Competence Assessment in Education Detlev Leutner, Jens Fleischer, Juliane Grünkorn, Eckhard Klieme, 2017-03-27 This book addresses challenges in the theoretically and empirically adequate assessment of competencies in educational settings. It presents the scientific projects of the priority program Competence Models for Assessing Individual Learning Outcomes and Evaluating Educational Processes which focused on competence assessment across disciplines in Germany. The six year program coordinated 30 research projects involving experts from the fields of psychology, educational science and subject specific didactics. The main reference point for all projects is the concept of competencies which are defined as context specific cognitive dispositions that are acquired and needed to successfully cope with certain situations or tasks in specific domains. Koeppen et al 2008 p 62. The projects investigate different aspects of competence assessment. The primary focus lies on the development of cognitive models of competencies complemented by the construction of psychometric models based on these theoretical models. In turn the psychometric models constitute the basis for the construction of instruments for effectively measuring competencies. The assessment of competencies plays a key role in optimizing educational processes and improving the effectiveness of educational systems. This book contributes to this challenging endeavor by meeting the need for more integrative interdisciplinary research on the structure levels and development of competencies.

Home, School, and Community Collaboration Kathy B. Grant, Julie A. Ray, 2018-02-27 Home School and Community Collaboration uses the culturally responsive family support model as a framework to prepare teachers to work effectively with children from diverse families. Authors Kathy B Grant and Julie A Ray skillfully incorporate numerous real life vignettes and case studies to show readers the practical application of culturally responsive family engagement. The Fourth Edition contains additional content that enhances the already relevant text including a new section titled Perspectives on Poverty acknowledging the deep levels of poverty in the United States and the impact on family school relations. Increased coverage of Latino/Latina family connections and updated demographics focusing on the issues impacting same sex families, families experiencing divorce, children and family members with chronic illnesses, military families and grandparents raising children. With contributions from more than 22 experts in the field offering a wide range of perspectives, this book will help readers understand, appreciate and support diverse families. This text is accompanied with FREE online resources.

No Ordinary Disruption Richard Dobbs,James Manyika,Jonathan Woetzel,2016-08-30 Our intuition on how the world works could well be wrong We are surprised when new competitors burst on the scene or businesses protected by large and deep moats find their defenses easily breached or vast new markets are conjured from nothing Trend lines resemble saw tooth mountain ridges The world not only feels different The data tell us it is different Based on years of research by the directors of the McKinsey Global Institute No Ordinary Disruption The Four Forces Breaking all the Trends is a timely and important analysis of how we need to reset our intuition as a result of four forces colliding and transforming the global economy the rise of emerging markets the accelerating impact of technology on the natural forces of market competition an aging world population and accelerating flows of trade capital and people Our intuitions formed during a uniquely benign period for the world economy often termed the Great Moderation Asset prices were rising cost of capital was falling labour and resources were abundant and generation after generation was growing up more prosperous than their parents But the Great Moderation has gone The cost of capital may rise The price of everything from grain to steel may become more volatile The world s labor force could shrink Individuals particularly those with low job skills are at risk of growing up poorer than their parents What sets No Ordinary Disruption apart is depth of analysis combined with lively writing informed by surprising memorable insights that enable us to quickly grasp the disruptive forces at work For evidence of the shift to emerging markets consider the startling fact that by 2025 a single regional city in China Tianjin will have a GDP equal to that of the Sweden of that in the decades ahead half of the world s economic growth will come from 440 cities including Kumasi in Ghana or Santa Carina in Brazil that most executives today would be hard pressed to locate on a map What we are now seeing is no ordinary disruption but the new facts of business life facts that require executives and leaders at all levels to reset their operating assumptions and management intuition

The Pedagogy of Standardized Testing Arlo Kempf,2016-04-29 Based on a large scale international study of teachers in Los Angeles Chicago Ontario and New York this book illustrates the ways increased use of

high stakes standardized testing is fundamentally changing education in the US and Canada with a negative overall impact on the way teachers teach and students learn Standardized testing makes understanding students strengths and weaknesses more difficult and class time spent on testing consumes scarce time and attention needed to support the success of all students further disadvantaging ELLs students with exceptionalities low income and racially minoritized students
