

PRAISE FOR RICK ATKINSON

AN ARMY AT DAWN

"An Army at Dawn may be the best World War II battle narrative since Cornelius Ryan's classics, *The Longest Day* and *A Bridge Too Far*."
—*The Wall Street Journal*

"A splendid book... The emphasis throughout is on the human drama of men at war."
—*The Washington Post Book World*

"Exceptional... A work moving in narrative flow and character portraits of the principal commanders... [A] highly pleasurable read."
—*The New York Times Book Review*

THE DAY OF BATTLE

"A triumph of narrative history, elegantly written, thick with understated description and mined in the night and sounds of battle."
—*The New York Times*

"Majestic... Atkinson's achievement is to marry prodigious research with a superbly organized narrative and then to overlay the whole with writing is powerful and elegant as any great narrative of war."
—*The Wall Street Journal*

"Monumental... With this book, Rick Atkinson cements his place among America's great popular historians, in the tradition of Bruce Catton."
—*The Washington Post*

The Guns At Last Light By Rick Atkinson Holt June 2 23

Peter Sparding

The Guns At Last Light By Rick Atkinson Holt June 2 23:

The Guns at Last Light Rick Atkinson, 2013 Tells the dramatic story of the titanic battle for Western Europe from D Day to the thrust to the heart of the Third Reich The Lost Soldier Chris J. Hartley, 2018-08-01 The Lost Soldier offers a perspective on World War II we don't always get from histories and memoirs Based on the letters home of Pete Lynn the diary of his wife Ruth and meticulous research in primary and secondary sources this book recounts the war of a married couple who represent so many married couples so many soldiers in World War II The book tells the story of this couple starting with their life in North Carolina and recounting how the war increasingly insinuated itself into the fabric of their lives until Pete Lynn was drafted after which the war became the essential fact of their life Author Chris J Hartley intricately weaves together all threads soldier and wife home front and army life combat love and loss individual and army division into an intimate engaging narrative that is at once gripping military history and engaging social history The Liberation Trilogy Box Set Rick Atkinson, 2013-10-22 The definitive chronicle of the Allied triumph in Europe during World War II Rick Atkinson's Liberation Trilogy is now together in one ebook bundle From the War in North Africa to the Invasion of Normandy the Liberation Trilogy recounts the hard fought battles that led to Allied victory in World War II Pulitzer Prize winning and New York Times bestselling author Rick Atkinson brings great drama and exquisite detail to the retelling of these battles and gives life to a cast of characters from the Allied leaders to rifleman in combat His accomplishment is monumental the Liberation Trilogy is the most vividly told brilliantly researched World War II narrative to date WINNER OF THE PULITZER PRIZE AND NEW YORK TIMES BESTSELLER **Dr. Seuss and the Art of War** Montgomery McFate, 2024-08-19 If you take an interest in military and national security affairs you have probably read the works of Clausewitz Sun Tzu and Thucydides But what about the books of the underappreciated military strategist Theodor Geisel also known as Dr Seuss Until Dr Seuss National Security the military aspect of Ted Geisel's biography and his books have been overlooked by scholars and critics alike Yet Dr Seuss books possess direct relevance to national security in part because Ted Geisel's service in the the US Army during WWII made a lasting impact on his worldview Numerous traces of Ted Geisel's intense and dangerous wartime experiences can be found in his children's books Tucked in between bright and vivid drawings of imaginary animals and whimsical settings the reader may sometimes encounter foreboding dark forests ariel bombardment ruthless authority figures and other evocations of military life Each of the chapters in this edited volume employs a Dr Seuss book to illuminate a national security topic For example Oh the Places You'll Go helps us understand grand strategy in outer space I Had Trouble Getting to Solla Sollew puts new light on Clausewitz's concept of the fog of war and Hunches in Bunches can be seen as a primer on military intelligence By using beloved childhood stories to illuminate national security topics this book offers an entertaining way to approach complex topics that can be understood by specialists and non experts alike **After D-Day** Robert Lynn Fuller, 2021-02-24 After D Day is one of a small but growing body of works that examine the Allied liberators of France This

