Supreme Court in settling disputes between states the criteria developed by the Court to determine whether its original
jurisdiction should be invoked and the function of special masters who as adjuncts to the Court facilitate negotiated
settlements or provide the factual information needed by the Court to render sound decisions Zimmerman analyzes a wide
range of specific disputes from boundary lines to financial matters to water allocation diversion and pollution To alleviate the
Court s exceptionally heavy and critically important appellate workload the author proposes alternative mechanisms for
resolving controversies between sister states including interstate boundary compacts interstate regulatory compacts and
