McGregor,2017-10-25 Understanding and Evaluating Research A Critical Guide shows students how to be critical consumers of research and to appreciate the power of methodology as it shapes the research question the use of theory in the study the methods used and how the outcomes are reported The book starts with what it means to be a critical and uncritical reader of research followed by a detailed chapter on methodology and then proceeds to a discussion of each component of a research article as it is informed by the methodology The book encourages readers to select an article from their discipline learning along the way how to assess each component of the article and come to a judgment of its rigor or quality as a scholarly report

Microeconomics for Managers Richard B. McKenzie,D. Eric Schansberg,Dwight R. Lee,2024-03-28 This fully updated fourth edition explores microeconomic concepts with a distinctive emphasis on the economic way of thinking and its applicability to sharp managerial thinking productivity and good decision making It stands apart due to its strong focus on practical and applied knowledge from the business context and its unique structure Part I of each chapter develops key economic principles Part II draws on those principles to discuss organizational and incentive issues in management focusing on solving the principal agent problem to maximize the profitability of the firm There are plentiful real life scenarios and provocative examples in each chapter Accessible to MBA students other graduate students and undergraduates it is ideal as

a core text for courses in Managerial Economics Requiring an understanding of only basic algebra this new edition is more concise with a wealth of online resources including additional online chapters and an online appendix with more advanced mathematical applications Microeconomics for MBAs Richard B. McKenzie, Dwight R. Lee, 2016-07-18 A sophisticated yet non technical introduction to microeconomics for MBA students now in its third edition *South African Schooling: The Enigma of Inequality* Nic Spaull, Jonathan D. Jansen, 2019-11-05 This volume brings together many of South Africa's leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90/10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people's future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI *Tracking Changes in South African Reading Literacy Achievement*, 2023-09-04 Reading has been touted as the most crucial and lacking skill for young South African children This book delves into the issues and measurement considerations surrounding reading literacy using the Progress in International Reading Literacy Study PIRLS data The contributors to this volume explore the complexities of measuring reading literacy with an international survey curricula misalignment and how the PIRLS framework can inform teaching and learning Contributors are Caroline B ning Celeste Combrinck Peter Courtney