study focuses on both the French experience of the U S Army and the American soldiers reaction to the French during the liberation and its immediate aftermath Drawing on French and American archival materials as well as dozens of memoirs diaries letters and newspapers Robert Lynn Fuller follows French and American interactions starting in the skies over France in 1942 and ending with the liberation of Alsace in 1945 Fuller pays special attention to French life in the war zones where living under constant shelling offered a miserable experience for those forced to endure it The French stoically withstood those travails sometimes inflicted by the Americans when they saw their sacrifices as the price of liberation and victory over Germany As Fuller shows when the French did not believe afflictions brought by the Americans advanced the cause of success their tolerance waned sometimes dramatically Fuller maintains that the Allied bombing of France was an important yet often overlooked chapter of World War II one that inflicted more death and destruction than the ground war still to come Yet the ground campaign which began with the Allied invasion of Normandy unleashed enormous violence that killed injured or rendered homeless tens of thousands of French civilians Fuller examines French and American records of the fate of civilians in the principal battle zones Normandy and Lorraine as well as in overlooked liberated regions such as Orl anais and Champagne that largely escaped widespread damage and casualties Despite French gratitude toward the Americans for the liberation of their country relations began to cool in the fall and winter of 1944 as progress on the battlefield slowed and then appeared to reverse with the German offensive in the Ardennes Revealing in stark detail the experiences of French civilians with the American military After D Day presents a compelling coda to our understanding of the Allied conquest of German occupied France

Korean Showdown Bryan R. Gibby, 2021-01-12 A historical analysis of the policies and military strategies applied during the Korean War stalemate period Winner of the 2023 Andrew F Krepinevich Jr Writing Award Korean Showdown National Policy and Military Strategy in a Limited War 1951 1952 takes a holistic and integrative approach to strategy operations and tactics during the Korean War s stalemate period and demonstrates how these matters shaped each other and influenced or were influenced by political and strategic policy decision making Bryan R Gibby offers an analysis of the major political and military decisions affecting how the war was conducted operationally and diplomatically by examining American Chinese North Korean and South Korean operations in the context of fighting a limited war with limited means but for objectives that were not always limited in scope or ambition The foundational political decision was Harry Truman s voluntary repatriation policy which extended the war by up to eighteen months Its military counterpart was the American led Operation Showdown the last deliberate military offensive to coerce concessions at the negotiation table Showdown s failure and the Communists own equally disappointing military efforts opened up new avenues for solving the war short of a militarily imposed solution Gibby s research draws on primary sources from American Korean and Chinese archives and publications Many of these sources have not yet been mined in diplomatic and military histories of the Korean War This innovative book also addresses a significant gap in the study of Korean military operations the linkage between

ground and air pressure campaigns as well as the many Chinese and American operations conducted to establish negotiation positions Gibby also explores many political and propagandist developments that assumed great importance in the summer of 1952 such as prisoner of war riots the bombing of hydroelectric dams and the South Korean constitutional crisis which significantly influenced American and Chinese military decision making Ultimately this volume serves as a cautionary analysis of the limits of force the necessity to understand an adversary and the importance of strategic consensus It also offers an effective case study on an underappreciated period of civil military tension during the Cold War and on how civilian politicians and military leaders must collaborate to determine a realistic and effective strategy

The Good Allies Tim Cook, 2025-09-16 Cook takes on arguably his most ambitious topic yet and succeeds brilliantly Remarkably detailed and wise Policy Magazine From our country's most important war historian a gripping account of the turbulent relationship between Canada and the US during the Second World War The two nations entered the war amidst rivalry and mutual suspicion but learned to fight together before emerging triumphant and bound by an alliance that has lasted to this day When the Second World War broke out in 1939 it set in motion a deadly struggle between the Axis powers and the Allies but also fraught negotiations between and among the Allies On questions of diplomacy economic policy industrial might military capabilities and even national sovereignty thousands of lives and the fate of the free world depended on back room deals and desperate trade offs between soldiers diplomats and leaders In North America Canada and the US strained to forge a new military alliance to guard their coasts and fend off German U boats and the menace of a Japanese invasion Wartime economies were entwined to produce a staggering contribution of weapons to keep Britain and other allies in the war The defence of North America against enemy threats was essential before the US and Canada could send armies navies and air forces overseas In his trademark style Tim Cook employs eyewitness accounts to vividly lay bare the brutality of combat and the courage of North Americans under fire Behind the fighting fronts the charged and often secret communications between national leaders Churchill Roosevelt and King reveal how their personalities shaped the outcome of history's most destructive war the fate of the British Empire and the North American alliance that lives on to this day The Good Allies is a masterful account of how Canadians and Americans made the transition from wary rivals to steadfast allies and how Canada thrived in the shadow of the military and global superpower In exploring this complex and crucial dimension of the Second World War and its legacy Cook recounts two nations story of cooperation of sacrifice and of bleeding together to save the world from the fascist threat

