The Power Of Religion In The Public Sphere:

The Power of Religion in the Public Sphere Judith Butler, Jurgen Habermas, Charles Taylor, Cornel West, 2011-03-02
The Power of Religion in the Public Sphere represents a rare opportunity to experience a diverse group of preeminent philosophers confronting one pervasive contemporary concern what role does or should religion play in our public lives Reflecting on her recent work concerning state violence in Israel Palestine Judith Butler explores the potential of religious perspectives for renewing cultural and political criticism while Jurgen Habermas best known for his seminal conception of the public sphere thinks through the ambiguous legacy of the concept of the political in contemporary theory Charles Taylor argues for a radical redefinition of secularism and Cornel West defends civil disobedience and emancipatory theology Eduardo Mendieta and Jonathan VanAntwerpen detail the immense contribution of these philosophers to contemporary social and political theory and an afterword by Craig Calhoun places these attempts to reconceive the significance of both religion and the secular in the context of contemporary national and international politics

Performing Religion in Public J. Edelman, C. Chambers, S. du Toit, Simon du Toit, 2013-10-10 Religious life and public life are both passionately performed but often understood to exclude one another This book s array of voices investigates the publics hailed by religious performances and the challenges they offer to theories of the democratic public sphere

The Politics of Religious Literacy Justine Ellis, 2022-11-07 Religious Literacy has become a popular concept for navigating religious diversity in public life Spanning classrooms to boardrooms The Politics of Religious Literacy challenges commonly held understandings of religious literacy as an inclusive framework for engaging with religion in modern multifaith democracies As the first book to rethink religious literacy from the perspective of affect theory and secularism studies this new approach calls for a constructive reconsideration focused on the often overlooked feelings and practices that inform our questionably secular age This study offers fresh insights into the changing dynamics of religion and secularism in the public sphere

Transformations of Religion and the Public Sphere R. Braidotti, B. Blaagaard, T. Graauw, E. Midden, 2014-11-25 Religion fuelled terrorism and attacks on freedom of expression have recently drawn headlines across Europe either in protest or in support of extreme

political or religious persuasions This books explores interdisciplinary perspectives on public discussions of liberal secular freedoms and their implications in a postsecular world *The Postsecular Political Philosophy of Jürgen Habermas* Dafydd Huw Rees,2018-09-01 This is the first full length treatment of Habermas postsecular political philosophy in English It gives a much more in depth analysis of this aspect of his work than the comparable books listed above It looks at this issue in the context of Habermas entire philosophical project drawing out hitherto overlooked connections It works as an intermediate level introduction to many aspects of Habermas philosophical project his social theory moral philosophy and metaphysics as well as his political theory and philosophy of religion *Reasoning With Who We Are* Mark Redhead,2014-04-04 Public reasoning a manner of democratic deliberation that can generate meaningful conceptions of justice the collective good and other unifying political values among individuals subscribing to varied and contrasting doctrines has been a perennial concern among political philosophers from historical thinkers such as Immanuel Kant to contemporary theorists like John Rawls and Jurgen Habermas In this ambitious study Mark Redhead explores versions of public reasoning in the works of six of the most important voices in contemporary political theory Alasdair MacIntyre Charles Taylor Hannah Arendt Seyla Benhabib Michel Foucault and William E Connolly He identifies an important but as of yet unappreciated version of public reasoning one that provides creative and effective responses to questions at the forefront of liberal democratic political thought human rights secularity and global governance **Global Secularisms in a Post-Secular Age** Michael Rectenwald,Rochelle Almeida,George Levine,2015-10-16 Global Secularisms addresses the state of and prospects for secularism globally Drawing from multiple fields it brings together theoretical discussion and empirical case studies that illustrate on the ground extant secularisms as they interact with various religious political social and economic contexts Its point of departure is the fact that secularism is plural and that various secularisms have developed in various contexts and from various traditions around the world Secularism takes on different social meanings and political valences wherever it is expressed The essays collected here provide numerous points of contact between empirical case studies and theoretical reflection This multiplicity informs and challenges the conceptual theorization of secularism as a universal doctrine Analyses of different regions enrich our understanding of the meanings of secularism providing comparative range to our notions of secularity Theoretical treatments help to inform our understanding of secularism in context enabling readers to discern what is at stake in the various regional expressions of secularity globally While the bulk of the essays are case based research the current thinking of leading theorists and scholars is also included Religion and Public Discourse in an Age of Transition Geoffrey Cameron,Benjamin Schewel,2018-01-03 Technology tourism politics and law have connected human beings around the world more closely than ever before but this closeness has paradoxically given rise to fear distrust and misunderstanding between nation states and religions In light of the tensions and conflicts that arise from these complex relationships many search for ways to find peace and understanding through a global public sphere There citizens can deliberate on issues of

