*Monthly Bulletin* St. Louis Public Library, 1919 Teachers bulletin vol 4 issued as part of v 23 no 9      *Early Days in Complex Dynamics* Daniel S. Alexander, Felice Iavernaro, Alessandro Rosa, 2012 The theory of complex dynamics whose roots lie in 19th century studies of the iteration of complex function conducted by Koenigs Schoder and others flourished remarkably during the first half of the 20th century when many of the central ideas and techniques of the subject developed This book by Alexander Iavernaro and Rosa paints a robust picture of the field of complex dynamics between 1906 and 1942 through detailed discussions of the work of Fatou Julia Siegel and several others A recurrent theme of the authors treatment is the center problem in complex dynamics They present its complete history during this period and in so doing bring out analogies between complex dynamics and the study of differential equations in particular the problem of stability in Hamiltonian systems Among these analogies are the use of iteration and problems involving small divisors which the authors examine in the work of Poincare and others linking them to complex dynamics principally via the work of Samuel Lattes in the early 1900s and Jurgen Moser in the 1960s Many details will be new to the reader such as a history of Lattes functions functions whose Julia set equals the Riemann sphere complex dynamics in the United States around the time of World War I a survey of complex dynamics around the world in the 1920s and 1930s a discussion of the dynamical programs of Fatou and Julia during the 1920s and biographical material on several key figures The book contains graphical renderings of many of the mathematical objects the authors discuss including some of the intriguing fractals Fatou and Julia studied and concludes with several appendices by current researchers in complex dynamics which collectively attest to the impact of the work of Fatou Julia and others upon the present day study      **Books of 1912-**, 1922      *Modern Chinese Counter-Enlightenment* Peng Hsiao-yen, 2023-06-06 In *Modern Chinese Counter Enlightenment Affect Reason and the Transcultural Lexicon* Peng Hsiao yen argues that a trend of Counter Enlightenment had grown from the late Qing to the May Fourth era in the 1910s to the 1920s and continued to the 1940s She demonstrates how Counter Enlightenment was manifested with case studies such as Lu Xun s writings in the late 1900s the Aesthetic Education movement from the 1910s to 1920s and the Science and Lifeview debate in the 1920s During the period the life philosophy movement highlighting the epistemic debate on affect and reason is connected with its counterparts in Germany France and Japan The movement had widespread and long term impact on Chinese philosophy and literature Using the transcultural lexicon as methodology this book traces how the German term

Lebensanschauung lifeview a key concept in Rudolf Eucken's life philosophy constituted a global tide of Counter Enlightenment that influenced the thought of leading Chinese intellectuals in the Republican era Peng contends that Chinese intellectuals transcultural connections with others in the philosophical pursuit of knowledge triggered China's self transformation She has successfully reconstructed the missing link in the Chinese theater of the worldwide dialectic of Enlightenment and Counter Enlightenment This book can be considered a milestone in modern Chinese and cultural studies It is also the most ambitious attempt in developing a new kind of interdisciplinary studies an attempt that bears a philosophic weight and cuts across the disciplines of Sinology comparative literature intellectual history and translation studies At the same time it seeks to demonstrate a new theory of Transcultural Lexicon which should appeal to all scholars interested in cultural theories Leo Ou fan Lee Chinese University of Hong Kong In the age ruled by the myth of technoscientific triumphalism this timely and refreshing book unearths a critical strand of thought and sensibility against enlightenment rationality in modern China Drawing on historical archives and debates Peng Hsiao yen stages a compelling critique of industrial modernity and the pursuit of wealth and power at the cost of emotional ties community and organic lifeways Ban Wang Stanford University

**The Asian Century** Jan Romein, 2023-04-28 The Asian Century A History of Modern Nationalism in Asia examines the transformation of Asia from a region defined by disparate cultural traditions to one unified by its response to Western imperialism and its revolutionary embrace of modernity The author argues that until the 19th century Asia lacked a cohesive history fragmented into Islamic Hindu Buddhist and Sinic cultural spheres with limited interaction However European dominance from the 19th century onward imposed a new unity catalyzing a revolutionary period of political independence social transformation and scientific and technological progress The book traces Asia's rediscovery of its own identity through its engagement with Europe highlighting the pivotal 20th century movements that ended colonial rule and set the stage for modernization Central to this

narrative are the revolutionary changes in Japan China India and other nations which embraced science reformed social structures and pursued political sovereignty The impact of the Russian Revolution and Soviet influence also played a critical role in shaping modern Asian societies While acknowledging the destructive legacy of colonialism the author also recognizes the infrastructure education and administrative frameworks introduced by imperial powers as factors that facilitated Asia s modernization The study integrates perspectives from across the continent including Soviet Asia and emphasizes the ongoing challenge of creating a global unity that transcends historical antagonisms Ultimately the work views the Asian revolution not only as a regional awakening but as a significant step toward the unification of humanity and a more equitable global order This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1962
