The Robb Report Collection September 2008:

Living Weapons Gregory D. Koblentz, 2011-05-16 Biological weapons are widely feared yet rarely used Biological weapons were the first weapon prohibited by an international treaty yet the proliferation of these weapons increased after they were banned in 1972 Biological weapons are frequently called the poor man's atomic bomb yet they cannot provide the same deterrent capability as nuclear weapons One of my goals in this book is to explain the underlying principles of these apparent paradoxes from Living Weapons Biological weapons are the least well understood of the so called weapons of mass destruction Unlike nuclear and chemical weapons biological weapons are composed of or derived from living organisms In Living Weapons Gregory D Koblentz provides a comprehensive analysis of the unique challenges that biological weapons pose for international security At a time when the United States enjoys overwhelming conventional military superiority biological weapons have emerged as an attractive means for less powerful states and terrorist groups to wage asymmetric warfare Koblentz also warns that advances in the life sciences have the potential to heighten the lethality and variety of biological weapons The considerable overlap between the equipment materials and knowledge required to develop biological weapons conduct civilian biomedical research and develop biological defenses creates a multiuse dilemma that limits the effectiveness of verification hinders civilian oversight and complicates threat assessments Living Weapons draws on the American Soviet Russian South African and Iraqi biological weapons programs to enhance our understanding of the special challenges posed by these weapons for arms control deterrence civilian military relations and intelligence Koblentz also examines the aspirations of terrorist groups to develop these weapons and the obstacles they have faced Biological weapons Koblentz argues will continue to threaten international security until defenses against such weapons are improved governments can reliably detect biological weapon activities the proliferation of materials and expertise is limited and international norms against the possession and use of biological weapons are strengthened **Swatt | Miers** The Images Publishing Group, Swatt | Miers Architects, 2017-03-01 This new monograph of the work of Bay Area based internationally acclaimed Swatt Miers Architects features 30 exciting new projects including 20 new homes covering the prolific decade between 2006 and 2016 This 10 year period has seen the work of Swatt Miers expand into different regions of California including the Central Valley the Northern California wine country and Los Angeles different states including Hawaii and Colorado and other regions of the world including Canada India and Spain Designed from the inside out the constant threads that pervade the work include strong relationships of architecture to land open planning for informal living and dissolving the boundary between inside and outside all designed to be as beautiful to live in as to behold This volume showcases this firm's award winning projects and recent accomplishments in glorious full color and is replete with insightful and engaging commentary across the monograph's extraordinary collection of international works Hubbing for Tourists Evan R. A Grand Complication Stacy Perman, 2013-02-19 Two wealthy and powerful men engage in a decades long contest to create and possess the most remarkable watch in history James Ward Packard of Warren Ohio was an entrepreneur and a talented engineer of infinite curiosity a self made man who earned millions from his inventions including the design and manufacture of America s first luxury car the elegant and storied Packard Henry Graves Jr was the very essence of blue blooded refinement in the early 1900s son of a Wall Street financier a central figure in New York high society and a connoisseur of beautiful things especially fine watches Then as now expensive watches were the ultimate sign of luxury and wealth but in the early twentieth century the limitless ambition wealth and creativity of these two men pushed the boundaries of mathematics astronomy craftsmanship technology and physics to create ever more ingenious timepieces In any watch features beyond the display of hours minutes and seconds are known as complications Packard and Graves spurred acclaimed Swiss watchmaker Patek Philippe to create the Mona Lisa of timepieces a fabled watch that incorporated twenty four complications and took nearly eight years to design and build For the period it was the most complicated watch ever created For years it disappeared but then it surfaced at a Sotheby s auction in 1999 touching off a heated bidding war shattering all known records when it fetched 11 million from an anonymous bidder New York Times bestselling author Stacy Perman takes us from the clubby world of New York high society into the ateliers of the greatest Swiss watchmakers and into the high octane often secretive subculture of modern day watch collecting With meticulous research vivid historical details and a wealth of dynamic personalities A Grand Complication is the fascinating story of the thrilling duel between two of the most intriguing men of the early twentieth century Above all it is a sweeping chronicle of innovation the desire for beauty and the lengths people will go to possess it

Indian Naval Strategy in the Twenty-first Century James R. Holmes, Andrew C. Winner, Toshi Yoshihara, 2009-04-02 This is the first academic study of India s emerging maritime strategy and offers a systematic analysis of the interplay between Western military thought and

Indian maritime traditions By a quirk of historical fate Europe embarked on its Age of Discovery just as the main Asian powers were renouncing the sea ushering in centuries of Western dominance In the 21st century however Asian states are once again resuming a naval focus with both China and India dedicating some of their new found wealth to building powerful navies and coast guards and drawing up maritime strategies to govern the use of these forces The United States like the British Empire before it is attempting to manage these rising sea powers while preserving its maritime primacy This book probes how India looks at the sea what kind of strategy and seagoing forces New Delhi may craft in the coming years and how Indian leaders may use these forces It examines the material dimension but its major premise is that navies represent a physical expression of a society's history philosophical traditions and culture This book then ventures a comprehensive appraisal of Indian maritime strategy This book will be of interest to students of sea power strategic studies Indian politics and Asian Studies in general James R Holmes is an Associate Professor of Strategy at the U S Naval War College and a former U S Navy surface warfare officer Toshi Yoshihara is an Associate Professor in the Strategy and Policy Department at the Naval War College Andrew C Winner is Professor in the Strategic Research Department at the U S Naval War College
