Dictionary of the Lithuanian and English languages Antanas Lalis, 1903 **Twentieth-Century Chinese Translation Theory** Leo Tak-hung Chan, 2004-05-28 Past attempts at writing a history of Chinese translation theory have been bedeviled by a chronological approach which often forces the writer to provide no more than a list of important theories and theorists over the centuries Or they have stretched out to almost every aspect related to translation in China so that the historical political backdrop that had an influence on translation theorizing turns out to be more important than the theories themselves In the present book the author hopes to devote exclusive attention to the ideas themselves The approach adopted centers around eight key issues that engaged the attention of theorists through the course of the twentieth century in the hope that a historical account will be presented that is not time bound On the basis of 38 articles translated into English by teachers and scholars of translation the author has written four essays discussing the Chinese characteristics of this body of theory Separately they focus on the impressionistic the modern the postcolonial and the poststructuralist approaches deployed by leading Chinese theorists from 1901 to 1998 It is hoped that publication of this book will make possible cross cultural dialogue with translation academics in the West although the general reader will find much firsthand information on Chinese thinking about translation *The Hong Kong Filmography, 1977-1997* John Charles, 2015-06-14 Thanks to the successes of directors and actors like John Woo Jackie Chan and Chow Yun Fat the cinema of Hong Kong is wildly popular worldwide and there is much more to this diverse film culture than most Western audiences realize Beyond martial arts and