worldwide concern Their voices can be heard by institutions able to translate public opinion into public policy that embraces more than simply the interests and ideas of the wealthy and the empowered Contributors to this volume address various aspects of this challenge within the context of Bah thought and practice whose goal is to lay the foundations for a new world civilization that harmonizes the spiritual and material aspects of human existence Bah teachings view religion as a source of enduring insight that can enable humanity to repair and transcend patterns of disunity to foster justice within the structures of society and to advance the cause of peace Accordingly religion can and ought to play a role in the broader project of creating a pattern of public discourse capable of supporting humanity's transition to the next stage in its collective development The essays in this book make novel contributions to the growing literature on post secularism and on religion and the public sphere The authors additionally present new areas of inquiry for future research on the Bah faith

Hans-Herbert Kögler's Critical Hermeneutics Kurt C. M. Mertel, L'ubomír Dunaj, 2022-06-02 Providing a comprehensive engagement with the work of Hans Herbert Kögler this is the first volume to expand upon and critique his distinctive approach to critical theory critical hermeneutics In the current climate of crisis the relevance and fruitfulness of Kögler's work has never been greater as he fuses the philosophies of Michel Foucault Hans Georg Gadamer and his mentor Jürgen Habermas to respond to critical international issues surrounding politics agency and society Working towards a truly non ethno centric and global conception of intercultural dialogue an essential aspect of Kögler's critical hermeneutics is his account of selfhood as reflexive socially situated embodied and linguistically articulated permeated by power but yet critical and creative Leading international scholars representing a variety of disciplinary backgrounds build upon Kögler's approach in this volume and explore the methodological theoretical and applicative scope of critical hermeneutics beyond the Frankfurt School In doing so they address some of the most pressing issues facing global society today from multilingual education to the urgent need for interreligious and intercultural understanding Closing with a response from Kögler himself Hans Herbert Kögler's *Critical Hermeneutics* also offers an exclusive account of the philosopher's contemporary re appraisal of the core tenets of critical hermeneutics

Toward New Democratic Imaginaries - Istanbul Seminars on Islam, Culture and Politics Seyla Benhabib, Volker Kaul, 2016-09-23 This volume combines rigorous empirical and theoretical analyses with political engagement to look beyond reductive short hands that ignore the historical evolution and varieties of Islamic doctrine and that deny the complexities of Muslim societies encounters with modernity itself Are Islam and democracy compatible Can we shed the language of Islam vs the West for new political imaginaries The authors analyze struggles over political legitimacy since the Arab Spring and the rise of Al Qaeda and ISIS in their historical and political complexity across the MENA Middle East and North Africa region

A Constructive Critique of Religion Mia Lövheim, Mikael Stenmark, 2020-02-06 Why do some strategies for critique of religion seem to be more beneficial for constructive engagement whereas others increase intolerance polarization and conflict Through an analysis of the reasons underpinning a critique of religion in institutional contexts of secular democratic societies A Constructive Critique of Religion explores how constructive interaction and critique can be developed across diverse interests It shows how social and cultural conditions shaping these institutions enable and structure a critical and constructive engagement across diverging worldviews A key argument running through the book is that to develop constructive forms of critique a more thorough and systematic investigation of resources for criticism located within religious worldviews themselves is needed Chapters also address how critique of Islam and Christianity in particular is expressed in areas such as academia the law politics media education and parenting with a focus on Northern Europe and North America The interdisciplinary approach which combines theoretical perspectives with empirical case studies contributes to advancing studies of the complex and contentious character of religion in contemporary society

religious culture is closely related to political economic and social subsystems A real force of changing East Asian society is not only political powers or economic classes but also an invisible culture based on religious belief and practice This book focuses on the dynamic relationship between social progress and religious culture organization or movements in each society since 1945

