

1. How does Billie feel when he wakes up and discovers that everyone has left him? How is Billie changing? Do you feel that this change will continue to grow or will he return to his normal self?
2. The letter that the company leaves for Billie is like a contract. What will be provided to Billie if he participates and fulfills his role in the mission?
3. How does the setting change as the journey begins? Describe the dark-themed imagery that the party reflects. How does the setting characterize how Billie and a few other characters feel?
4. When the party can't light a fire, what do they see? Literally, what does the color red symbolize? Would you approach a red light? Why or why not? What does the party decide to do approach the red light or stay away?
5. What is the source of the red light? What does Billie communicate and how are they characterized?
6. What do Bert, Tim, and William do to Thelin and company? What happens to them and how?
7. What do Thelin and company obtain from the trailer left?
8. Where does Chasfield say he was when he was apart from the company?

**Approaches to Teaching Tolkien's *The Lord of the Rings* and Other Works**

Leslie A. Donovan, 2015-10-01 A philologist and medieval scholar J. R. R. Tolkien never intended to write immensely popular literature that would challenge traditional ideas about the nature of great literature and that was worthy of study in colleges across the world. He set out only to write a good story, the kind of story he and his friends would enjoy reading. In *The Hobbit* and in *The Lord of the Rings*, Tolkien created an entire world informed by his vast knowledge of mythology, languages, and medieval literature. In the 1960s, his books unexpectedly gained cult status with a new generation of young countercultural readers. Today, the readership for Tolkien's absorbing secondary world filled with monsters, magic, adventure, sacrifice, and heroism continues to grow. Part 1 of this volume, *Materials*, introduces instructors to the rich array of resources available for teaching Tolkien, including editions and criticism of his fiction and scholarship, historical material on his life and times, audiovisual materials, and film adaptations of his fiction. The essays in part 2, *Approaches*, help instructors introduce students to critical debates around Tolkien's work, its sources, its influence, and its connection to ecology, religion, and science. Contributors draw on interdisciplinary approaches to outline strategies for teaching Tolkien in a wide variety of classroom contexts.

**Transforming Talk into Text—Argument Writing, Inquiry, and Discussion, Grades 6-12** Thomas M. McCann, 2014-05-23 Author Thomas McCann invites readers to rethink their approach to teaching writing by capitalizing on students' instinctive desire to talk. Drawing on extensive classroom research, he shows teachers how to craft class discussions that build students' skills of analysis, problem solving, and argumentation as a means of improving student writing. McCann demonstrates how authentic discussions immerse learners in practices that become important when they write. Chapters feature portraits of teachers at work, including transcripts that reveal patterns of talk across a set of lessons. Interviews with the teachers and samples of student writing afford readers a deeper understanding of process. Students also report on how classroom discussions supported their effort to produce persuasive, argument-driven essays. *Book Features*: A focus on the thinking behind the practice, as opposed to a collection of lesson ideas; Connections to important elements from the Common Core State Standards, especially arguments writing; Examples of students at work with examples of the writing that emerges from their discussions; Portraits of skilled teachers as they promote inquiry and sequence and facilitate discussions; Appendices with problem-based scenarios, interview questions for students and teachers, samples of debatable cases in the news, and more. In this important book, Tom McCann has given us not only the admonition to change but the details about what effective change must be and what it looks like: evidence that it works effectively and details about how to bring it to pass. From the Foreword by George Hillocks Jr., Professor Emeritus, Department of English, University of Chicago. For a professional book to have an impact on the field, it needs to address a perceived need. Writing arguments for Common Core

performance assessments is a HUGE need right now that this book helps address Carol Jago associate director California Reading and Literature Project UCLA *Academic Writing for Geographers* James A. Tyner, 2023-08-21 There are many how to books on writing for academics none of these however relate specifically to the discipline of geography In this book the author identifies the principle modes of academic writing that graduate students and early career faculty will encounter specifically focusing on those forms expected of geographers that is those modes that are reviewed by academic peers This book is readily accessible to senior undergraduate and graduate students and early career faculty who may feel intimidated by the process of writing This volume is not strictly a how to or step by step manual for writing an article or book rather through the use of real concrete examples from published and unpublished works the author demystifies the process of different types of scholarly pieces geographers have to write with the specific needs and challenges of the discipline in mind Although chapters are thematic based e g stand alone chapters on book reviews articles and books the manuscript is structured around the concept of story telling for it is the author's contention that all writing whether a scientific study or more humanist essay is a form of story telling *The Rhetoric of Literary Communication* Virginie Iché, Sandrine Sorlin, 2022-01-31 Building on the notion of fiction as communicative act this collection brings together an interdisciplinary range of scholars to examine the evolving relationship between authors and readers in fictional works from 18th century English novels through to contemporary digital fiction The book showcases a diverse range of contributions from scholars in stylistics rhetoric pragmatics and literary studies to offer new ways of looking at the author reader channel drawing on work from Roger Sell Jean Jacques Lecercle and James Phelan The volume traces the evolution of its form across historical periods genres and media from its origins in the conversational mode of direct address in 18th century English novels to the use of second person narratives in the 20th century through to 21st century digital fiction with its implicit requirement for reader participation The book engages in questions of how the author reader channel is shaped by different forms and how this continues to evolve in emerging contemporary genres and of shifting ethics of author and reader involvement This book will be of particular interest to students and scholars interested in the intersection of pragmatics stylistics and literary studies