Why We Lost Daniel P. Bolger, 2014-11-11 A commander's compelling behind the scenes view of the United States at war after 9/11 from high level strategy to combat on the ground The Wall Street Journal Over his thirty five year career Daniel P Bolger rose through the ranks of the army infantry to become a three star general commanding in both Afghanistan and Iraq Perhaps more than anyone else he was witness to the full extent of these wars from September 11th to withdrawal from the region Not only did Bolger participate in top level planning and strategy meetings he also regularly carried a rifle

alongside soldiers in combat actions Writing with hard won experience and unflinching honesty Bolger argues that while we lost in Iraq and Afghanistan we did not have to Intelligence was garbled Key decision makers were blinded by spreadsheets or theories And we never really understood our enemy Why We Lost is a timely forceful and compulsively readable account from a fresh and authoritative perspective filled with heartfelt stories of soldiers and Marines in firefights and close combat It weighs in mightily to the ongoing debate over how the United States should wage war The Washington Post *My Lai* Howard Jones,2017 A trenchant and haunting account of the My Lai massacre in Vietnam and its aftermath *Physician Soldier* Michael P. Gabriel,2020-09-25 Frederick R Gabriel graduated from medical school in 1940 entered the US Army and was assigned to the newly created 39th Station Hospital His letters from the Pacific theater especially from Guadalcanal Angaur and Saipan capture the everyday life of a soldier physician His son Michael P Gabriel a professional historian has faithfully preserved edited and annotated that correspondence to add a new dimension to our understanding of the social history of World War II which he presents here in *Physician Soldier* The South Pacific Letters of Captain Fred Gabriel from the 39th Station Hospital Like most wartime hospitals the 39th Station Hospital was positioned in a rear area and saw limited direct action And like most wartime hospitals the 39th Station Hospital spent each day confronting the injuries and casualties of frontline combat Gabriel supervised a ward and oversaw the unit s laboratory serving a hospital that provided care to four hundred patients at a time Gabriel s letters home capture this experience and more providing a revealing look into day to day life in the Pacific theater He discusses the training of medical officers and female nurses recreational activities such as Bob Hope s USO show and even his thoughts on the death of FDR the end of the war in Europe and ultimately the horrors of the atomic bomb **Maxwell Taylor's Cold War** Ingo Trauschweizer,2019-04-19 General Maxwell Taylor served at the nerve centers of US military policy and Cold War strategy and experienced firsthand the wars in Korea and Vietnam as well as crises in Berlin and Cuba Along the way he became an adversary of President Dwight D Eisenhower s nuclear deterrence strategy and a champion of President John F Kennedy s shift toward Flexible Response Taylor also remained a public critic of defense policy and civil military relations into the 1980s and was one of the most influential American soldiers strategists and diplomats However many historians describe him as a politicized dishonest manipulator whose actions deeply affected the national security establishment and had lasting effects on civil military relations in the United States In *Maxwell Taylor's Cold War From Berlin to Vietnam* author Ingo Trauschweizer traces the career of General Taylor a Kennedy White House insider and architect of American strategy in Vietnam Working with newly accessible and rarely used primary sources including the Taylor Papers and government records from the Cold War crisis Trauschweizer describes and analyzes this polarizing figure in American history The major themes of Taylor s career how to prepare the armed forces for global threats and localized conflicts and how to devise sound strategy and policy for a full spectrum of threats remain timely and the concerns he raised about the nature of the national security apparatus have not been resolved War of Supply David D.

