Decolonizing Interpretive Research Antonia Darder,2019-05-30 To what extent do Western political and economic interests distort perceptions and affect the Western production of research about the other The concept of colonializing epistemologies describes how knowledges outside the Western purview are often not only rendered invisible but either absorbed or destroyed Decolonizing Interpretive Research outlines a form of oppositional study that undertakes a critical analysis of bodies of knowledge in any field that engages with issues related to the lives and survival of those deemed as other It focuses on creating intellectual spaces that will facilitate new readings of the world and lead toward change both in theory and practice The book begins by conceptualizing the various aspects of the decolonizing interpretive research approach for the reader and the following six chapters each focus on one of these issues grounded in a specific decolonizing interpretive study With a foreword by Linda Tuhiwai Smith this book will allow readers to not only engage with the conceptual framework of this decolonizing methodology but will also give them access to examples of how the methodology has informed decolonizing interpretive studies in practice **Conflicts in Curriculum Theory** João M.

[Choreographies of the Living](#) Carrie Rohman,2018-04-09 Choreographies of the Living explores the implications of shifting from viewing art as an exclusively human undertaking to recognizing it as an activity that all living creatures enact Carrie Rohman reveals the aesthetic impulse itself to be profoundly trans species and in doing so she revises our received wisdom about the value and functions of artistic capacities Countering the long history of aesthetic theory in the West beginning with Plato and Aristotle and moving up through the recent claims of neuroaesthetics Rohman challenges the likening of aesthetic experience to an exclusively human form of judgment Turning toward the animal in new frameworks for understanding aesthetic impulses Rohman emphasizes a deep coincidence of humans and animals elaborations of fundamental life forces Examining a range of literary visual dance and performance works and processes by modernist and contemporary figures such as Isadora Duncan D H Lawrence Virginia Woolf and Merce Cunningham Rohman reconceives the aesthetic itself not as a distinction separating humans from other animals but rather as a framework connecting embodied beings Her view challenges our species to acknowledge the shared status of art making one of our most hallowed and formerly exceptional activities

Deleuze, Bergson, Merleau-Ponty Dorothea E. Olkowski, 2021-09-07 Deleuze Bergson Merleau Ponty The Logic and Pragmatics of Creation Affective Life and Perception offers the only full length examination of the relationships between Deleuze Bergson and Merleau Ponty Henri Bergson 1859 1941 Maurice Merleau Ponty 1908 1961 and Gilles Deleuze 1925 1995 succeeded one another as leading voices in French philosophy over a span of 136 years Their relationship to one another's work involved far more than their overlapping lifetimes Bergson became both the source of philosophical insight and a focus of criticism for Merleau Ponty and Deleuze Deleuze criticized Merleau Ponty's phenomenology as well as his interest in cognitive and natural science Author Dorothea Olkowski points out that each of these philosophers situated their thought in relation to their understandings of crucial developments and theories taken up in the history and philosophy of science and this has been difficult for Continental philosophy to grasp She articulates the differences between these philosophers with respect to their disparate approaches to the physical sciences and with how their views of science function in relation to their larger philosophical projects In Deleuze Bergson Merleau Ponty Olkowski examines the critical areas of the structure of time and memory the structure of consciousness and the question of humans relation to nature She reveals that these philosophers are working from inside one another's ideas and are making strong claims about time consciousness reality and their effects on humanity that converge and diverge The result is a clearer picture of the intertwined workings of Continental philosophy and its fundamental engagement with the sciences

Art History after Deleuze and Guattari

Sjoerd van Tuinen, Stephen Zepke, 2017-11-14 At the crossroads of philosophy artistic practice and art history Though Gilles Deleuze and Felix Guattari were not strictly art historians they reinvigorated ontological and formal approaches to art and simultaneously borrowed art historical concepts for their own philosophical work They were dedicated modernists inspired by the German school of expressionist art historians such as Riegl W Ifflin and Worringer and the great modernist art critics such as Rosenberg Steinberg Greenberg and Fried The work of Deleuze and Guattari on mannerism and Baroque art has led to new approaches to these artistic periods and their radical transdisciplinarity has influenced contemporary art like no other philosophy before it Their work therefore raises important methodological questions on the differences and relations among philosophy artistic practice and art history In Art History after Deleuze and Guattari international scholars from all three fields explore what a Deleuzo Guattarian art history could be today Contributors ric Alliez Kingston University Universit Paris VIII Claudia Bl mle Humboldt Universit t zu Berlin Jean Claude Bonne cole des Hautes tudes en Sciences Sociales Ann Cathrin Drews Humboldt Universit t zu Berlin James Elkins School of the Art Institute of Chicago Sascha Freyberg Max Planck Institute for the History of Science Antoine l Heureux independent researcher Vlad Ionescu Hasselt University Juan Fernando Mej a Mosquera Pontificia Universidad Javeriana Gustavo Chirolla Ospina Pontificia Universidad Javeriana Bertrand Pr vost Universit Bordeaux Montaigne Elisabeth von Samsonow Akademie f r bildende K nste Wien Sjoerd van Tuinen Erasmus University Rotterdam Kamini Vellodi Edinburgh College of Art Stephen Zepke independent researcher
