

Uniform State Test (UST) Implementation Information

The Department will not be making available test materials, materials will not be sold, or the tests will not be released in any form or by any means, including electronic or mechanical reproduction, until the release of specific information pursuant to public law 94-142.

Overview

On April 1, 2000, NWEA is launching the Uniform State Test for UST. This is the first major change in NWEA's 4th-12 Grade assessments since the NWEA 4th-12 Grade tests were launched in July, 1999.

This UST is a new addition to NWEA's National Test. This new addition includes 10 questions which bring the length of the National Test Component with 4th-12th Grade Component, 100 questions, of which 90 are new questions are added. This value brings the total length of the National Test to 100 questions.

This UST national test questions are those questions which have been selected by the Department and the NWEA staff and the NWEA staff have selected those questions which are most relevant to the implementation of the UST. This component is the first component of the National Test Component with 4th-12th Grade Component, and the NWEA staff have selected questions which have been [added](#).

This UST implementation also includes test components for the states that adopt it. Therefore, by passing the National with 4th-12th Grade Component as the NWEA staff, it is possible to have the testing component for the states that have adopted the UST, and also states that adopt it themselves.

As of July 1, 2000, 12 states have been approved to adopt the UST. These participating states agencies may want to participate in the UST as a pilot state, but they are not required to do so. States agencies which are interested in adopting the UST will continue to require questions to be added to the test until the state agency has approved the UST. For a list of states agencies that have adopted the UST, see the [UST Administration and Test](#).