Dworak,2022-05-17 The era of modern warfare introduced in World War II presented the Allied Powers with one of the more complicated logistical challenges of the century how to develop an extensive support network that could supply and maintain a vast military force comprised of multiple services and many different nations thousands of miles away from their home ports The need to keep tanks rolling airplanes flying and food and aid in continuous supply was paramount to defeating the Nazi regime In this extensively researched book David Dworak takes readers behind the scenes and breaks down the nuances of strategic operations for each of the great Mediterranean military campaigns between 1942 and the conclusion of World War II on May 8 1945 Dworak gives readers a glimpse behind the curtain to show how the vast administrative bureaucracy developed by the Allies waged a literal war of materiel that gave them a distinct strategic advantage over the Axis powers From North Africa to Southern France their continued efforts and innovation developed the framework that helped create and maintain the theater of war and ultimately paved the path to victory **World War II at Sea** Craig L.

Symonds,2018-04-02 Author of *Lincoln and His Admirals* winner of the Lincoln Prize *The Battle of Midway* Best Book of the Year Military History Quarterly and *Operation Neptune* winner of the Samuel Eliot Morison Award for Naval Literature Craig L Symonds has established himself as one of the finest naval historians at work today *World War II at Sea* represents his crowning achievement a complete narrative of the naval war and all of its belligerents on all of the world's oceans and seas between 1939 and 1945 Opening with the 1930 London Conference Symonds shows how any limitations on naval warfare would become irrelevant before the decade was up as Europe erupted into conflict once more and its navies were brought to bear against each other *World War II at Sea* offers a global perspective focusing on the major engagements and personalities and revealing both their scale and their interconnection the U boat attack on Scapa Flow and the Battle of the Atlantic the miracle evacuation from Dunkirk and the pitched battles for control of Norway fjords Mussolini's Regia Marina at the start of the war the fourth largest navy in the world and the dominance of the Imperial Japanese Navy and Japanese naval power in the Pacific Pearl Harbor then Midway the struggles of the Russian Navy and the scuttling of the French Fleet in Toulon in 1942 the landings in North Africa and then Normandy Here as well are the notable naval leaders FDR and Churchill both self proclaimed Navy men Karl Dönitz François Darlan Ernest King Isoroku Yamamoto Erich Raeder Inigo Campioni Louis Mountbatten William Halsey as well as the hundreds of thousands of seamen and officers of all nationalities whose lives were imperiled and lost during the greatest naval conflicts in history from small scale assaults and amphibious operations to the largest armadas ever assembled Many have argued that World War II was dominated by naval operations few have shown and how and why this was the case Symonds combines precision with story telling verve expertly illuminating not only the mechanics of large scale warfare on and below the sea but offering wisdom into the nature of the war itself [The Soldier's Truth](#) David

Chrisinger,2023-05-30 Named a best book of 2023 by Booklist A beautiful reckoning with the life and work of the legendary journalist Ernie Pyle who gave World War II a human face for millions of Americans even as he wrestled with his own demons

At the height of his fame and influence during World War II Ernie Pyle's nationally syndicated dispatches from combat zones shaped America's understanding of what the war felt like to ordinary soldiers as no writer's work had before or has since. From North Africa to Sicily from the beaches of Anzio to the beaches of Normandy and on to the war in the Pacific where he would meet his end Ernie Pyle had a genius for connecting with his beloved dogfaced grunts. A humble man himself plagued by melancholy and tortured by marriage to a partner whose mental health struggles were much more acute than his own Pyle was in touch with suffering in a way that left an indelible mark on his readers. While never defeatist his stories left no doubt as to the heavy weight of the burden soldiers carried. He wrote about post traumatic stress long before that was a diagnosis. In *The Soldier's Truth* acclaimed writer David Chrisinger brings Pyle's journey to vivid life in all its heroism and pathos. Drawing on access to all of Pyle's personal correspondence his book captures every dramatic turn of Pyle's war with sensory immediacy and a powerful feel for both the outer and the inner landscape. With a background in helping veterans and other survivors of trauma come to terms with their experiences through storytelling Chrisinger brings enormous reservoirs of empathy and insight to bear on Pyle's trials. Woven in and out of his chronicle is the golden thread of his own travels across these same landscapes many of them still battle scarred searching for the landmarks Pyle wrote about. A moving tribute to an ordinary American hero whose impact on the war is still too little understood and a powerful account of that war's impact and how it is remembered *The Soldier's Truth* takes its place among the essential contributions to our perception of war and how we make sense of it.

