Clinical and Psychological Perspectives on Foul Play Stephen J. Morewitz,2019-08-02 Clinical and Psychological Perspectives on Foul Play examines a wide range of factors that can influence how police determine foul play in possible homicide cases and in other possible crimes It develops a new theory of uncertainty at micro meso and macro levels to explain how law professionals arrive at this decision Specifically it examines the extent to which uncertainty in these situations can be influenced by media coverage family and community pressures socioeconomic factors demographic elements of victims as well as police knowledge and resources Written for forensic practitioners this book describes how these professionals can consult with law enforcement on such issues as the staging of crime scenes to mask intent the initiation of community strategies to find missing persons and the reliability of behavioral profiles The latest research from the Foul Play Project and the Missing Persons Project are employed to support the recommendations in this book and to point the way toward further research in this area

Child Abuse, Child Exploitation, and Criminal Justice Responses Daniel G. Murphy, April G. Rasmussen,2020-01-08 There are few things in our society that provoke such raw emotions as that of child abuse Most people justifiably so are outraged when they hear of allegations of abuse and their anger is intensified as they learn of what seems to be an inappropriate criminal justice response However the debate on child abuse usually happens through visceral emotions rather than facts Taking emotions out of a child abuse debate is much easier said than done but it is of utmost importance to

identify the facts When the reader has a better understanding of the scope of child abuse they can become more objective but still maintain their passion about ways to protect this vulnerable and targeted population Child Abuse Child Exploitation and Criminal Justice Responses is unique in that it offers the reader contributing facts based not only through scholarly research but practical experience working in field from this wonderful collaboration of criminal investigator and forensic nurse Thus providing much personal insight and demonstrating how these two areas of expertise can join forces to achieve the objective of working as a team to facilitate safeguarding children The authors also presents the research on this complex yet worthy topic by identifying the unique challenges of investigating these offenses while ultimately bringing the perpetrators to justice and presenting the research from various perspectives of child abuse including both national and international issues and responses
