Television Westerns Episode Guide Harris M. Lentz, 1997 Since Hopalong Cassidy and the Lone Ranger blazed their first trails on television in 1949 Westerns have been the genre of choice for 180 series. Some Gunsmoke, Bonanza and Maverick for example were classics others such as 26 Men and Shotgun Slade were quickly forgotten. From Adventures of Briscoe County through Zorro and Son this comprehensive reference work covers all 180 Western series. Each entry opens with a listing of the broadcast history of the series including original network, day and time. This is followed by a listing of the regular cast members and a brief premise of the series. The individual episodes are then covered with the title, original air date, leading guest stars and a brief synopsis given. An exhaustive index completes the work. **Television Program Master Index** Charles V. Dintone, 2014-02-11 This work indexes books, dissertations and journal articles that mention television shows. Memoirs, autobiographies, biographies and some popular works meant for fans are also indexed. The major focus is on service to researchers in the history of television. Listings are keyed to an annotated bibliography. Appendices include a list of websites, an index of groups or classes of people on television and a list of programs by genre. Changes from the second edition include more than 300 new shows airing on a wider variety of networks, 2000 plus references, more than double the second edition and a large increase in scholarly articles. The book provides access to materials on almost 2300 shows including groundbreaking ones like All in the Family, almost 200 entries, cult favorites like Buffy The Vampire Slayer, 200 plus entries and a classic franchise Star Trek, more than 400 entries for all the shows. The shows covered range from the late 1940s to 2010. The Walking Dead. References range from 1956 to 2013. *Quality TV* Janet McCabe, Kim Akass, 2007-09-26 In his seminal book Television's Second Golden Age Robert Thompson described quality TV as best defined by what it is not, it is not regular TV. Audacious, maybe, but his statement renewed debate on the meaning of this highly contentious term. Dealing primarily with the post 1996 era shaped by digital technologies and defined by consumer choice and brand marketing, this book brings together leading scholars, established journalists and experienced broadcasters working in the field of contemporary television to debate what we currently mean by quality TV. They go deep into contemporary American

television fictions from *The Sopranos* and *The West Wing* to *CSI* and *Lost* innovative sometimes controversial always compelling dramas which one scholar has described as now better than the movies But how do we understand the emergence of these kinds of fiction Are they genuinely new What does quality TV have to tell us about the state of today's television market And is this a new Golden Age of quality TV Original often polemic each chapter proposes new ways of thinking about and defining quality TV There is a foreword from Robert Thompson and heated dialogue between British and US television critics Also included and a great coup are interviews with W Snuffy Walden scored *The West Wing* among others and with David Chase *The Sopranos* creator Quality TV provides throughout groundbreaking and innovative theoretical and critical approaches to studying television and for understanding the current and future TV landscape *Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954*, 1988 **TV Guide**, 2007
