Mccagh, 2012-06 Can Butterflies Cry as written by Automatic Writing All of my books are written by automatic writing As I have explained in my first book Sleep never comes for those that did not reach the other side It was the beginning of an urge to fulfil an agreement to tell the stories of the lost souls to help them accept death and move on This book also includes stories from my childhood experiences and how and where I was when I first encountered my spirit friends and what I have learned from being their interpreter I asked my guide a long time ago Why do they come to me His answer was in simplicity They do not come to give you proof of life They come for you to give them life after life I am not the judge just the storyteller

Why Elephants Cry John T. Hancock, 2023-05-29 Why Elephants Cry is a fascinating frolic through the literature and evidence surrounding the use of unusual behavior of animals to measure and predict the environment The role of animals from the smallest ant to the biggest elephant as predictors of environmental changes is framed around the climate crisis which highlights the increasingly important part that animals will have to play in the future Renowned biologist Professor John T Hancock collects anecdotal stories and myths along with scientific evidence demonstrating that observation of animals can be of tangible use He looks at the measurement of the air temperature using ants crickets and snakes and goes on to assess the evidence that the observation of a wide range of animals can predict the weather or the imminent eruption of volcanoes and earthquakes Evidence of animals being able to predict lunar and solar events such as lunar cycles and the Northern Lights is also considered This is the only time that all this literature has been brought together in one place a fascinating reference for anybody interested in animals and the environment The book is also an ideal supplementary

Not One Ten Passions Frederica R. Burrage, 2017-11-16 Not One Ten Passions is a collection of thoughts that explores my passions and priorities in life This is a journey through one's spiritual mind in hopes of expressing what's important in life In order for us to attain happiness and fulfillment we must first recognize what we are passionate about What makes a person smile Having a sense of purpose leads people to figure out their personal goals and the strategies necessary to obtain them It is never too late to take risks but why wait Once you form your vision you have to put effort into seeing it become a reality This book is a long time in the making I wanted to share with others my most favorite things What makes my heart flutter is being smothered by my two daughters and being surrounded by God's creations Everyone experiences situations differently We have to respect each other's viewpoints and understand that what matters to one should affect us all Looking on the bright side of things we must focus on ourselves and then we can better help our communities Encouraging words have a profound effect on our emotions I hope to be able to motivate and inspire others to seek their full potential If faced with obstacles you must brush yourself off and keep pressing forward
