurse Thus providing much personal insight and demonstrating how these two areas of expertise can join forces to achieve the objective of working as a team to facilitate safeguarding children The authors also presents the research on this complex yet worthy topic by identifying the unique challenges of investigating these offenses while ultimately bringing the perpetrators to justice and presenting the research from various perspectives of child abuse including both national and international issues and responses **Story**

Free Ron Clark,2005-11-01 Abuse is a problem that needs to be understood addressed and challenged The abused are

humans in the image of God who need to be protected loved and empowered to stand with us and walk through life with respect and dignity When God brings a victim to us we have a responsibility to love them as we want to be loved and be faithful to that responsibility We must make sure that they and their children are safe protected and given the chance to live in peace and love Abusers are also humans who are in the image of God and they need to be taught how to live and respect all others They must be confronted and challenged to change or face prosecution by our legal system and our spiritual communities I believe that the faith community is in a great position to address this problem We have a God who grieves over the violence that occurs in families Yet we have a God who grieves even more over the fact that spiritual leaders have failed to act as servants of Yahweh in this respect The rest of this book is an appeal to you to gain an understanding of what it really means to face domestic violence and how to help bring peace and wholeness to victims and their children caught in the web of abuse It is an appeal to you to confront those who abuse others rather than shut your eyes from the Introduction

Allison, 2007 This text offers a balance of clinical and social psychological theory and research as well as prevention and intervention techniques with the purpose of understanding and ultimately ending gender based violence The authors address several forms of violence including rape intimate partner violence stalking and sexual harassment in a contemporary linguistic style carefully crafted to avoid victim blaming Although most men do not perpetrate violence against women such violence is not a women s issue it will take the strength and courage of both women and men to solve this human issue This book moves full circle in its coverage of the topic as it explores the silent epidemic of men s violence against women the grave consequences of this violence on both individuals and society and the historical and current foundations that serve to both criminalize and tolerate men s violence against women The authors describe a variety of efforts to treat both offenders and victims highlighting both their vital importance and their insufficiency in preventing violence The final part of the book contains descriptions of model violence prevention approaches and techniques for implementing these programs Readers are empowered as they discover how they can be part of the solution Men s Violence Against Women is intended as a text for courses in gender based violence in a variety of disciplines including psychology sociology and women s men s and or gender studies The book is also a valuable resource for college and community gender based violence prevention and intervention program providers
