Prizing Children's Literature Kenneth B. Kidd, Joseph T. Thomas Jr., 2016-11-10 Children's book awards have mushroomed since the early twentieth century and especially since the 1960s when literary prizing became a favored strategy for both commercial promotion and canon making. There are over 300 awards for English language titles alone but despite the profound impact of children's book awards scholars have paid relatively little attention to them. This book is the first scholarly volume devoted to the analysis of Anglophone children's book awards in historical and cultural context. With attention to both political and aesthetic concerns the book offers original and diverse scholarship on prizing practices and their consequences in Australia, Canada and especially the United States. Contributors offer both case studies of particular awards and analysis of broader trends in literary evaluation and elevation drawing on theoretical work on canonization and cultural capital. Sections interrogate the complex and often unconscious ideological work of prizing the ongoing tension between formalist awards and so-called identity-based awards all the more urgent in light of the We Need Diverse Books campaign the ever-morphing forms and parameters of prizing and scholarly practices of prizing. Among the many awards discussed are the Pura Belpré Medal the Inky Awards the Canada Governor General Literary Award the Printz Award the Best Animated Feature Oscar the Phoenix Award and the John Newbery Medal giving due attention to prizes for fiction as well as for non-fiction poetry and film. This volume will interest scholars in literary and cultural studies social history book history sociology education library and information science and anyone concerned with children's literature.

Whose Language Is English? Jieun Kiaer, 2024-09-17 An exhilarating new account of the English language from British colonialism to the age of social media emphasizing dynamism and democratization. Whose language is English? Although we often think of it as native to one place today there are many Englishes. About seventy-five countries are now using English as their official or first language and the number of people speaking it around the world continues to rise. But the makeup of the English-speaking population is changing. The proportion of speakers for whom English is a first language for instance is decreasing due to the explosion in popularity of English as a second language. In this ambitious book Jieun Kiaer explores the lives of English words in the twenty-first century when the creation and use of language has become an increasingly dynamic interactive and diverse process in which ordinary people have taken leading roles offering such coinages as flexitarian MeToo glow up and shitizen to No sabo kids and beyond. As English language grows ever more diverse Kiaer believes we need a paradigm shift. We must acknowledge that all varieties of English are languages in their own right when they are used by a community of speakers. English is a language that belongs to everyone. Considering the effects of social media the Covid-19 pandemic virtual work globalization and artificial intelligence Kiaer paints a compelling portrait of a diffuse rapidly evolving language characterized by creativity and democratization.

Veganism, Archives, and Animals Catherine Oliver, 2021-08-12 This book explores the growing significance of veganism. It brings together important theoretical and empirical insights to offer a historical and contemporary analysis of veganism and our future co-existence with other animals. Bringing together key concepts from geography, critical animal studies, and feminist theory, this book critically addresses veganism as both a subject of study and a spatial approach to the self, society, and everyday life. The book draws upon empirical research through archival research, interviews with vegans in Britain, and a multispecies ethnography with chickens. It argues that the field of beyond-human geographies needs to more seriously take into account veganism as a rising socio-political force and in academic theory. This book provides a unique and timely contribution to debates within animal studies and more-than-human geographies, providing novel insights into the complexities of caring beyond the human. This book will appeal to students and scholars interested in geography, sociology, animal studies, food studies, and consumption, and those researching veganism.

Green Leaves Gifted Toghra Ghaemmaghami, 2021-09-23 I have been always drawn to stories. Indeed, the stories in my life have been far more effective than any formal education. While all written materials have left my conscious and reside in the ether of my existence, stories are alive and keep reckoning in every relevant aspect. I wanted to share this joy with those who are like-minded. In this book, I will share the stories I have encountered in my own life. The events that made an impression in my mind and left a lasting effect on my heart.

Korean Pansori as Voice Theatre Chan E. Park, 2023-11-16 This book introduces readers to the historical, performative, and cultural context of pansori, a traditional Korean oral story-singing art. Written by a scholar-practitioner of the form, this study is structured in three parts and begins by introducing readers to the technical, aesthetic, and theoretical components of pansori, as well as the synthesis of vocal and percussive elements that stage the narrative. It moves on to reflect on the historical contexts of pansori alongside Korea's transformation from Joseon monarchy to modern statehood. It argues that with colonial annexation came modernist influences that Korean dramatists and audiences used to create new genres of performance using the common thread of pansori. The book's third part explores the interplay of preservation and innovation beginning in

the post war period and continuing with developments in the 20th and 21st centuries that coincide with Korea's imprint on cultural globalization. Along with Korea's growth as a world economic center, a growing enthusiasm for Korean culture around the world has increased the transmission and visibility of pansori. This study argues that tradition and innovation are not as divergent as they are sometimes imagined to be and that tradition is the force that enables innovation. Drawing on Chan E Park's ethnographic work and performance practice, this book interweaves expert knowledge of both the textual and performative aspects of pansori, rendering legible this dramatic tradition.
