Landgrave Herman of Thuringia which occurred in 1216 the probability seems to be that the Parzival was written within the first fifteen years of the thirteenth century Inasmuch too as this work bears no traces of immaturity in thought or style it is probable that the date of the poet's birth cannot be placed much later than 1170 The name Wolfram von Eschenbach points to Eschenbach in Bavaria as in all probability the place of his birth as it certainly was of his burial So late as the end of the seventeenth century his tomb with inscription was to be seen in the Frauen kirche of Ober Eschenbach and the fact that within a short distance of the town are to be found localities mentioned in his poems such as Wildberg Abenberg Tr hending Wertheim etc seems to show that there too the life of the poet knight was spent By birth as Wolfram himself tells us he belonged to the knightly order Zum Schildesamt bin Ich geboren though whether his family was noble or not is a disputed point in any case Wolfram was a poor man as the humorous allusions which he makes to his poverty abundantly testify Yet he does not seem to have led the life of a wandering singer as did his famous contemporary Walther von der Vogelweide if Wolfram journeyed as he probably did it was rather in search of knightly adventures he tells us Durchstreifen muss Der Lande viel Wer Schildesamt verwalten will and though fully conscious of his gift of song yet he systematically exalts his office of knight above that of poet The period when Wolfram lived and sang we cannot say wrote for by his own confession he could neither read nor write I ne kan decheinen buochstap he says in Parzival and in Willehalm Waz an den buochen steht geschrieben Des bin Ich kunstelos geblieben and his poems must therefore have been orally dictated was one peculiarly fitted to develop his special genius To be continue in this ebook
