Robert Ludlum's The Paris Option Robert Ludlum, Gayle Lynds, 2010-04-01. For 30 years, Robert Ludlum's novels have set the standard for the finest in international intrigue and suspense. With an unbroken string of bestsellers in almost every country in the world, Robert Ludlum's books have been enjoyed by hundreds of millions of readers and are widely acknowledged as classics in the field. Now, after the bestselling Covert One novels *The Hades Factor* and *The Cassandra Compact*, comes the third thrilling novel in the series, *The Paris Option*. A fiery explosion in the dark of night shatters one of the laboratory buildings in Paris's esteemed Pasteur Institute. Among the dead is Emile Chambord, one of the leaders in the global race to create a molecular or DNA computer. Unfortunately, Professor Chambord kept the details of his work secret, and his notes were apparently destroyed in either the bomb blast or the raging fire that followed. The scientific community does not expect a workable DNA computer to be developed for years. But suddenly, U.S. fighter jets disappear from radar screens for a full five minutes, and there's no explanation. Utilities across the Western states cease functioning, and all telecommunications abruptly stop with devastating consequences. This is not the work of a clever hacker; although Washington, worried about a panic, assures the public it is. Only the enormous power and speed of a DNA computer could have caused such havoc. Under the cover of visiting his friend Marty Zellerbach, who was severely injured when the Pasteur lab was destroyed, Covert One agent Jon Smith flies to Paris to search for the connection between the Pasteur explosion and the forces now wielding the computer. Following a trail that leads him across two continents, Smith uncovers a web of deception that threatens to wreck havoc and forever reshape the world.

The Boy Named Carp VM Lunga, 2020-05-04. Based on a true story, *The Boy Named Carp* is a coming-of-age tale about a boy that faces many tough challenges in his neighbourhood and his family life whilst attempting to find a place for himself. Rosenfeld, Janet Ward, 2023-09-14 Has fascism arrived in America In this pioneering book Gavriel D Rosenfeld and Janet Ward have gathered experts to survey the history of fascism in the United States Although the US established a staunch anti fascist reputation by defeating the Axis powers in World War II the unsettling truth is that fascist ideas have long been present within American society Since the election of Donald Trump as President in 2016 scholars have debated whether Trumpism should be seen as an outgrowth of American conservatism or of a darker and potentially fascist tradition Fascism in America contributes to this debate by examining the activities of interwar right wing groups like the Silver Shirts the KKK and the America First movement as well as the post war rise of Black antifascism and white vigilantism the representation of American Nazis in popular culture and policy options for combating right wing extremism **Fascism Comes to America** Bruce Kuklick, 2022-11-22 His goal is to figure out how people have used the concept to critique our politics to comment on the history of the twentieth century and as a term of derision in politics and culture Kuklick argues the term has almost no meaning in the way politicians and pundits have used it He explores its use in popular culture to show how culture critiqued fascism in serious work i e something like Robert Penn Warren's novel All the King's Men on Huey Long as well as in comedy and satire He concludes that the use of the term fascism illustrates how language is often drained of meaning as it is employed to deride opposing views or to hide real feelings or issues *Pictures and the Past* Alexander Bigman, 2024-06-25 The group of artists known as the Pictures Generation are usually thought to have rebelled against abstract and minimalist art by bringing back figural techniques and borrowing liberally from the aesthetics of mass media and advertising Challenging conventional interpretations of this group Alexander Bigman argues that these artists especially Robert Longo Jack Goldstein Sarah Charlesworth Gretchen Bender and Troy Brauntuch deployed totalitarian and fascist

iconography to pose new politically loaded questions about what it means to perceive the world historically in a society saturated by images Throughout he also situates their work in the context of other developments taking place in New York City at the time including music fashion cinema and literature This is a book about art popular culture and memory and especially about how the specter of fascism loomed for these artists in the 1970s and 1980s and the ways it still looms for us today

Robert Ludlum's The Altman Code Robert Ludlum, Gayle Lynds, 2010-08-31 When a photographer is murdered while recording cargo being secretly loaded in Shanghai Covert One director Fred Klein is brought in to find the cargo ship which is rumored to be carrying thousands of pounds of chemical weapons

Robert Ludlum's The Bourne Treachery Brian Freeman, 2022-05-24 The world's most ruthlessly efficient assassin Jason Bourne has carved a bloody swathe through all his opponents but now he's facing the one force he can't defeat his own past in the latest thrilling entry in Robert Ludlum's New York Times bestselling series Three years ago Jason Bourne embarked on a mission in Estonia with his partner and lover a fiery Treadstone agent code named Nova Their job was to rescue a Russian double agent who'd been smuggled out of St Petersburg in the midst of an FSB manhunt They failed The Russian died at the hands of a shadowy assassin known only by the nickname Lennon Now everything has changed for Bourne Nova is gone killed in a mass shooting in Las Vegas Bourne is a lone operative working in the shadows for Treadstone when he's called in for a new mission in London to prevent another assassination masterminded by Lennon But nothing about this mission is what it seems As Bourne engages in a cat and mouse game with Lennon across the British countryside he discovers that everything he thought he knew about the past was a lie And with the body count rising he comes to an inevitable conclusion Some secrets should stay buried

Robert Ludlum's The Blackbriar Genesis Simon Gervais, 2023-08-08 The assassination of a Treadstone agent leads two Blackbriar operatives down a rabbit hole of deceit and betrayal in this explosive new series from the world of Robert Ludlum A car explodes along a quiet Prague side street among the dead is an undercover Treadstone agent It's not unusual for such men to meet their fates on an operation but in this case there's one catch None of his superiors know what he was doing there Two Blackbriar operatives Helen Jouvert and Donovan Wade are sent to investigate Their search for answers will take them deeper into the world of conspiracy and fake news than they ever expected Treadstone and Blackbriar may be two sides of the same coin intelligence and counterintelligence but they have one thing in common answers can be the deadliest commodity of all