Conscience and Cognition in Social Research Zhang Qingxiong, 2023-04-07 This book is a critical examination of the different roles of conscience and cognition in social research in China and the West exploring how the two traditions can enrich each other and help societies navigate through the complex intellectual and moral crises of our time Drawing on a rich array of primary and secondary sources this title traces the development of the Confucian conception of conscience from Confucius and Mencius to Xiong Shili and Mou Zongsan two representatives of Neo Confucianism This primacy of a moral sense is compared and contrasted with the tension within the Western culture between strains that place a premium on understanding and a deep commitment to the search for meaning in such philosophers as Habermas and Heidegger The author explicates why such a commitment is essential to social research and how the focus on instrumental rationality that has defined modernity may be corrected by recentring the role of conscience on intellectual inquiry in general To that end both Chinese and Western cultures have plenty to offer both in terms of substantive insights and research methodologies The book will be a crucial reference for scholars and students interested in Western philosophy comparative philosophy and Chinese philosophy

Religion, Gender, and the Public Sphere Niamh Reilly, Stacey Sriver, 2013-11-26 The re emergence of religion as a significant cultural social and political force is not gender neutral Tensions between claims for women s equality and the rights of sexual minorities on one side and the claims of religions on the other side are well documented across all major religions and regions It is also well recognized in feminist scholarship that gender identities and ethno religious identities work together in complex ways that are often exploited by dominant groups Hence a more comprehensive

understanding of the changing role and influence of religion in the public sphere more widely requires complex multidisciplinary and comparative gender analyses Most recent discussion on these matters however especially in Europe has focused primarily on the perceived subordinate status of Muslim women These debates are a reminder of the deep interrelation of questions of gender identity human rights and religious freedom more generally The relatively narrow albeit important purview of such discussions so far however underscores the need to extend the horizon of enquiry vis vis religion gender and the public sphere beyond the binary of Islam versus the West Religion Gender and the Public Sphere moves gender from the periphery to the centre of contemporary debates about the role of religion in public and political life It offers a timely multidisciplinary collection of gender focused essays that address an array of challenges arising from the changing role and influence of religious organisations identities actors and values in the public sphere in contemporary multicultural and democratic societies

Religious Freedom and Religious Pluralism in Africa Pieter Coertzen,M Christian Green,Len Hansen,2016-05-22 Africa continues to be a region with strong commitments to religious freedom and religious pluralism These however are rarely mere facts on the ground they are legal political social and theological projects that require considerable effort to realise This volume compiling the proceedings of the third annual conference of the African Consortium for Law and Religion Studies focuses on various issues which vastly effect the understanding of religious pluralism in Africa These include amongst others religious freedom as a human right the importance of managing religious pluralism and the permissibility of religious practice and observance in South African public schools

Towards a Critical Political Ethics Hille Haker,2020-05-13 In her book Hille Haker pleads for a radical course correction of Catholic social ethics by focusing on three foundational concepts of social ethics human rights human dignity and moral responsibility based on the interplay of compassion solidarity and justice The author argues for a historically and politically mediated ethics that replaces the natural law ethics The theoretical reflections of the book are carried out by the practical social ethical studies The politicization of individual human rights is examined in the contexts of migration religious freedom and criminal justice Human dignity is spelled out as vulnerable agency allowing for a sharp criticism of Catholic sexual morality and neglect of women s human rights The book ends with a discussion of the relationship of political theology and political ethics and its social ethical implications for the further development of a Critical Political Ethics
