However, the Bernissart skeleton changed all that. The animal was displayed in an upright posture similar to a kangaroo and later with its tail off the ground like the dinosaur we know of today. Focusing on the Bernissart discoveries, this book presents the latest research on *Iguanodon* and other denizens of the Cretaceous ecosystems of Europe, Asia, and Africa. Pascal Godefroit and contributors consider the Bernissart locality itself and the new research programs that are

underway there The book also presents a systematic revision of *Iguanodon* new material from Spain Romania China and Kazakhstan studies of other Early Cretaceous terrestrial ecosystems and examinations of Cretaceous vertebrate faunas
