[The Green Fairy Book \(Classic Reprint\)](#) Andrew Lang, 2015-07-16 Excerpt from The Green Fairy Book Some of the stories were made not only to amuse but to teach goodness You see in the tales how the boy who is kind to beasts and polite and generous and brave always comes best through his trials and no doubt these tales were meant to make their hearers kind unselfish courteous and courageous This is the moral of them But after all we think more as we read them of the diversion than of the lesson There are grown up people now who say that the stories are not good for children because they are not true because there are no witches nor talking beasts and because people are killed in them especially wicked giants But probably you who read the tales know very well how much is true and how much is only make believe and I never yet heard of a child who killed a very tall man merely because Jack killed the giants or who was unkind to his stepmother if he had one because in fairy tales the stepmother is often disagreeable If there are frightful monsters in fairy tales they do not frighten you now because that kind of monster is no longer going about the world whatever he may have done long long ago He has been turned into stone and you may see his remains in museums Therefore I am not afraid that you will be afraid of the magicians and dragons besides you see that a really brave boy or girl was always their master even in the height of their power About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such
