Disciplinary Literacy and Explicit Vocabulary Teaching: A whole school approach to closing the attainment gap Kathrine Mortimore,2020-12-15 Firmly rooted in research evidence of what works within the classroom for our most disadvantaged students Disciplinary Literacy and Explicit Vocabulary Teaching offers teachers and school leaders practical ways in which those students who are behind in their literacy capabilities can make excellent progress Building on the work of Geoff Barton in his influential book Don't Call it Literacy Kathrine Mortimore outlines the unique literacy challenges posed by specific

subject areas for those with weaker literacy skills and more importantly how these challenges can be addressed and overcome. A student's GCSE results are vital in giving them the choices they deserve in order to go on to the next stage of their academic careers. This book draws on the success stories of schools and subjects that have made significant improvements in the outcomes of the children they teach regardless of their starting points. From the inevitable success of Michaela Community school to the gains made by the English department at Torquay Academy and the rapid reading improvements at Henley Bank, this book draws on both whole school initiatives and subject specific strategies which have had proven success. This book places a wide and balanced knowledge rich curriculum at the centre of any school improvement strategy designed to improve literacy and illustrates the role that all subjects must combine to play in building the vital background knowledge and vocabulary that young people need in order to read independently. This curriculum must then be delivered using those teaching methods that have had the greatest impact on disadvantaged learners and this book sets out how the methodology of direct and explicit instruction can be adopted within each subject area. Alongside this is a useful summary of staff development and inset which offers practical ways in which teachers' adoption of these effective strategies can be facilitated. There are also useful sections on creating a whole school dictionary of essential vocabulary, creating a culture of reading and writing and also those key literacy barriers experienced by those students with some of the most common special educational needs.
