by the Rev. John Taylor Alexander NISBET (Minister of the Secession Church, Portsburgh.), 1835 **The Saturday Review of Politics, Literature, Science and Art**, 1879 *Geology: Earth history: mesozoic, cenozoic. [c1906]* xi, 624 p Thomas Chrowder Chamberlin, Rollin D. Salisbury, 1906 *The Sixth Century* Hodges, Bowden, 2024-03-25 This collection of essays examines the sixth century AD from a new perspective Being a result of the European Science Foundation's programme devoted to the transformation of the Roman World the authors examine the economic and social conditions of a century which has often been overlooked The book takes a European overview and includes studies by archaeologists and historians whom in the course of the ESF project have developed a lively dialogue focussing upon the issue of demand in the sixth century An archaeologist poses many of the leading arguments in the first chapter and an historian draws these themes together in the final one The book includes a major review of the historiography of Henri Pirenne's celebrated thesis devoted to the decline of the Roman empire and the beginnings of the Middle Ages The majority of the essays however are regional studies approaching the subject with a new wide angled European vision *Earth history : Mesozoic, Cenozoic* Thomas Chrowder Chamberlin, 1906 *Geology: Earth history: Mesozoic, Cenozoic* Thomas Chrowder Chamberlin, Rollin D. Salisbury, 1907 *Notes and Queries*, 1897 **Ancient Arms Race: Antiquity's Largest Fortresses and Sasanian Military Networks of Northern Iran** Eberhard Sauer, Jebrael Nokandeh, Hamid Omrani Rekavandi, 2023-02-16 Which ancient army boasted the largest fortifications and how did the competitive build up of military capabilities shape world history Few realise that imperial Rome had a serious competitor in Late Antiquity Late Roman legionary bases normally no larger than 5ha were dwarfed by Sasanian fortresses often covering 40ha sometimes even 125-175ha The latter did not necessarily house permanent garrisons but sheltered large armies temporarily perhaps numbering 10-50 000 men each Even Roman camps and fortresses of the Early and High Empire did not reach the dimensions of their later Persian counterparts The longest fort lined wall of the late antique world was also Persian Persia built up between the fourth and sixth centuries AD the most massive military infrastructure of any ancient or medieval Near Eastern empire if not the ancient and medieval world Much of the known defensive network was directed against Persia's powerful neighbours in the north rather than the west This may reflect differences in archaeological visibility more than troop numbers Urban garrisons in the Romano Persian frontier zone are much harder to identify than vast geometric compounds in marginal northern lands Recent excavations in Iran have enabled us to precision date two of the largest fortresses of Southwest Asia both larger than any in the Roman world Excavations in a Gorgan Wall fort have shed much new light on frontier life and we have unearthed a massive bridge nearby A sonar survey has traced the terminal of the Tammisheh Wall now submerged under the waters of the Caspian Sea Further work has focused on a vast city and settlements in the hinterland Persia's Imperial Power our previous project had already shed much light on the Great Wall of Gorgan but it was our recent fieldwork that has thrown the sheer magnitude of Sasanian military infrastructure into sharp relief *THE HISTORY OF THE DECLINE AND FALL OF*

THE ROMAN EMPIRE (All 6 Volumes) Edward Gibbon, 2023-12-07 Edward Gibbon's monumental work *The History of the Decline and Fall of the Roman Empire* spans six volumes and meticulously chronicles the complex socio-political dynamics that led to the disintegration of one of history's greatest empires. Gibbon employs an eloquent and sophisticated literary style, interweaving narrative history with incisive analysis while incorporating vast historical sources. Set against the backdrop of 18th-century historiographical developments, the work embodies the Enlightenment ideals of reason and inquiry as Gibbon critically examines the interplay of moral and societal decay amidst rising barbarian influences and the transformative impacts of early Christianity. Gibbon, a British historian and Member of Parliament, drew upon his classical education and extensive travels throughout Europe to provide both depth and nuance to his historical narratives. The book reflects his fascination with the causes of empire as well as his personal belief in reason and skepticism towards dogmatic religion. Gibbon's experiences and intellectual pursuits, including his controversial views on Christianity's role in the empire's demise, are palpable throughout this ambitious investigation. Readers looking for a profound understanding of the mechanisms behind the rise and fall of civilizations will find in Gibbon's work an indispensable resource. His blend of engaging prose and rigorous scholarship makes this history not only informative but also a compelling read appealing to both historians and general readers alike. *The History of the Decline and Fall of the Roman Empire* is a cornerstone of Western historical literature that remains relevant and provocative today. *The Athenaeum*, 1890 *The Imperial magazine*; or, Compendium of religious, moral, & philosophical knowledge. Vol.1-12. 2nd ser. (ed. by S. Drew). Vol.1-4 ,
