Salt and Civilization S.A.M. Adshead, 2016-07-27 Highly recommended as a thorough examination of the commodity history of salt The Geographical Journal Salt has been called the primordial addiction It has been an object of almost universal consumption since Neolithic times This book sets out to place the particular histories of salt in a global perspective and write the history of a human commodity as a theme in world history From pagan man through classical Rome Byzantium early Islam the Dark Ages the Renaissance to the modern world the production distribution consumption and taxation of salt are examined The author shows how a history of salt cannot be separated from the histories of commerce medicine diet cooking taxation invention and war Although taken for granted today salt has been of critical economic and cultural importance to countries and peoples throughout history the instigator and catalyst to actions and events ranging from the first maritime expedition of Muslim forces to Columbus's discovery of America After *Salt and Civilization* salt can not be taken for granted again **Journal of Salt-history**, 1996 *Salt of the Desert Sun* Paul E. Lovejoy, 1986-05-22 In this study of salt production and trade Professor Lovejoy examines the interaction between ecology technology and social structure as a means of analysing the organisation of the salt industry of the Sokoto Caliphate and Borno By concentrating on the late nineteenth and early twentieth centuries Lovejoy is able to establish a base line from which to interpret earlier changes in the salt trade and thereby assess the impact of politics and economy on the history of the trade By the end of the nineteenth century production depended upon a combination of slavery free migrant peasants and workers from the haddad artisan caste A complex marketing network serviced the various salines although this network was intimately connected with the distribution of other commodities especially textiles grain and livestock An examination of this marketing system reveals patterns of immigration and social advancement that are important in understanding the social history of the central Sudan
