Virginia Folk Legends Thomas E. Barden, 1991

What do devil dogs, witches, haunted houses, Daniel Boone Railroad Bill Justice, John Crutchfield and lost silver mines have in common? All are among the subjects included in the vast collection of legends gathered between 1937 and 1942 by the field workers of the Virginia Writers Project of the WPA. For decades following the end of the project, these stories lay untouched in the libraries of the University of Virginia. Now folklorist Thomas E. Barden brings to light these delightful tales, most of which have never been in print. *Virginia Folk Legends* presents the first valid published collection of Virginia folk legends and is endorsed by the American Folklore Society.

Mystery of the Haunted Woods Joan Lowery Nixon, 1967

Three children anticipate a dull Thanksgiving at their aunt's house in New Mexico until, in an emergency, they are left alone with the old Indian housekeeper who believes the surrounding woods are haunted by Indian spirits and her rebel granddaughter who is secretly visiting the ghost town in the woods.

The Harvest of Souls L.M. Whisper, 2023-12-06

In the small forgotten town of Ravenswood, nestled deep within the shadows of ancient gnarled trees, an ominous event occurred every decade shrouded in mystery and whispered about in hushed tones. It was known as The Harvest of Souls. The townsfolk spoke of it as if it were a curse, a malevolent force that descended upon Ravenswood like clockwork. Legend had it that once every ten years a spectral figure emerged from the depths of the haunted woods where no sane person dared to venture after nightfall. The entity

known only as the Reaper would roam the streets under the moon's ghostly glow seeking out the souls of those whose time had come

A Narratology of Drama Christine Schwanecke, 2022-01-19 This volume argues against Gérard Genette's theory that there is an insurmountable opposition between drama and narrative and shows that the two forms of storytelling have been productively intertwined throughout literary history. Building on the idea that plays often incorporate elements from other genres, especially narrative ones, the present study theorises drama as a fundamentally narrative genre. Guided by the question of how drama tells stories, the first part of the study delineates the general characteristics of dramatic narration and zooms in on the use of narrative forms in drama. The second part proposes a history of dramatic storytelling from the Renaissance to the twenty-first century that transcends conventional genre boundaries. Close readings of exemplary British plays provide an overview of the dominant narrative modes in each period and point to their impact in the broader cultural and historical context of the plays. Finally, the volume argues that throughout history, highly narrative plays have had a performative power that reached well beyond the stage: dramatic storytelling not only reflects socio-political realities but also largely shapes them.