Proxy Wars Eli Berman, David A. Lake, 2019-03-15 The most common image of world politics

2 2 20 **No Better Friend?** Peter Sparding, 2024-11-18 The German American relationship is the decisive transatlantic dynamic of our time Long seen as one of the most stable connections between Europe and America thanks to its well defined

Cold War structure and hierarchy relations between Washington and Berlin have become much more volatile in the twenty first century and are playing an increasingly pivotal role in determining the degree to which Europe and the United States will be able to shape a rapidly changing world order Stabilising this uniquely complicated relationship will be no easy feat At times more closely aligned politically and more intertwined economically than any other transatlantic pair since the end of the Cold War these republics have seen their relations characterised by frequent diplomatic cultural and philosophical clashes and misunderstandings and a trail of disappointed expectations Peter Sparding examines the long history between the two countries and their peoples the narratives and perceptions harboured by each nation concerning the other and the evolution of diplomatic economic and security ties Appraising the complicated interplay between Germany and the United States vis vis a rising China and the domestic challenges facing both countries his book offers an outlook on how this all important relationship might function going forward

Scorched Earth Paul Thomas Chamberlin, 2025-05-06 A powerful unsparing new history of World War II recasting the conflict as a brutal struggle for survival among declining and ascendant imperial powers In popular memory the Second World War was an unalloyed victory for freedom over totalitarianism marking the demise of the age of empires and the triumph of an American led democratic order In *Scorched Earth* historian Paul Thomas Chamberlin dispatches the myth of World War II as a good war Instead he depicts the conflict as it truly was a massive battle beset by vicious racial atrocities fought between rival empires across huge stretches of Asia and Europe The war was sparked by German and Japanese invasions that threatened the old powers dominance not by Allied opposition to fascism The Allies achieved victory not through pluck and democratic idealism but through savage firebombing raids on civilian targets and the slaughter of millions of Soviet soldiers The Soviet Union and the United States emerged as hyper militarized new imperial powers each laying claim to former Axis holdings across the globe before turning on one another and triggering a new forever war Dramatically rendered and persuasively argued *Scorched Earth* shows that World War II marked the culmination of centuries of colonial violence and ushered in a new era of imperial struggle

Patton's Last Gamble Duane Schultz, 2018-05-01 In March 1945 against the advice of his top subordinates Gen George Patton created a special task force to venture more than fifty miles behind enemy lines and liberate a POW camp near Hammelburg Germany The camp held some 1 500 American prisoners including Patton s son in law Hampered by ambushes and a lack of fuel and even maps the raid was a disaster one of the worst mistakes of Patton s legendary career Out of some 300 men only three dozen returned Based on memoirs diaries combat reports and interviews with survivors Patton s Last Gamble vividly recounts a mission Gen Omar Bradley later said began as a wild goose chase and ended in tragedy

Eisenhower vs. Warren James F. Simon, 2018-04-10 The epic 1950s battle that would shape the legal future of the civil rights movement is chronicled here for the first time The bitter feud between President Dwight D Eisenhower and Chief Justice Earl Warren framed the tumultuous future of the modern civil rights movement Eisenhower was a gradualist who wanted to coax white

Americans in the South into eventually accepting integration while Warren author of the Supreme Court's historic unanimous opinion in *Brown v Board of Education* demanded immediate action to dismantle the segregation of the public school system. In *Eisenhower vs Warren*, two time New York Times Notable Book author James F. Simon examines the years of strife between them that led Eisenhower to say that his biggest mistake as president was appointing that dumb son of a bitch Earl Warren. This momentous poisonous relationship is presented here at last in one volume. Compellingly written *Eisenhower vs Warren* brings to vivid life the clash that continues to reverberate in political and constitutional debates today.
