The Great European Rip Off How The Corrupt:

The Great European Rip-off David Craig, Matthew Elliott, 2009-03-05 In this EU referendum year it s time for people across Europe to look at what really goes on in Brussels in our name It has been estimated that the EU costs us around 1 000 billion a year an incredible 2000 for every man woman and child in Europe So what do we get for our money Politicians and administrators selflessly working to bring us efficient government Well targeted regulations that promote economic prosperity A safe and free society A well protected environment Help for people in poorer countries Or is our money being squandered by a self serving euro elite of unaccountable politicians and incompetent bureaucrats or else devoured in a feeding frenzy of fraud and corruption where a few lucky insiders become unimaginably rich at our expense And is the tsunami of regulation pouring out of Brussels in reality strangling industry destroying jobs restricting personal freedom desecrating the environment and further impoverishing the developing world Using their extensive network of insider sources David Craig and Matthew Elliott smash through the secrecy and disinformation that are the Brussels hallmark to reveal what our European rulers are really getting up to The result is a horrifying story of bureaucracy hypocrisy and kleptocracy and how we are all suffering as a result **White Skin, Black Fuel** Andreas Malm, The Zetkin

Collective, 2021-05-18 Rising temperatures and the rise of the far right What disasters happen when they meet In the first study of the far right s role in the climate crisis *White Skin Black Fuel* presents an eye opening sweep of a novel political constellation revealing its deep historical roots Fossil fuelled technologies were born steeped in racism No one loved them more passionately than the classical fascists Now right wing forces have risen to the surface some professing to have the solution closing borders to save the nation as the climate breaks down Epic and riveting *White Skin Black Fuel* traces a future of political fronts that can only heat up *How Press Propaganda Paved the Way to Brexit* Francis

Rawlinson, 2020-01-21 This book traces how right wing newspapers in Britain helped shape British public opinion about the European Union over the course of the 20 years preceding the EU referendum in June 2016 The author argues that newspapers such as the Telegraph Mail Sun and Express have been effectively waging a long term propaganda war with the distortions and borderline fake news presented one of the factors that helped secure the narrow majority for Brexit Written by an EU insider the book presents hard facts and debunks the core myths on EU laws exorbitant budget contributions and uncontrolled immigration and contributes to the broader debate on the importance of the press for democracy *Between the Waves* Tom McTague, 2025-09-04 Longlisted for the Baillie Gifford Prize for Non Fiction Powerful precise morally engaged wonderfully alert to character context and the greater purpose of political life Rory Stewart author of *Politics on the Edge* A lucid thoughtful and richly provocative book Dominic Sandbrook The Sunday Times Compelling hugely well informed will stand for many years as the authoritative political history David Kynaston author of *Austerity Britain 1945 1951* This is the definitive history of Britain s tumultuous relationship with Europe as it s never been told before In a story of vaulting

ambition and underhand politics of nation identity and belief acclaimed political writer Tom McTague chronicles the battle of ideas events and personalities that first took the country into the Common Market in 1973 only to take it out of the European Union in an explosive referendum a little over forty years later Drawing on unpublished sources and exclusive interviews McTague unearths the roots of ideological conflict that raged between the leading politicians of the twentieth century as they fought for the future of Europe Charles de Gaulle Harold Macmillan Jean Monnet Enoch Powell and Margaret Thatcher Alongside these famous figures are the lesser known actors in Britain's great post war drama a coterie of Eurosceptic student radicals Cold Warriors eccentric billionaires and political strategists who turned the tide of history A riveting story of the clashing ideals that have pulled at Britain's public imagination for more than seven decades Between the Waves raises that most elemental of questions who are we A sweeping impressive and ambitious history of modern Europe Helen Lewis author of *Difficult Women*

[The Nobel Factor](#) Avner Offer, Gabriel Söderberg, 2019-11-19 Economic theory may be speculative but its impact is powerful and real Since the 1970s it has been closely associated with a sweeping change around the world the market turn This is what Avner Offer and Gabriel Soderberg call the rise of market liberalism a movement that seeking to replace social democracy holds up buying and selling as the norm for human relations and society Our confidence in markets comes from economics and our confidence in economics is underpinned by the Nobel Prize in Economics which was first

awarded in 1969 Was it a coincidence that the market turn and the prize began at the same time The Nobel Factor the first book to describe the origins and power of the most important prize in economics explores this and related questions by examining the history of the prize the history of economics since the prize began and the simultaneous struggle between market liberals and social democrats in Sweden Europe and the United States The Nobel Factor tells how the prize created by the Swedish central bank emerged from a conflict between central bank orthodoxy and social democracy The aim was to use the halo of the Nobel brand to enhance central bank authority and the prestige of market friendly economics in order to influence the future of Sweden and the rest of the developed world And this strategy has worked with sometimes disastrous results for societies striving to cope with the requirements of economic theory and deregulated markets **IBSS: Political Science: 2009 Vol. 58** The British Library of Political and Eco,2010-11 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth Today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage The IBSS reviews scholarship published in over thirty languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French *Report of the Commission to Investigate Charges of Fraud and Corruption Under Act of Assembly, Session 1871-72* North Carolina.
